#### A. Letter to shareholders

2017 is a relatively stable year for the global economy. Despite that there are still uncertain factors in the main economies, the overall global economy is growing steadily. In addition, the industrial development is also heading toward the trend of the big becoming bigger and the strong getting stronger. The competitions among the industries are also becoming more severe and intense. Competition does not merely exist in the performance of the business operation but also exists in the product innovation, technology breakthrough, employee training, and even exists in the care and contribution of community harmony development CSR, such that Flexium Interconnect, Inc. is being tested for its value, including its capability in providing quality service to customers continuously, achieving stable earning for investors and whether the Company is able to act as a prudent citizen of the earth. Under such a diverse competitive environment, we sincerely thank all employees for their hard work and the assistance of all upstream and downstream cooperative partners, making the year of 2017 as a glory year for Flexium Interconnect Inc. It also means that the customer service, technology breakthrough and product development of Flexium Interconnect, Inc. have been greatly recognized in the industry. In addition to the revenue growth, the earning yields of the Company are also ranked top in the flexible circuit board industry, meaning that under the severe competition in the flexible circuit board industry, Flexium Interconnect, Inc. is able to continue to maintain its market competitiveness. Although the revenues and earnings have increased from last year, the gross margin decreased slightly in comparison to that in 2016, indicating that there is still room for improvement in terms of the operation management, technology innovation and automation of the Company. Flexium Interconnect, Inc. will continue to implement the medium-to-long term strategic business operation principles of the Company, to optimize and improve the operation abilities on customers, talents, technologies, systems and management in order to allow the Company's competitiveness to continue to increase in the industry.

#### **Business operation outcome**

In 2017, the consolidated revenue of Flexium Interconnect, Inc. is NT\$ 25.846 billion, an increase of 35.3% over the NT\$ 19.096 billion in 2016; the gross profit is NT\$ 5.662 billion, a decrease of 24.7% from NT\$ 4.539 billion in 2016; gross margin is 21.9%, a decrease of 1.9% from the 23.8% in 2016; the net profit after tax is NT\$ 3.057 billion, an increase of 34.4% from the NT\$ 2.275 billion in 2016; the basic earnings per share is 10.07 dollars, an increase of 1.65 dollar from the 8.42 dollars in 2016.

Note: There was no publicly announced financial forecast in 2017; therefore, the budget achievement status is not available.

#### Market trend

With the continuous economic development, the people's demands for friendly, safe and healthy facilities become higher; accordingly, the growth of the corresponding industries, such as mobile device platform, automobile electronics, Internet of Things, artificial intelligence and health/recreation and medical safety can be expected. In addition, as the Big Data analysis and cloud computing continue to flourish, for the realization of socialization, customization and even individual integrated products and services, the Company will continue to improve in order to satisfy the exclusive and unique expectations of its customers. In view of the diversity and demands of such products, winners of flexible board modules will be providers capable of providing solutions integrating high frequency, wireless, voice, safety, high density and flexible overall modules circuits. Accordingly, the Company will focus on the aforementioned key technology developments in order to provide quality products and services.

#### Status of research and technical development

The vision of Flexium Interconnect, Inc. is to become a leading global flexible module solution provider. In terms of the technology development, in addition to the two major fields of FPC and FPCA, there are new breakthroughs in the technologies of high frequency and semi-conductor application. The technical aspect includes the materials, circuit design manufacturing technique, module test, high-frequency and wireless, flexible printed circuit board, automation equipment. The new Kaohsiung plant FPC capable of reaching the fine circuit of 20/20 um roll-to-roll automatic production line has been in operation officially in 2017, which is beneficial to the revenue. The long term planning of FPCA in China focuses on automatic production line that is of high efficiency and man-machine integration, which is also in mass production since the 2017 operation. High frequency and semiconductor products have also been certified and approved by customers one after another. These technologies and manufacturing process breakthroughs can become the driving force for the growth of the revenue and profit of the Company in the next stage. Flexium Interconnect, Inc. Positions itself as a diverse technology solution provider, and research and development is the core for the Company to maintain competitiveness continuously, and the Company will continue to invest in research and development as well as technologies in order to develop high-end and high value-added products. The Company looks forward to grow and develop further with clients together.

### Reputation and corporate social responsibility

Flexium Interconnect, Inc. is honorably published in "the Top 2,000 Corporates in the Taiwan Survey by the CommonWealth Magazine: ranked as the 173rd Company in manufacturing industry 2016, ranked 86th in net income after tax, and ranked 233th in profitability", where in the growth rate and profitability we are ranked No. 1 in flexible board plants in Taiwan. In addition, the Company also continues to invest in the talent cultivation such that the Company rises above all competitors. In 2016, the Company received the "Enterprise Mechanical Board Golden Award" of the National Talent Quality-management System (TTQS). In 2017, Flexium Interconnect, Inc. also received the honor of occupational safety and health excellence unit from the Labor Affairs Bureau of Kaohsiung City Government. In the same year, the Company further received the "Outstanding Member Enterprise Award" in the National Industrial Section Outstanding Unit and Personnel Award in the Industrial Section Occupational Safety and Health Promotion Plan. In addition, the Company has also received numerous awards of "Top 10 Export/Import Enterprises", "Transformation and Upgrade Advanced Industry" and "Green Ecological Development Advanced Enterprise" issued by the Kunshan City Government of Suzhou. In 2017, the Company completes the establishment of the enterprise social responsible report and has also actively participated in the community construction activities. In addition to the formation of Daai Volunteer Group, organization of blood donation activity, donation of fire rescue vest and police patrol cars, the Company has also helped schools and kindergartens to additionally install necessary hardware facilities in order to realize the spirit of corporate social responsibility.

#### **Future outlook**

Looking ahead to 2018, the development of market competition will become more severe and despite that there are still some slow growth in the smartphones, the market is nearly saturated. It is expected that the growth point for the next stage will be during the introductions of the fast high-frequency 5G, where the consumers' demands for seamless connection and quick response of media, identification and safety. In addition, for the self-driving vehicles for onboard electronics, with the evolution of the technology of high frequency, the communications between vehicle and man, vehicle and vehicle at high speed driving are being realized; therefore, transportation tools that are more comfortable and safer will become the engine driving the future growth. Furthermore, the servers, optical communication products necessary for the cloud computing of Big Data,

medical care, health and sports industries also require flexible boards that are slim and small in size, which can also bring multiple times of growth to the Company continuously. Flexium Interconnect, Inc. will continue to invest in the resources and manpower in the research and development of technologies related to high frequency, onboard electronics, health and Medicare, optical communication in order to establish the long-term development competition advantages of the Company. Moreover, the Company also continuously develops Flexium Interconnect, Inc. exclusive APP software such that the Company is able to shorten the gaps among management levels effectively through remote, real-time, KPI and mobile management as well as effectively control the product shipping details, thereby ensuring the consistency of the business operation and production and the flexibility of the market change.

Flexium Interconnect, Inc. treasures every dollar invested by the shareholders, and increasing the business performance to maintain the competitiveness of the Company is the best feedback to all shareholders. We thank all shareholders for your long-term support, feedbacks and encouragements. I sincerely thank all dedicated employees and cooperative partners of Flexium Interconnect, Inc. On behalf of the management team of Flexium Interconnect, Inc., I also sincerely thank the supports of all shareholders and wish everyone great health and prosperity! Best wishes!

Chairman: Ming-Chi Cheng Managerial Person: Ming-Chi Cheng Accounting Supervisor: Arthur Shiung

(6) The policies, standards, combinations, procedure of decision-making of remunerations and their relation to business performance and future risk:

Pursuant to Article 29-1 of the Article of Incorporation of the Company, the remuneration of directors and supervisors of the Company shall not be higher than 2%, and the Company operation outcome shall be considered along with the review on individual's contribution to the performance of the Company in order to provide reasonable remunerations. The remunerations of the president, vice presidents and managers shall be determined according to the salary payment standard of the Company and their background as well as business operation performance. To establish the procedure for remuneration, in addition to the consideration of the Company's overall business operation performance, future operating risks of the industry and development trend, the individual performance achievement rate and contribution to the performance of the Company is also considered in order to provide reasonable remuneration, and relevant performance valuation and salary reasonability shall be reviewed by the salary and remuneration committee and board of directors. In addition, the remuneration system shall be reviewed according to the actual operating status and relevant laws appropriately at all times in order to seek the sustainable operation and balance of risk control of the Company.

#### Other notes:

I. Where the operations of the board of directors are subject to any one of the following conditions, the date, session number of board of directors' meeting, proposal content, comments of all independent directors and the resolution of the Company for the comments of the independent directors shall be described:

1. Matters specified in Article 14-3 of the Securities and Exchange Act:

| Date       | Туре                                       | Proposal content  | Comments<br>of all<br>independen<br>t directors | Resolution of the<br>Company for<br>comments of<br>independent<br>directors |
|------------|--|---|---|---|
| 2017.1.25  | 5th session of 8th<br>year of the Meeting  | Proposal on the Company establishing new subsidiary at PRC via third place investment     Proposal on the land and facility acquisition of the Company for newly established subsidiary | No<br>comments                                  | Approved according to proposal content                                      |
| 2017.5.4   | 7th session of 8th year of the Meeting     | Proposal on change of CPA according to the Meeting  | No<br>comments                                  | Approved according to proposal content                                      |
| 2017.8.4   | 9th time of 8th year of the Meeting        | 1. Approval on subsidiary investment loan case  | No<br>comments                                  | Approved according to proposal content                                      |
| 2017.11.1  | 10th session of 8th year of the Meeting    | Proposal on the disposal of financial products of<br>the Company  | No<br>comments                                  | Approved according to proposal content                                      |
| 2017.12.21 | 11th session of 8th<br>year of the Meeting | Proposal on revision of the "Board of Directors' Meeting Regulations" of the Company     Proposal on the revision of the "Procedures for Asset Acquisition or Disposal" of the Company  | No<br>comments                                  | Approved according to proposal content                                      |

Except for the aforementioned matters, other resolutions of the board of directors' meeting rejected by the independent directors
or reserved comments and are accompanied with records or written declarations: None.

- II. For the execution status of the recusal of conflict of interests of directors, the name of the director, proposal content, reasons of recusal and voting participation status shall be described.
  - 1. 6th time of 8th year of Board of Directors' meeting dated 2017.2.21 of the Company
    - (1) Discussion on the 2016 independent directors' remuneration distribution case of the Company. Since directors Shun-De Chang and Chien-Hui Kung are the interested parties of this case, they have actively recused themselves from the discussion and resolution thereof.
    - (2) Discussion on the 2016 directors' remuneration distribution case of the Company. Since directors Ming-Chi Cheng, Yung-Chang Chen, Jeng Xi Shih, Tzu-Tang Lan and Ji-Yan Liang are the interested parties of this case, they have actively recused themselves from the discussion and resolution thereof.
    - (3) Discussion on the managers' remuneration distribution case of the Company. Since directors Ming-Chi Cheng and Tzu-Tang Lan are the interested parties of this case, they have actively recused themselves from the discussion and resolution thereof.
  - 2. 11th time of 8th year of Board of Directors' meeting dated 2017.12.21 of the Company
    - (1) Discussion on the managers' 2017 H2 operating bonus distribution case of the Company. Since directors Ming-Chi Cheng and Tzu-Tang Lan are the interested parties of this case, they have actively recused themselves from the discussion and resolution thereof
- III. Measures undertaken during the current year and past year in order to strengthen the functions of the board of directors:
  - 1. The Company has enacted the parliamentary rules for directors' meetings pursuant to the laws. The functions and operations of the board all comply with the rules and related laws. The internal chief auditor will also attend the directors' meeting to report on the status of the internal audit.
  - 2. Directors may communicate with the chief auditor and CPAs via phone, fax or email.
  - 3. The Company established the Remuneration Committee on December 22, 2011, which is responsible for helping the Board assess and determine the remuneration to directors and managers periodically, and discuss the performance appraisal on directors and managers, and the policy, system, standard and structure remuneration periodically.
- IV. Communication between the independent directors and internal chief auditor and CPAs:
  - 1. Communications between internal audit supervisor and independent directors:
    - (1) The internal audit supervisor of the Company shall provide an audit service report to the independent directors periodically during the board of directors' meeting, and shall communicate the audit report outcome to the committee members.
    - (2) Shall perform communications, guidance and response periodically through telephone, email or in person.
    - (3) In case of major special matters, reports to each independent director may also be made timely.
  - 2. Communications between CPA and independent directors:
    - (1) The Company's CPA shall perform communication meetings with the members of the board of directors irregularly in order to provide reports on the latest laws and financial statement review or audit results as well as internal audit status to the independent directors.

#### (II) Supervisors' participation in the operation of the Board

The Company held <u>7th</u> session (A) of the board of directors meetings in 2017., and the attendance record of the supervisors is listed as below:

| Job title  | Name          | Actual attendance (B) | Actual attendance rate (%) | Remark  |
|------------|---------------|-----------------------|----------------------------|---|
| Supervisor | Xun-Po Chuang | 7                     | 100.00                     | Reelected on June 28, 2016  |
| Supervisor | Pei-Ru Lin    | 7                     | 100.00                     | Reelected on June 28, 2016  |
| Supervisor | Xin-Bin Fu    | 3                     | 100.00                     | The supervisor resigned on 2017/5/31 and listed for attending for 3 times |

#### Other notes:

- I. Organization of supervisors and their duties: The Company has appointed 3 supervisors. The Board will always invite the supervisors to attend the directors' meeting and state their opinion to help control the Company's overview of operation, supervise the operation of the Board and state their opinion in a timely manner.
- II. Communication between the supervisors and employees and shareholders: If the supervisors deem it necessary, they may talk to employees and shareholders directly via phone, fax or email.
- III. Communication between the supervisors and internal chief auditor and CPAs:
  - 1. Communications between internal audit supervisor and supervisor:
    - (1) The internal audit supervisor of the Company shall provide audit service report to the supervisor periodically during the board of directors' meeting, and shall communicate the audit report outcome to the committee members.
    - (2) Shall perform communications, guidance and response periodically through telephone, email or in person.
  - (3) In case of major special matters, reports to each supervisor may also be made timely.
  - 2. Communication between CPA and supervisor:
  - (1) The Company's CPA shall perform communication meetings with the supervisors irregularly in order to provide reports on the latest laws and financial statement review or audit results as well as internal audit status to the supervisors.
- IV. If any supervisor attends the directors' meeting to state their opinion, it is necessary to specify the date, session, motions and resolution of the directors' meeting, and the Company's response to the opinion stated by the supervisor: None.

| 7. Disclosure of information  |          |    |  |  |
| (1) Whether or not the Company has established a website for disclosure of its financial position and status of corporate governance?   | <b>√</b> |    | (1) The Company has established a website (www.flexium.com.tw) in Chinese, English and<br>Japanese, disclosing the financial and company governance information, and dedicated personnel<br>are responsible for the maintaining the update of the information. In addition, relevant<br>information can be searched through the public information observation station.  | No deviation   |
| (2) Whether or not the Company also adopts other means for disclosure (e.g. set-up of an English website, appointment of dedicated personnel to collect and disclose the Company's information, implementation of spokesman system, and posting of the meeting minute with institutional investors on the Company's website)?                                       |          |    | (2) The Company has designated dedicated personnel (Financial Department personnel) to collect<br>and disclose the information in order to control the Company's external information, and also<br>appoints spokesman and deputy spokesman in order to disclose the latest and correct information<br>of the Company via newspaper or important information irregularly. In addition, the information<br>related to the overview of finance and business disclosed at the Company investors' meeting has<br>been input into the MOPS per the requirements by TWSE.   |  |

<sup>8.</sup> Whether or not the Company has other important information helpful in understanding the Company governance operation status?

The Company has handled the matter according to the Labor Standards Act and the human resource regulations in order to ensure that the employee welfare, pension system and various welfares are properly protected.

#### (2) Investor relations:

The Company delegates dedicated personnel to disclose the important messages about finance, business and changes of insiders' shareholdings on the "MOPS" per the relevant requirements in a timely manner, in order to make the information public and transparent. In addition, a spokesperson and deputy spokesperson are also appointed, and the Company's website is also set up to disclose the information required to be disclosed per the requirement at the same time. If necessary, investors may contact the Company via telephone, fax or email at any time.

<sup>(1)</sup> Employees' interest and rights and care for employees:

| Item |     |    | Status  | Deviation from the<br>Corporate<br>Governance<br>Best-Practice          |
|------|-----|----|---------|---|
|      | Yes | No | Summary | Principles for<br>TWSE/GTSM<br>Listed Companies,<br>and reasons thereof |

(3) Relationship with suppliers:

The Company has defined the supplier management procedure to assess the environmental protection, safety & health, and green products of the suppliers, and to integrate the procurement procedure, so as to select suppliers. In addition, the Company's website is also equipped with the anti-corruption complaining mailbox. The Company also demands that colleagues and suppliers shall avoid unethical conduct and conflict of interest. Any case against the statement of integrity may be complained via 109@flexium.com.tw, in order to protect suppliers' interest and right.

(4) Interested party's rights:

The Company maintains fair communication channels with employees, customers and suppliers to maintain both parties' legal interest and right. The Company's website also provides the "investment section" to disclose the Company's financial and stock information, and the spokesperson is delegated to answer investors' questions.

(5) Continuing education of directors and supervisors:

Latest status on continued education:

# (9)Status of internal control system:

### 1. Statement on Internal Control System:

#### 台郡科技股份有限公司 內部控制制度聲明書

日期:107年2月7日

本公司民國 106 年度之內部控制制度,依據自行評估的結果,謹聲明如下:

- 一、本公司確知建立、實施和維護內部控制制度係本公司董事會及經理人之責任, 本公司業已建立此一制度。其目的係在對營運之效果及效率(含獲利、績效及保 障資產安全等)、報導具可靠性、及時性、透明性及符合相關規範暨相關法令規 章之遵循等目標的達成,提供合理的確保。
- 二、內部控制制度有其先天限制,不論設計如何完善,有效之內部控制制度亦僅能對上 返三項目標之達成提供合理的確保;而且,由於環境、情況之改變,內部控制制度 之有效性可能隨之改變。惟本公司之內部控制制度設有自我監督之機制,缺失一經 辨認,本公司即採取更正之行動。
- 三、本公司係依據「公開發行公司建立內部控制制度處理準則」(以下簡稱「處理準則」)規定之內部控制制度有效性之判斷項目,判斷內部控制制度之設計及執行是否有效。該「處理準則」所採用之內部控制制度判斷項目,係為依管理控制之過程,將內部控制制度劃分為五個組成要素:1.控制環境,2.風險評估,3.控制作業,4.資訊與溝通,及5.監督作業。每個組成要素又包括若干項目。前述項目請參見「處理準則」之規定。
- 四、本公司業已採用上述內部控制制度判斷項目,評估內部控制制度之設計及執行 的有效性。
- 五、本公司基於前項評估結果,認為本公司於民國106年12月31日的內部控制制度(含 對子公司之監督與管理),包括瞭解營運之效果及效率目標達成之程度、報導係 屬可靠、及時、透明及符合相關規範暨相關法令規章之遵循有關的內部控制制 度等之設計及執行係屬有效,其能合理確保上述目標之達成。
- 六、本聲明書將成為本公司年報及公開說明書之主要內容,並對外公開。上述公開 之內容如有虛偽、隱匿等不法情事,將涉及證券交易法第二十條、第三十二條、 第一百七十一條及第一百七十四條等之法律責任。
- 七、本聲明書業經本公司民國107年2月7日董事會通過,出席董事7人中,無人持反 對意見,均同意本聲明書之內容,併此聲明。

- Note 1: Please identify the status of distribution according to the resolution made by the shareholders' meeting held in the following year.
- Note 2: If it is necessary to make adjustment retroactively due to Free-Gratis dividends, please identify the EPS before and after adjustment.
- Note 3: If the terms and conditions under which the equity securities are issued provide that the stock dividend retained in the then year may be accumulated until the year in which there are allocable earnings available, please disclose the retained stock dividend accumulated until the then year.
- Note 4: Price-Earnings Ratio = Average closing price per share in current year/earnings per share.
- Note 5: Dividend yield = average closing price per share in current year/cash dividend per share.
- Note 6: Cash dividend yields = cash dividend per share/average closing price per share in current year.
- Note 7: Up to the printing date of the annual report, the board of director has not approved the 2017 surplus distribution proposal.
- Note 8: Up to the printing date of the annual report, all financial statements for the first quarter have been reviewed completely by CPA.

#### (6) Dividend policy and status of implementation

1. Dividend policy defined under the Articles of Incorporation

Article 29: If the Company has surplus profits after annual accounting of revenues and expenditures, it shall have its losses covered and all taxes and dues paid and set aside ten percent of the remaining profits as a legal reserve. However when the legal reserve amounts to the authorized capital, this shall not apply. In addition, after a

special reserve is provided or reserved in compliance with the laws and regulations, the board of directors may combine the remaining balance with the undistributed earnings at beginning period as accumulated distributed earnings, and depending on the available fund and economic situation, to submit proposal for approval in the shareholders meeting for earning distribution.

Article 30: The industry that the Company is in is still in the growing stage. The Company expects it will have cash demand for the expansion of production line in the coming years. The proposal to distribute earnings out of distributable accumulated earnings in relation to Article 29 is submitted for approval by the Shareholders Meeting. Among which, the cash dividends shall not be less than 5% of total dividends distributed. However if cash dividend will be less than NT\$ 0.1 per share it will not be distributed, the stock dividends will be distributed instead.

- 2. Status of distribution of dividends proposed at the 2017 shareholders' meeting: Up to the printing date of the annual report of current fiscal year, the board of director of the Company has not yet approved the proposed amounts for the distribution of dividends and the distribution of employee remuneration and director remuneration; relevant information can be searched via the Market Observation Post System after the convention of relevant meetings.
- 3. Expected materials changes in the dividend policy: None.
- (7) The Impact of allotment of free dividends on business Performance and EPS: Not applicable.
- (8) Remuneration to employees, directors and supervisors:
  - 1. Proportion or scope of employee bonus and remuneration to directors/supervisors as stated in the Company's Articles of Incorporation:

Depending on the profits of the current year, the Company shall distribute no lower than 2% of the profit as employees' compensation, and no higher than 2% of the profit as compensation to directors and supervisors. However, if the Company has accumulated losses the profits shall be used to cover the losses before it can make any distribution.

The employee's compensation may be distributed in stocks or cash, the parties to whom the compensation distributed to may include employees of affiliated companies

The profit of current year mentioned in the first item refers to the profit before tax in current year inclusive of the compensation to employees, directors and supervisors. A Company may, by a resolution adopted by a majority vote at a meeting of board of directors attended by two-thirds of the total number of directors, have the profit distributable as compensation to employees, directors and supervisors, and reported to the shareholders meeting for approval.

- 2. The accounting in the case of deviation from the basis for stating employee bonus and remuneration to directors/supervisors, the basis for calculating the quantity of stock dividends to be allocated, and the actual allocation:
- It is deemed to be a change in accounting estimates and is listed as the change of annual profit and loss.
- 3. Information about the motion for allocation of remuneration resolved by a directors' meeting:
  - (1) The amount of remuneration to employees distributed in cash or stock, and remuneration to directors and supervisors.
    - A. Resolved to allocate for the employees the cash dividend NT\$93,000 thousand dollars, which has no deviation from that, NT\$93,000 thousand dollars,

estimated in the financial statement 2017.

- B. Resolved to allocate the directors/supervisors the remuneration, NT\$15,000 thousand, which has no deviation from that, NT\$15,000 thousand, estimated in the financial statement 2017.
- C. The cause resulting in discrepancy from the estimated figures for employee bonus and remuneration to directors/supervisors, and the status of treatment: Not applicable, as there is no discrepancy.
- (2) The amount of remuneration to employee distributed in stocks, and the size of that amount as a percentage of the sum of the after-tax net income and total remuneration to employees: None.
- 4. Allocation of remuneration reported at a shareholders' meeting, and the result thereof:

The motion for allocation of earnings 2017 is still under resolution by the shareholders' meeting.

5. Actual distribution status of the remunerations for employees, directors and supervisors of the previous fiscal year:

The 2016 distribution proposal approved in the shareholders' meeting dated June 22, 2017 of the Company is as follows:

| Item                                      | Shareholders' meeting resolution Distribution amount (NT\$) | Original board of director's resolution Distribution amount (NT\$) | Difference |
|---|---|--|------------|
| Employee cash bonus                       | 73,000,000  | 73,000,000   | None       |
| Remuneration of directors and supervisors | 15,000,000  | 15,000,000   | None       |

#### III. Status of preferred shares

None

#### IV. Status of GDR/ADR

None

#### V. Status of employee stock option certificate and new restricted employee shares

(1) Unexpired employee stock option certificates issued by the Company in existence and the effect of such certificates upon shareholders' equity

April 30, 2018

| Type of employee stock option certificate  | First (session) employee stock option certificate in 2009  |
|--|--|
| Effective date of declaration  | March 17, 2010   |
| Issuance (processing) date   | March 18, 2010   |
| Total number of units for issuance   | 3,000 units  |
| Ratio of subscribable shares to total issued shares Ratio of total number of issued shares | 2.19 %   |
| Subscription period  | 10 years   |
| Exercise method  | Issuance of new shares   |
| Period and ratio in which subscription is restricted                                       | Upon expiration of two years after the issuance, 50%<br>Upon expiration of three years after the issuance, 75%<br>Upon expiration of four years after the issuance, 100%   |
| Number of shares that have been obtained through exercise of subscription rights           | 2,147,750 shares   |
| NT dollar amount of the shares subscribed  | NT\$ 79,519,065 dollars  |
| Number of shares that have not been subscribed   | 727,250 shares   |
| Subscription price per share of the unsubscribed shares                                    | NTS 24.4   |
| Ratio of the number of unsubscribed shares to the number of issued (%)                     | 0.24 %   |
| Effect on shareholders' equity   | The Company's employee stock option certificates will be executed in four years upon expiration of two years after issuance of the same. The original shareholders' equity will be diluted year by year. By so doing, the employees may be encouraged to serve in the Company permanently and the Company may promote their loyalty to the Company to create the interest for the Company and shareholders altogether to benefit the shareholders' equity. |

(2)Names and subscription status of managers who have obtained employee stock option certificates and of employees who rank among the top ten in terms of the number of shares to which they have subscription rights through employee stock option certificate acquired, cumulative to the date of publication of the annual report.

Note 1: Resigned

Note 2: The total number of issued shares refers to the number of shares registered in the change registration information at the Ministry of Economic Affairs.

(3)Restriction on employee share subscription warrant: None.

## VI. Mergers and acquisitions, or as assignee of new shares issued by another Company

None

#### VII. Status of execution of capital utilization plan

- (1) Issuance of domestic 4th unsecured corporate bond effective in March 2016
  - 1. Content of plan:
    - (1) Date and No. of the competent authority's approval letter: Ching-Kuan-Cheng-Fa-Tze No. 1050008070 dated March 25, 2016.
  - (2) Total fund required by the plan: NT\$1,600,000 thousand
  - (3) Source of fund: Issuance of 16,000 domestic 4th unsecured corporate bonds, at the face value of NT\$100 thousand per piece, with the duration of two years and eight months and at coupon rate 0%. The total issue amount was NT\$1,600,000 thousand and the bond was issued at full face value.
  - (4) Scope of plan, progress of utilization and projected effect

Unit: NT\$ in thousand

|                                | C.1. 1 1 1                | Total amount            | Projected utilization progress |         |         |         |  |
|--------------------------------|---------------------------|-------------------------|--------------------------------|---------|---------|---------|--|
| Scope of plan                  | Scheduled completion date | of funds<br>required    |                                | 2017    |         |         |  |
|                                |                           |                         | Q2                             | Q3      | Q4      | Q1      |  |
| Expansion of factory equipment | Q1 of 2017                | 1,600,000               | 118,000                        | 412,000 | 641,000 | 429,000 |  |
| Tota                           | 1,600,000                 | 118,000 412,000 641,000 |                                |         | 429,000 |         |  |

The funds required by the plan totaled NT\$1,600,000 thousand, primarily in order to cover the capital expenditure for optimization of the high-rank production technology. The expected effects upon mass production in Q3 of 2017 in each of following years are summarized as following:

Unit: Square meter/NT\$ thousand dollars

|      | _                                   |         | Sale    | Operating | Operating    | Operating |
|------|-------------------------------------|---------|---------|-----------|--------------|-----------|
| Year | Item                                | Output  | volume  | revenues  | gross profit | profit    |
| 2017 | High-rank flexible circuit products | 24,300  | 24,300  | 925,542   | 176,778      | 158,268   |
| 2018 | High-rank flexible circuit products | 48,600  | 48,600  | 1,705,958 | 332,662      | 298,543   |
| 2019 | High-rank flexible circuit products | 51,030  | 51,030  | 1,521,397 | 293,630      | 263,202   |
| 2020 | High-rank flexible circuit products | 53,582  | 53,582  | 1,356,803 | 260,506      | 233,369   |
|      | Total                               | 177,512 | 177,512 | 5,509,700 | 1,063,576    | 953,382   |

Duration of estimated effect: 3.9 years

#### 2. Status of plan execution:

The Company's issuance of domestic 4th unsecured corporate bond effective in March 2016 is scheduled to be executed in Q1 of 2017. The status is stated as following

Unit: NT\$ in thousand

| Project item        | Status       |           | Accumulated until Q1 of 2018 | Reason why the plan is<br>ahead of or fall behind the<br>schedule, and improvement<br>plan |
|---------------------|--------------|-----------|------------------------------|--|
|                     | Expenditure  | Scheduled | 1,600,000                    | Due to the payment terms   |
|                     |              | Actual    | 1,398,157                    | of the actual outsourced   |
| Expansion of        |              | Scheduled | 100%                         | contract is advantageous   |
| factory<br>premises | Progress (%) | Actual    | 87.38%                       | than the terms originally planned, the payment progress is postponed accordingly.          |

#### 3. Analysis on effect:

Unit: Square meter/NT\$ thousand dollars

| Yea | r It             | Item                |         | Sales amount | Sales value | Operating gross profit | Operating net profit |
|-----|------------------|---------------------|---------|--------------|-------------|------------------------|----------------------|
|     | High-rank        | Expected            | 24,300  | ,            |             | ,                      | ,                    |
| 201 | flexible         | Actual              | 104,263 | 104,263      | 3,899,150   | 610,790                | 493,694              |
| 201 | circuit products | Achieveme nt rate % | 429.07% | 429.07%      | 421.28%     | 345.51%                | 311.94%              |

The fund rising this time was used for the expansion of facility and purchase of machines and equipment in order to increase the production capacity of the high-rank flexible circuit products. Despite that payment process was delayed due to the negotiation seeking more advantageous payment terms, the plant construction progress (including the machine and equipment installation) was completed according to the predefined schedule, and mass production was carried out as expected in the third quarter of 2017. As shown in the table above, in view of the production amount, sales amount and profit in general, the achievement rate is above 311.94%, indicating that the mass production performance at that stage is excellent.

#### E. Overview of operations

#### I. Business contest

- (1) Scope of business
  - 1. Primary content of business

The Company and its subsidiaries are primarily engaged in design, development, manufacturing and sale of Flexible Print Circuit (FPC), and assembly, sampling and modules thereof.

2. Current products and business weight portion thereof:

| By product               | Net operating revenues (NT\$ thousand dollars) | Weight (%) |  |
|--------------------------|--|------------|--|
| Flexible printed circuit | 25,846,403                                     | 100.00     |  |

- 3. New products (services) under development:
- (1) Development of high frequency high speed flexible printed circuit.
- (2) Development of ultra-thin Flexible printed circuit
- (3) Development of multi-layer soft and hard composite panels

#### (2) Overview of industry

1. Current industrial condition and development

The flexible printed circuit is identified as a detailed industry of Printed Circuit Board (PCB), primarily serving to be the platform for installation, connection and linking of signals and current of various electronic parts, an indispensable basic spare parts for all electronic products. Compared with the rigid printed circuit, the flexible printed circuit has the advantages including continuous automatic production, increased circuit density, light, small, dynamic flexing, more integrated design, 3D circuit, omission of connector, and welding of electric wire to enable the products to meet the need for light, thin, short and small.

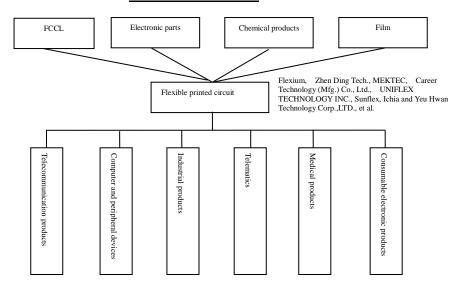

In the recent years, the down-stream end products have more emphasized such characters as light, thin and small and diversified functions, including smart phones, pads and wearable devices, which drove the modularity of multiple component functions, e.g. LCD module, camera lens module, touch panel module and LED back-light source module. The internal circuit design is also complicate relatively. The various modular functions need the flexible printed circuit as their conductor. Therefore, various flexible printed circuits have been developed for various modules.

The quality of flexible printed circuit varies depending on the characteristics of up-stream suppliers' materials, production process and level of technology. For example, LED back-light source flexible printed circuit requires the level of technology emphasizing heat-resistance, while the mobile phone lens module flexible printed circuit emphasizes high twistiness. Therefore, the flexible printed circuit industry pursues the completeness and compatibility of the up-stream, mid-stream and down-stream dealers.

#### 2. Relations with industries upstream, mid-stream, and downstream

Relations among the upstream, mid-stream and downstream of the flexible boar industry is shown in the following:

Chart showing relations with the flexible board industries upstream, mid-stream and downstream in Taiwan

#### 3.Development trends of products

For the time being, many new products require FPC badly. For example, in addition to the touch panel, a pad is also equipped with FPC on the related I/O device. Further, the other products, such as smart phone, MC PCB, e-book and wearable devices, also require FPC increasingly.

Considering that the end product will be developed oriented toward light, thin and short characteristics, and the flexible characteristics of FPC makes 3D layout in the limited mechanism possible, the space utilization becomes more and more important under the circumstance that the mechanism of a product is smaller and smaller. Under the circumstance that the internal space of an electronic product is limited increasingly, it is very important to make the circuit and spare parts inside the product become smaller.

The future growth will depend on (1) HDI board and (2) IC Substrate. The market scale thereof will grow drastically more than the entire market. FPC will be primarily applied to such high-tech electronic products as notebook, camera, smart phone, pad and wearable device, or the joint to be equipped with dynamic and 3D flexible circuits .

#### 4.Competition

The local procurement of raw materials of FPC, such as FCCL and PI, is critical to the industrial development. At the very beginning of FPC development in Taiwan, the raw materials were primarily supplied by Japan, and the profit to be sought by the relevant manufacturer was low. In the recent years, the manufacturers engaged in processing FCCL, such as Taiflex and Dupont, developed considerable production capacity in Taiwan and Mainland China. Therefore, there is no concern about supply of raw materials, and the price becomes more competitive.

Mobile devices and new devices and technology evolve rapidly and

thereby make the competition become more and more intensive. The Company outperforms the others because it not only engages in production and sale of the FPC for computers, LCD, consumable electronic products and e-equipment, and the FPC similar to navigation screen for car, but also participates in the discussion with customers about design to the stage of product design, in order to control the cost effectively. Meanwhile, with the speedy and rapid service, the Company provides customers with the one-stop service ranging from production to shooting of trouble.

#### (3)Overview of technology and R&D

1.R&D expenses invested in the most recent year and until the date of publication of the annual report

|   |       |    |    |      |      |

| Year                     | 2017       |
|--------------------------|------------|
| R&D expenses             | 1,005,855  |
| Operating revenues       | 25,846,403 |
| To operating revenue (%) | 3.89       |

2.Technology or product developed successfully in the most recent year and until the date of publication of the annual report

| By product                                 | Technology                                     |  |  |
|--|--|--|--|
| By product                                 | C,   |  |  |
| Substrate-like flexible printed circuit    | High-frequency insertion loss measurement      |  |  |
| boards, high-frequency and high-speed      | technology development, substrate-like RTR     |  |  |
| flexible printed circuit boards, flexible  | manufacturing technology development,          |  |  |
| printed circuit boards for onboard system, | surface mount technology, automatic            |  |  |
| touch control type of flexible printed     | inspection technology, IC function electrical  |  |  |
| circuit boards, flexible printed circuit   | testing technology, laser BMV application      |  |  |
| boards for wearable device applications    | technology, fine-line flexible printed circuit |  |  |
|  | board  |  |  |

- (4) Long-term and short-term business development plan
  - 1. Long-term plan: dedication in the improvement of product technologies of the high-frequency and high-speed, could system applications, e.g. Smart TV, Smart Car and Smart PC, and material research and development.
  - 2. Short-term plan: Continue to develop the existing primary customers thoroughly, integrate technical service team, focus on non-main stream product lines of consumer electronics, such as onboard and medical products as well as the development of other products.

#### II. Overview of market and production and marketing

- (1) Market analysis
  - 1. Territories where the Company's main products are sold

Unit: NT\$ in thousand

|           |                                      | 2016       | 2016   |            |        |
|-----------|--------------------------------------|------------|--------|------------|--------|
| Territory |                                      | Amount     | %      | Amount     | %      |
|           | Domestic marketing                   | 1,041,557  | 5.45   | 1,686,990  | 6.53   |
|           | Asian region                         | 6,649,671  | 34.82  | 9,264,305  | 35.84  |
| Export    | Territories in Europe and the U.S.A. | 11,405,055 | 59.72  | 14,895,108 | 57.63  |
|           | Sub-total                            | 18,054,726 | 94.55  | 24,159,413 | 93.47  |
| Total     |                                      | 19,096,283 | 100.00 | 25,846,403 | 100.00 |

#### 2. Market share and future supply & demand and growth of the market

Presently, the main applications of the flexible circuit boards are smartphone, NB, tablet, panel, digital camera, onboard electronics, smart wearable device related products. Consequently, the supply status of the industry and future growth of the Company and its affiliates are closely related to the market trends of information and consumer electronic products.

In recent years, as the mobile device product diversity increases, including smartphones, tablet computers, various types of wearable devices..., they are all driving the global demands for flexible products, and even in the automobile electronic field, flexible circuit board products can also be found. Therefore, flexible circuit board is one of the type of products with potential growth in the global circuit boards. According to the statistics of Taiwan Printed Circuit Association (TCPA), in 2016, the flexible circuit board industry in Taiwan accounts for the market share of 38%, which is not only the highest in the world, the production value even reaches NT\$ 115,44 billion dollars. Economics and Knowledge Center (IEK) also estimates that with the economic growth, the global flexible circuit board market will continue to grow in 2018, and the total production value is expected to reach US\$ 12.5 billion dollars. In addition, according to the prediction made by IDTechEx, by 2020, the market scale of flexible circuit boards can be increased to US\$ 26.2 billion dollars. In terms of the supply, as the global handheld 3C electronic product market continues to expand, the market also expects the demands for flexible circuit boards to increase. Nevertheless, since the market is being emphasized greatly, a lot of small manufacturers start to enter into the market, which can lead to price competition and severe reduction, and the result of extreme chaos of market order can lead to decrease of profit for flexible circuit board industry, or even loss can also occur. With the supply over demand of the flexible circuit boards in the market and the impact of the financial crisis, some small manufacturers have withdrawn from the market. In addition, with manufacturers not able to withstand the loss exit the market continuously, the market order has gradually recovered. Therefore, with the limitations on the growth of the amount of supply, for the amount of demand, the existing product demand is maintained along with the increasing popularity of market acceptance for emerging application products of electric vehicles, industrial IoT, smart voice assistant devices, it is expected to drive the demand for flexible circuit boards to continue to grow.

#### 3. Competitive niche

## (1) The excellent product quality recognized by international leading manufacturers

In recent years, the Company and its subsidiaries have adopted the most advanced roll to roll machine. Therefore, the real-time management and effective control has been delivered to the process consisting of product circuit design, module design technology and production. In addition to the international quality certification, the strict quality statistics control system makes the products of the Company and its subsidiaries recognized by the international leading manufacturers.

#### (2)Efficient management team

The management teams of the Company and its subsidiaries have earned plentiful experience in marketing, production and management in the FPC industry, and become the professional and top team in the FPC circle.

#### (3) Ability to upgrade advanced technology

The Company and its subsidiaries apply the roll to roll production process to upgrade the automation of product management and scientific technical management. Therefore, the quality of FPC produced by the Company and its subsidiaries is trustworthy. Further, in addition to establishing the subsidiary, FLEXIUM INTERCONNECT (KUNSHAN) INCORPORATION and FLEXIUM TECHNOLOGY (SUZHOU) INCORPORATION at the factory premises in Mainland China, the Company also invests in R&D of new products, expansion of the plant and purchase of new equipment to replace the old one with the new one.

4. Positive and negative factors for future development, and the Company's response to such factors

#### (1) Positive factors:

#### A. Market threshold is blocked:

Upon reorganization from 2004 to 2008, the FPC market price tended to be stable. In China, due to the environmental protection requirements and industrial upgrading plan, the FPC has been excluded from the incentive items following rigid printed circuit since 2008. This would help suppress the interruption caused by the new FPC production capacity to the market. Notwithstanding, as the Company and its subsidiaries have layout their business in territories of Mainland China for long time, no effect would be imposed on the Company and its subsidiaries therefor.

B. The FPC application keeps emerging on an ongoing basis, and there is no concern about the growth:

FPC is primarily applied to the binding of main panel and external components. Following the increasing diversification of smart phone functions, the additional external components are increasing relatively, e.g. the connection between screen and main panel, camera module and buttons etc. Generally speaking, the quantity of FPC applied to a smart phone is several multiple of that applied to the general mobile phone.

In the future, electronic products will become thinner and lighter with more diversified functions, indicating that the trend of portable electronic products. The FPC industry is expected to stimulate the growth of demand for FPC by following the trend.

#### (2) Negative factors:

#### A. High population density industry:

The production process of FPC per se is complicate, and the back-end production process requires massive labors. Nevertheless, due to the shortage of domestic labors and the increasing wage in Mainland China year by year, the product cost is increased and the competitive strength of product is weakened accordingly.

#### (3)Response to the factors

- A. Purchase automatic and semi-automatic test equipment, improve production process and quality, and increase employees' benefit to retain high-quality talents, and reduce the HR demand and operating cost to upgrade the Company's competitive strength.
- B. Transfer production of some middle-ranked and low-ranked products to the factory premises in Mainland China through the international breakdown, and introduce foreign employees adequately and perform professional

training on them permanently to solve the problem about shortage of domestic labors and talents.

#### (2) Important purpose and production process of main products

1. Important purpose of main products

| Main                         | Important purpose or function   |
|------------------------------|---|
| products                     |   |
| Flexible print Circuit board | Computer: Notebooks, tablet computers, printers and displays etc. Communication: Mobile phones and fax machines etc. Others: Stereo, TV, video recorder, video camera system, digital camera, electronic products for car, industrial instrument, and medical instrument etc. |

#### 2. Production process of main products

#### (3) Primary raw material supply status

The Company maintains long-term partnership relationship with suppliers of main raw materials to make the source of supply of main raw materials free from concern and make the cost most competitive.

(4)A list of any suppliers and clients accounting for 10% or more of the Company's total procurement (sales) amount in either of the most two recent fiscal years, the amounts bought from (sold to) each, the percentage of total procurement (sales) accounted for by each

#### 1.Information about main suppliers for the most recent two years

Unit: NT\$ thousand; %

|      | 2016         |            |                                      |                              | 2017         |            |                                      |                              |
|------|--------------|------------|--------------------------------------|------------------------------|--------------|------------|--------------------------------------|------------------------------|
| Item | Name         | Amount     | To the annual<br>net purchase<br>(%) | Relationship with the issuer | Name         | Amount     | To the annual<br>net purchase<br>(%) | Relationship with the issuer |
| 1    | Supplier A   | 3,270,648  | 28.85                                | None                         | Supplier A   | 3,793,205  | 19.73                                | None                         |
| 2    | Others       | 8,065,635  | 71.15                                | _                            | Others       | 15,436,914 | 80.27                                | _                            |
|      | Net purchase | 11,336,283 | 100.00                               |                              | Net purchase | 19,230,119 | 100.00                               |                              |

Over the last two years, the number of suppliers accounted for more than 10% of the material inbound of the Company is only 1 supplier, and the number of suppliers for material inbounds of the Company less than 10% accounts for 80%, which indicates that the main suppliers of the Company are in excellent cooperation, the material supply sources are stable, and there are no concentration of material inbound.

#### 2. Information about main customers for the most recent two years

Unit: NT\$ thousand; %

|      | 2016       |            |                            |                              | 2017       |            |                            |                              |
|------|------------|------------|----------------------------|------------------------------|------------|------------|----------------------------|------------------------------|
| Item | Name       | Amount     | To the annual net sale (%) | Relationship with the issuer | Name       | Amount     | To the annual net sale (%) | Relationship with the issuer |
| 1    | Customer A | 11,305,605 | 59.20                      | None                         | Customer A | 14,718,449 | 56.95                      | None                         |
| 2    | Others     | 7,790,678  | 40.80                      | _                            | Others     | 11,127,955 | 43.05                      | _                            |
|      | Net sale   | 19,096,283 | 100.00                     |                              | Net sale   | 25,846,404 | 100.00                     |                              |

Over the last two years, the number of customers accounted for more than 10% of the product sales of the Company is only 1 customer, and the number of suppliers for product sales of the Company less than 10% accounts for 40%, which indicates that the Company and the main branded customers are in stable cooperation relationship.

#### (5)Production value in recent two years

Unit: M2; NT\$ thousand dollars

| Year                          | 2016                |         |              | 2017                |         |              |
|-------------------------------|---------------------|---------|--------------|---------------------|---------|--------------|

#### IV. Environmental protection expenditure information

Total losses (including damage awards) and fines for environmental pollution for the most recent two years, and during the current fiscal year up to the date of publication of the annual report, future countermeasures (including corrective measures) and possible expenditure:

| Item                            | 2017 | 2018 up to the date of April 30 |
|---------------------------------|------|---------------------------------|
| Loss suffered for environmental | None | None                            |
| pollution                       |      |                                 |
| Future response                 | None | None                            |
| Possible expenditure            | None | None                            |

#### V. Labor relationship

(1)List any employee benefit plans, continuing education, training, retirement systems, and the status of their implementation, and the status of labor-management agreements and measures for preserving employees' rights and interests:

#### 1.Employee benefit plans

- (1)The Company maintains the labor insurance and health insurance for all of its employees and also contributes pension fund on a monthly basis, term group insurance of NT\$3 million to NT\$12 million for its employees, and additional travel insurance of NT\$5 million if the employees take a business trip.
- (2) Health examination each year.
- (3)Orientation training, on-the-job training, and periodic or irregular training inside and outside the factory;
- (4)Issuance of employee stock and dividend as well as quarterly performance bonus, year-end bonus according to the company business operation performance and employee individual performance.
- (5) Worker Welfare Commission will organize the employees' tour and family day periodically each year, and subsidize marriage, funeral and celebration, and also emergent relief, and also grant the coupon (gift) for three major festivals and birthday coupon.

#### 2. Continuing education and training

To increase the overall competitiveness and continuous development of talents, Flexium

Interconnect, Inc. has invested a lot of resources on employee trainings and development, such that through On-job training (OJT), Off-job training and Self-development of individuals, the work abilities and diverse professional skills can be improved. With our effort, in 2014, the Company received the Talent Quality-management System (hereinafter referred to as "TTQS") "Enterprise Mechanical Board Silver Award" from the Ministry of Labor, and in 2016, the Company further improved and received the Golden Award. It demonstrates that our efforts in the talent development and training performance are greatly recognized by the nation.

Flexium Interconnect, Inc. upholds the vision of "becoming the role model for global FPC industry training" for talent training and implement the training policy of "improvement promotion culture" such that through three main core occupational skill training and planning courses, the Company continues to improve the abilities of employees and to exploit innovation energy. Various key cultivation courses are created for employees at all levels. Through the method of "learning during practice, practice during learning," the professional and management abilities of employees can be improved such that the professional skills of employees can be developed while creating the maximum benefits for the Company.

In 2017, the total number of hours of employee training is 314,585 hours, and on average, each employee training hour is 66 hours. The content of the training includes new employee training, general knowledge courses, project management and various professional skill trainings. The annual training expense is of the total of approximately NT\$ 38.05 million dollars.

#### 3.Retirement system and implementation thereof

The Company has established the defined the appropriation for retirement in accordance with the "Labor Pension Act," which is applicable to employees of the nationality of R.O.C. The Company will contribute the pension fund equivalent to no less than 6% of the salary to the employee's personal pension account maintained at the Bureau of Labor Insurance, according to the labor pension system defined under the "Labor Pension Act" chosen by the employees. Employees' pension would be paid on a monthly basis or in a lump sum according to the balance in the employees' personal pension accounts and accumulated income generated therefrom.

In addition, according to the Labor Standards Act (old labor retirement in old system), 2% of the employee tax payable salary is appropriated to the labor retirement reserve at the old system retirement reserve account at the Trust Department of Bank of Taiwan.

#### 4. Status of labor agreement and employee interests and rights protection measures:

The Company is used to valuing humane management and adhering to the philosophy about "labor integration and intergrowth and co-prosperity". Therefore, the labor-management communication is handled in multiple manners to enable the labor and management to know each other better and develop toward the same goal.

(1)Complaint channel: The Company and its subsidiaries all have established the complaining channels immediately subordinated to the President's Office, so that the employees may report any illegal activity or event impairing employees' interest and right

- found by them in work to the supreme management via the confidential channels to rectify and maintain the employees' interest and right in a timely manner.
- (2)Staff meeting: The staff meeting shall be held on a bi-weekly basis, in order to discuss and solve multi-departmental problems and to propagate policies to make the management more reasonable and help operations more successful.
- (3)Monthly labor-management meeting: The meeting shall be held once per month in order to understand all employees' opinion and solve problems to gather employees' cohesion.
- (4) Worker Welfare Commission meeting: The labor-management members may conduct special discussion about the benefit plans at the Worker Welfare Commission meeting, including the comments on employees' work and life, in order to enable the labor and management to communicate with each other as the reference for the management.
- (2)Loss suffered due to labor disputes of the latest fiscal year and up to the printing date of annual report:

Regarding the damage indemnification case claimed by Ms. Ya-Jung Lai (former employee of the Company, plaintiff of this case) [litigation subject matter amount of NT\$ (same below) 9,170,480 dollars], the results of the first and second instance court rulings both ruled that claim of the Plaintiff was without merit. In addition, on December 13, 2017, the Supreme Court also dismissed the claim made by the Appellant (i.e. the Plaintiff) in 2017 Tai-Shang-Tzi No. 3006 Ruling, and the ruling of the case is final after the three instances of the courts.

#### VI. Important contracts

Up to the date of April 30, 2018

| Nature of contract         | Contractual parties                | Duration   | Main contents                                       | Restrictive clauses |
|----------------------------|------------------------------------|--|---|---------------------|
| Real estate lease contract | Yuan An Enterprise Co.,<br>Ltd.    | 2018/3/15~2023/3/14                                    | Land and plant lease                                | None                |
| Real estate lease contract | Chia-Huei Chiu                     | 2016/3/15~2019/3/14                                    | Plant lease   | None                |
| Real estate lease contract | Wen-Chang Lu                       | 2017/5/1~2020/4/30                                     | Lease of Office at<br>Pingzhen                      | None                |
| Engineering contract       | Lee Ming Construction<br>Co., Ltd. | 2018/2/16<br>Construction period: 360<br>calendar days | Earthwork<br>engineering at the<br>factory premises | None                |
| Real estate lease contract | Forward Electronics                | 2018/2/16  | Land lease  | None                |

Note 1: The above financial information of each fiscal year has been audited and CPAs.

Note 2: Net cash flow from operating activities is of a negative value; therefore, its financial ratio is not calculated.

#### The formula of financial analysis is as follows:

- 1. Financial structure
  - (1) Liabilities to assets= total amount of liabilities/total amount of assets.
  - (2) Long-term funds to real estate, plants and equipment= (Total amount of equities+ non-current liabilities)/net amount of real estate, plants and equipment.
- 2. Solvency
  - (1) Current ratio = current assets/current liabilities.
  - (2) Quick ratio = (current assets- inventory- prepayment)/ current liabilities.
  - (3) Interest protection multiples= income tax and net profit before interest expense/ interest expense of the current term.
- 3. Operating ability
  - (1) Receivables (including trade receivables and notes receivables generated from operation) turnover= net sales/ balance of average receivables of each term (including trade receivables and notes receivables generated from operation).
  - (2) Average collection days= 365/ receivables turnover.
  - (3) Inventory turnover= sales cost/ average inventory amount.
  - (4) Payables (including trade payables and notes payables generated from operation) turnover= sales cost/balance of average payables of each term (including trade payables and notes payables generated from operation).
  - (5) Average inventory turnover days= 365/ inventory turnover.

- (6) Real estate, plants and equipment turnover= net sales/ average net amount of real estate, plants and equipment.
- (7) Total assets turnover= net sales/ total amount of average assets.

#### 4. Profit ability

- (1) Return on assets= [income after tax + interest expense  $\times$  (1-tax rate)]/ total amount of average assets.
- (2) Return on equities= income after tax/ total amount of average equities.
- (3) Net profit ratio= income after tax/ net sales.
- (4) Earnings per share= (income belonging to the owner of the parent Company dividends of preferred shares)/ weighted average shares issued.

#### 5. Cash flow

- (1) Cash flow ratio= net cash flow from operations/ current liabilities.
- (2) Net cash flow adequacy ratio= net cash flow from operations for the most recent 5 fiscal years/ (capital expenditure+ inventory increase amount+ cash dividends) for the most recent 5 fiscal years.
- (3) Cash reinvestment ratio= (net cash flow amount from operations-cash dividends)/ (gross amount of real estate, plants and equipment+ long-term investments+ other non-current assets+ operating funds).

#### 6. Leverage:

- (1) Operating leverage= (net operating revenues variable operating costs and expenses)/ operating profits.
- (2) Financial leverage= operating profits / (operating profits interest expenses).

#### III. Supervisors' audit report on financial statement for the most recent year

### 監察人審查報告書

茲准董事會造送本公司民國一①六年度財務報表暨合併財務報 表,連同營業報告書,業經本監察人查核完竣,認為尚無不合。爰依照公 司法第二一九條之規定,備具本報告書,敬請 鑒察。

#### IV. Consolidated financial statement of the most recent year

Please refer to annual report. Enclosure 1

V. In the case of any insolvency of the Company and its affiliates, specify its effect on the Company's financial position, for the most recent year and until the date of publication of the annual report

None

## G. Review and analysis of the Company's financial position and financial performance, and a listing of risks

#### I. Financial status

Unit: NT\$ in thousand

| Year                                 | 2016 2017  |            | Differ      | rence |
|--------------------------------------|------------|------------|-------------|-------|
| Item                                 | 2010       | 2017       | Amount      | %     |
| Current assets                       | 17,393,357 | 23,969,161 | 6,575,804   | 38%   |
| Non-current assets                   | 6,123,208  | 6,757,072  | 633,864     | 10%   |
| Total amount of assets               | 23,516,565 | 30,726,233 | 7,209,668   | 31%   |
| Current liabilities                  | 5,902,466  | 12,214,136 | 6,311,670   | 107%  |
| Non-current liabilities              | 2,084,197  | 651,689    | (1,432,508) | (69%) |
| Total amount of liabilities          | 7,986,663  | 12,865,825 | 4,879,162   | 61%   |
| Capital                              | 2,995,325  | 3,179,912  | 184,587     | 6%    |
| Capital reserve                      | 4,504,836  | 3,990,243  | (514,593)   | (11%) |
| Retained earnings                    | 9,543,460  | 11,874,509 | 2,331,049   | 24%   |
| Other equities                       | (73,422)   | (212,254)  | (138,832)   | 189%  |
| Total amount of shareholder equities | 15,529,902 | 17,860,408 | 2,330,506   | 15%   |

- 1. Main reasons for materials changes (20% or more) during the most recent two years:
  - (1) Increase of current assets: This is mainly due to the relatively better business operating status in 2017 such that the account receivable and inventory are increased.
  - (2) Increase of total assets: This is mainly due to the relatively better business operating status in 2017, and the facility expansion is performed in 2017 such that the account receivable, inventory and real estate facility and equipment are increased.
  - (3) Increase of current liabilities: This is mainly due to the relatively greater amount of material inbound in 2017 such that the account payable is increased.
  - (4) Decrease of non-current liabilities: This is mainly due to that there are no bonds payable in 2017.
  - (5) Increase of total amount of liabilities: This is mainly due to the relatively greater amount of material inbound in 2017 such that the account payable is increased.
  - (6) Increase of retained earnings: This is mainly due to the net profit in 2017.
  - (7) Decrease of other equities: This is due to the decrease of the cumulative translation adjustment generated from the long-term investment.
- 2. Impacts of major changes during the most recent two years and future countermeasure plan: The overall performance of the Company and subsidiaries does not indicate any material abnormality, so no stipulation of countermeasures is necessary.

#### II. Financial performance

Unit: NT\$ in thousand

| Item   | 2016       | 2017       | Amount increased (decreased) | Ratio of change (%) |
|--|------------|------------|------------------------------|---------------------|
| Operating revenues   | 19,096,283 | 25,846,403 | 6,750,120                    | 35%                 |
| Operating costs  | 14,556,901 | 20,184,575 | 5,627,674                    | 39%                 |
| Operating gross profit                                     | 4,539,382  | 5,661,828  | 1,122,446                    | 25%                 |
| Operating expenses   | 1,487,031  | 1,700,962  | 213,931                      | 14%                 |
| Operating profit   | 3,052,351  | 3,960,866  | 908,515                      | 30%                 |
| Non-operating revenues and interests                       | (92,601)   | (84,080)   | 8,521                        | 9%                  |
| Net profit before tax from continuing operating department | 2,959,750  | 3,876,786  | 917,036                      | 31%                 |
| Income tax expenses  | 684,570    | 819,950    | 135,380                      | 20%                 |
| Net profit after tax from continuing operating department  | 2,275,180  | 3,056,836  | 781,656                      | 34%                 |

- 1. Main reasons for materials changes (20% or more) during the most recent two years:
- (1) Increase of operating revenues: This is mainly due to the increase of purchase order resulted from excellent operation of the Company.
- (2) Increase of operating costs: This is mainly due to the increase along with the increase of material inbound.
- (3) Increase of operating gross profits: This is mainly due to the increase of profit resulted from excellent operation of the Company.
- (4) Increase of operating profits: This is mainly due to the increase of profit resulted from excellent operation of the Company.
- (5) Increase of net profits before tax from continuing operating department: This is mainly due to the increase of profit resulted from excellent operation of the Company.
- (6) Increase of income tax expenses: This is mainly due to the increase along with the profit.
- (7) Increase of net profit after tax from continuing operating department: This is mainly due to the increase of profit resulted from excellent operation of the Company. 2. Sales forecast and basis thereof: The Company does not prepare and publicly announce the financial forecast; therefore, it is not applicable.
- 3. Possible impacts on the future financial business of the Company and countermeasure plans: No obvious impacts on the financial business status.

#### III. Cash flow analysis

Unit: NT\$ in thousand

| Cash balance Net cash            | Net cash flow  | Cash inflow (outflow) from                            | Amount of cash surplus (deficiency) (1)+(2)-(3) | Corrective measures for cash deficiency |                                |
|----------------------------------|--|---|---|---|--------------------------------|
| at the beginning of the term (1) | at the beginning of the term from operations of the whole year (2) | investment and<br>finance of the whole<br>year<br>(3) |   | Investment<br>plan                      | Property<br>management<br>plan |

- (1) Cash flow change analysis and explanation
  - 1.Cash flow change analysis and explanation and current year cash flow change status analysis:
    - (1) Operating activities: Net cash inflow of NT\$ 3,098,076 thousand dollars; this is due to the continuous profit.
    - (2) Investment activities: Net cash outflow of NT\$ 3,224,669 thousand dollars; this is due to the acquisition of real estate, facility and equipment.
    - (3) Financing activities: Net cash outflow of NT\$ 1,873,601thousand dollars; this is due to the issuance of cash dividends.
  - 2. The corrective measures for cash deficiency forecast and liquidity analysis: Not applicable.

- (2) Improvement plan for insufficient liquidity: The Company is not subject to the condition of insufficient liquidity.
- (3) Cash liquidity analysis for the coming year:

#### IV. Impact of major capital expenditure in recent years on financial operations

1. Application of major capital expenditures and the source of funds

| Project item                    | Actual or estimated source of funds | Actual or estimated date of completion | Expected possible benefit generated   |
|---------------------------------|-------------------------------------|--|---|
| Purchasing land and machineries | Own fund/corporate bond             | In progress                            | Refers to benefits for expanding production capacity, enhancing competitiveness of the Company and increasing the operation efficiency. |

2. Impact of major capital expenditures on financial operations:

The major capital expenditures of the Company in 2017 were mainly on self-owned funds, which do not have major unfavorable effect upon the Company's financial operations.

# V. The re-investment policy for the most recent fiscal year, the main reasons for the profits/losses generated thereby, the plan for improving re-investment profitability, and investment plans for the coming year.

1.Re-investment policy of the Company

The investment policy of the Company is to invest in industries related to the primary business and is based on the consideration of enhancing the competitiveness of the Company such that each investment project is executed upon thorough evaluation.

2. Main reasons for profit or loss of invested companies and improvement plan

In 2017, the investment profit listed is of the total amount of NT\$749,091 thousand dollars, which mainly comes from the profit of subsidiaries.

3. Investment plan for coming year

According to the global plan of the Company, in the future, the Company will set up manufacturing sites at important regions internationally in order to deliver products to customers locally and to reduce the production and logistics costs. In addition, depending upon the development of business, the operating scale of subsidiaries will be expanded.

## VI. Analysis and evaluation of risk factors in the most recent year and until the date of publication of the annual report

(A)The effect upon the Company's profits (losses) of interest and exchange rate fluctuations and changes in the inflation rate, and response measures to be taken in the future:

#### 1.Interest rate:

The Company and subsidiaries have sound financial structures. In the aspect of interest rates for loans, the Company will strengthen the connection with banks and understand the trend of interest rate in order to obtain the best interest rate for loans. In addition, in the aspect of the application of short-term idle funds, we will take the low risk deposits and repurchase (government repurchase) as investment targets in order to obtain return on short-term investment.

#### 2.Exchange rate:

The Group operates internationally; therefore, it is subject to currency risk generated due to various types of currencies, which are mainly USD and RMB. Relevant currency risk mainly comes from future commercial transactions and assets and liabilities listed.

The management level of the Group has established policies to specify the all companies of the Group to manage the currency risks for their functional currencies.

Each Company of the Group shall perform hedges for the overall currency risks via the Financial Department of the Group. To management the currency risks associated with the future commercial transactions and assets and liabilities listed, each Company of the Group shall perform by using forward exchange agreements via the Financial Department of the Group. When the future commercial transactions and assets or liabilities listed use the foreign currency of non-individual functional currency for calculation, currency risk is then generated.

#### 3.Inflation:

Inflation is the changes in the overall economics, and this element is expected to have minor effect on the Company's income.

- (B)The Company's policy regarding high-risk investments, highly leveraged investments, loans to other parties, endorsements, guarantees, and derivatives transactions; the main reasons for the profits/losses generated thereby; and response measures to be taken in the future:
  - (1)Up to the recent years and up to the printing date of the annual report, the Company and its subsidiaries have not engaged in high risk and high leverage investments.
  - (2)Up to the recent years and up to the printing date of the annual report, the Company adopts the principles of forward exchange and financial products and deposits, which aim to earn interest gains and are 100% capital guaranteed, when conducting derivatives. Thus, the income generated in limited. They are conducted in accordance with "Regulations Governing Acquisition or Disposition of Assets."
  - (3) The Company and its subsidiaries are established with the "Operation Procedure for Lending Fund to Others" in order to be used as a basis for fund lending to others.
  - (4)The Company and its subsidiaries are established with the "Endorsement Guarantee Operation Procedure" in order to be used as a basis for handling endorsement guarantee to the external.
- (C)Research and development work to be carried out in the future, and further expenditures expected for research and development work:

With regard to the future R&D plans and R&D expense expected to be invested in, please refer to the disclosure of the technology development status in the "Report to Shareholders" of this Annual Report.

However, there are not enough FPC talents. The training for research and development personnel requires a long period of time to cultivate the ability. In the aspect of personnel training, the Company and subsidiaries strive for the training on research and development personnel. Aside from the training for professional techniques, we also conduct trainings for staff of management level, so they may efficiently plan, organize, lead and control the resources owned by the organization.

In 2018, the training and budget for R&D personnel of the Company and its subsidiaries expected to be invested by the Company and its subsidiaries will account for 2.5%~4.0% of the annual revenue of the Company and its subsidiaries.

(D)Effect on the Company's financial operations of important policies adopted and changes in the legal environment at home and abroad, and measures to be taken in response:

To cope with the domestic and foreign important changes of policies and laws, the Company and its subsidiaries review and revise the Company management rules at all time and readily establish necessary countermeasures in order to satisfy the business operation needs of the Company. In recent years and up to the printing date of the annual report, there are no major impacts of changes of domestic and foreign important policies and laws on the financial business of the Company.

(E)Effect on the Company's financial operations of developments in science and technology as well as industrial change, and measures to be taken in response:

With the increase of popularity of wearable devices, there are more and more functions to the devices as they become much smarter along with applications and services. Many giant companies start to introduce related products. Wearable equipment will push the innovation and revolution of the entire market, which may even replace the smartphone to become the main stream of future technology development. To maintain the competitiveness of the Company and its subsidiaries, the market trend of products must be understood such that the development direction will head toward the high-density layout, slim in size and fine wire with small holes. In recent years and up to the printing date of the annual report, there are no major impacts due to changes of technology and changes of industry on the financial business of the Company and its subsidiaries.

(6)Impacts of change of corporate image on risk management of corporate and countermeasures:

In September 2003, the Company was officially listed in the stock exchange market for public trading. All employees strive for reaching the goal of profit; fulfill the responsibilities to all shareholders. We will continue to strive for the improving the product quality in the future, maintaining the consistent excellent corporate image, and enhancing the status of the Company in the industry. In recent years and up to the printing date of annual report, there are no changes of image of the Company such that the Company faces crisis management.

(7)Expected benefit, possible risk and countermeasures for mergers:

In recent years and up to the printing date of annual report, the Company has no plans for mergers.

(8) Expected benefit, possible risk and countermeasures for expansion of facilities:

The expansion of the facility of the Company is evaluated carefully based on the existing production capacity and future business growth. Major investments and expenditures are reviewed by the board of directors, and the investment benefits and possible risks have been considered appropriately.

(9)Risks and counter-measures for material inbound and sales concentration:

The main product of the Company is FPC, and the main materials used are copper cladded laminates, protection films and electronic components. Since there are numerous suppliers supplying main materials at home or abroad, the supply is not over concentrated on specific suppliers for the Company. In addition, the main customers of the Company are big companies at home or abroad, and sales does not concentrate on specific customers.

- (10)Impacts, risks and countermeasures for large amount of transfer or change of equity made by directors, supervisors or main shareholders with shareholding over 10% on the Company:None
- (11)Impacts, risks and counter-measures for change of management right on the Company:

  The equities of the main shareholders, directors and supervisors of the Company are stable, and there is no event of change of management right.
- (12)List major litigious, non-litigious or administrative disputes that: (1) involve the Company and/or any Company director, any Company supervisor, the general manager, any person with actual responsibility for the firm, any major shareholder holding a stake of greater than 10 percent, and/or any Company or companies controlled by the Company; and (2) have been concluded by means of a final and affirmative judgment, or are still under litigation, and such dispute could materially affect shareholders' equity or the prices of the Company's securities: None
- (13)Other important risks, and mitigation measures being or to be taken: None

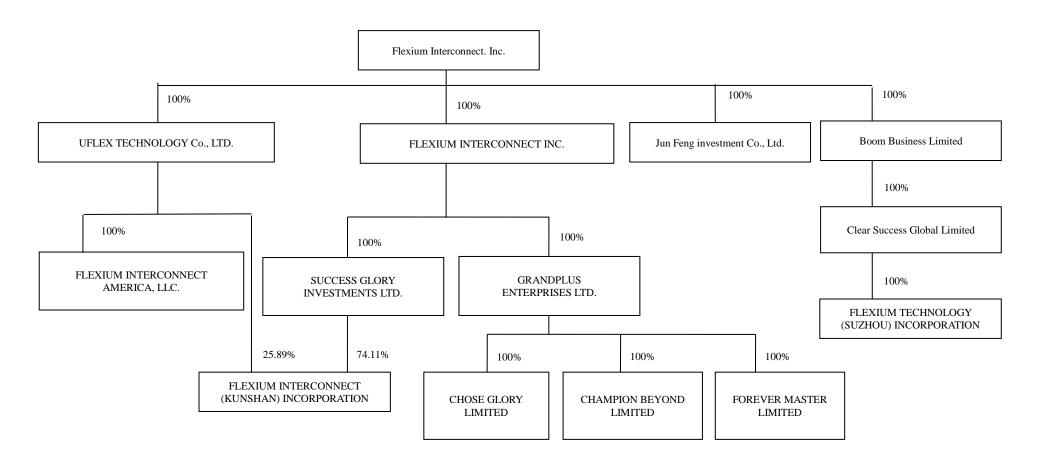

#### VII. Other important matters:

None

## FLEXIUM INTERCONNECT, INC. AND SUBSIDIARIES

CONSOLIDATED FINANCIAL STATEMENTS AND REPORT OF INDEPENDENT ACCOUNTANTS
DECEMBER 31, 2017 AND 2016

For the convenience of readers and for information purpose only, the auditors' report and the accompanying financial statements have been translated into English from the original Chinese version prepared and used in the Republic of China. In the event of any discrepancy between the English version and the original Chinese version or any differences in the interpretation of the two versions, the Chinese-language auditors' report and financial statements shall prevail.

#### REPORT OF INDEPENDENT ACCOUNTANTS TRANSLATED FROM CHINESE

PWCR17000186

To the Board of Directors and Shareholders of Flexium Interconnect, Inc.

#### **Opinion**

We have audited the accompanying consolidated balance sheets of Flexium Interconnect, Inc. and subsidiaries (the "Group") as at December 31, 2017 and 2016, and the related consolidated statements of comprehensive income, of changes in equity and of cash flows for the years then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as at December 31, 2017 and 2016, and its consolidated financial performance and its consolidated cash flows for the years then ended in accordance with the "Regulations Governing the Preparations of Financial Reports by Securities Issuers" and the International Financial Reporting Standards, International Accounting Standards, IFRIC Interpretations, and SIC Interpretations as endorsed by the Financial Supervisory Commission.

#### Basis for opinion

We conducted our audits in accordance with the "Regulations Governing Auditing and Attestation of Financial Statements by Certified Public Accountants" and generally accepted auditing standards in the Republic of China (ROC GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the Code of Professional Ethics for Certified Public Accountants in the Republic of China (the "Code"), and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole and, in forming our opinion thereon, we do not provide a separate opinion on these matters.

Key audit matters for the Group's consolidated financial statements of the current period are stated as follows:

#### Key audit matter - Valuation of allowance for accounts receivable

#### Description

For the accounting policies on accounts receivable, please refer to Note 4(9). For the uncertainty of accounting estimates and assumptions in relation to accounts receivable, please refer to Note 5(2). For the details of net accounts receivable, please refer to Note 6(4).

The criteria that the Group uses to determine whether there is objective evidence of an impairment of individual accounts receivable includes the aging of accounts receivable past due, financial situation of customers, internal credit ranking and historical transaction records. Based on this criterion, the Group estimates the amounts of allowance for accounts receivable that the Group has to provision. As the estimates are subject to management's judgement and involves uncertainty, the recoverable amount may be significantly affected. Thus, we consider the valuation of allowance for material accounts receivable as one of the key audit matters.

#### How our audit addressed the matter

We have evaluated the allowance for accounts receivable and performed the following audit procedures:

- A. Obtained an understanding of the Group's operation and sales customers. Assessed the reasonableness of policies and process applied in allowance for accounts receivable, including the objective evidence for the incurred bad debts and compared whether the provision policies adopted in the different periods are consistently applied.
- B. Identified impairment of material accounts receivable estimated by management and checked the reasonableness of the relevant supporting documents.
- C. Performed audit procedures for collections of overdue accounts receivable after balance sheet date and assessed the reasonableness of those material accounts receivable that were not impaired.
- D. Selected samples and performed confirmation of material accounts receivable. Tested the reconciliation statement of the differences between the replies and account balances.

### **Key audit matter - Estimate of allowance for inventory valuation losses**Description

For the accounting policies on inventory valuation, please refer to Note 4(13). For the uncertainty of accounting estimates and assumptions in relation to inventory valuation, please refer to Note 5(2). For the details of inventory, please refer to Note 6(5).

The Group is primarily engaged in manufacturing and sales of flexible print circuit board which belongs to a rapidly changing industry and is easily affected by the market price. Thus, there is a higher risk of incurring inventory valuation losses or having obsolete inventory. The Group determines inventory value using the item by item approach and recognised at the lower of cost and net realisable value. For inventory that is over a certain age and individually identified obsolete or slow-moving inventory, the net realised value was calculated from the historical experience of disposing old inventories.

The determination of net realisable value for obsolete or slow-moving inventory are subject to management's judgement and involves uncertainty. Considering the Group's inventory balance and the allowance for inventory valuation losses are material to its financial statements, we consider the estimates of the allowance for inventory valuation losses as one of the key audit matters.

#### How our audit addressed the matter

For inventory which is over a specific age and obsolete inventory that is checked item by item, we have tested the inventory valuation loss process conducted by the management and performed the following audit procedures:

- A. Compared financial statements to check whether the provision policy of allowance for inventory valuation loss is consistently applied in all reporting periods and assessed the reasonability of the provision policy.
- B. Tested the estimated net realisable value of obsolete and damaged inventory reported. Discussed with management and obtained supporting evidences.
- C. Tested the accuracy of logic of management identified individual obsolete or damaged inventory aging report, and confirmed whether the obsolete inventories are recorded in the report.
- D. Assessed the reasonability and evidences of management in identifying individual obsolete or damaged inventory.
- E. Observed inventory count to match the count information with the obsolete and damaged inventory report which was compiled by management.

F. Verified inventory write-down and allowance for individual inventory valuation losses and compared with individual inventory's impairment provision during the latest period, and assessed the reasonableness of allowance of inventory valuation losses.

#### Other matter - Parent company only financial reports

We have audited and expressed an unqualified opinion on the parent company only financial statements of Flexium Interconnect, Inc. as at and for the years ended December 31, 2017 and 2016.

## Responsibilities of management and those charged with governance for the consolidated financial statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with the "Regulations Governing the Preparations of Financial Reports by Securities Issuers" and the International Financial Reporting Standards, International Accounting Standards, IFRIC Interpretations, and SIC Interpretations as endorsed by the Financial Supervisory Commission, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance, including supervisors, are responsible for overseeing the Group's financial reporting process.

#### Auditor's responsibilities for the audit of the consolidated financial statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ROC GAAS will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be

expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with ROC GAAS, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

- 1. Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- 2. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- 3. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- 4. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- 5. Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- 6. Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

# FLEXIUM INTERCONNECT, INC. AND SUBSIDIARIES NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS DECEMBER 31, 2017 AND 2016

## (EXPRESSED IN THOUSANDS OF NEW TAIWAN DOLLARS, EXCEPT AS OTHERWISE INDICATED)

#### 1. HISTORY AND ORGANISATION

- (1) Flexium Interconnect, Inc. (the "Company") was incorporated under the provisions of the Company Law of the Republic of China (R.O.C.) and other relevant regulations on December 19, 1997. The Company is primarily engaged in the following: (1) manufacturing of build-up copper clad laminate; (2) manufacturing, processing, research, development, trading and repair of build-up printed circuit boards, flexible printed circuit boards, related semi-finished goods and parts; (3) manufacturing, research, development, and trading of parts for semi-finished goods of polyimide film base copper clad laminate; (4) manufacturing, processing, repair, design, trading of moulds, tools and clamping apparatuses; and (5) sale of raw materials for the products mentioned above. The Company's shares have been traded in the Taiwan Stock Exchange since September, 2003.
- (2) Please refer to Note 4(3) B for the descriptions on the primary business operations of the Company and its subsidiaries (collectively referred herein as the "Group").

## 2. THE DATE OF AUTHORISATION FOR ISSUANCE OF THE CONSOLIDATED FINANCIAL STATEMENTS AND PROCEDURES FOR AUTHORISATION

These consolidated financial statements were authorised for issuance by the Board of Directors on February 7, 2018.

#### 3. APPLICATION OF NEW STANDARDS, AMENDMENTS AND INTERPRETATIONS

(1) Effect of the adoption of new issuances of or amendments of International Financial Reporting Standards ("IFRS") as endorsed by the Financial Supervisory Commission ("FSC")

New standards, interpretations and amendments endorsed by the FSC effective from 2017 are as follows:

TO CC (

|  | Effective date by        |

| Annual improvements to IFRSs 2014-2016 cycle-Amendments to IFRS 12, 'Disclosure of interests in other entities'                         | January 1, 2017                            |
| Annual improvements to IFRSs 2014-2016 cycle-Amendments to IAS 28, 'Investments in associates and joint ventures'                       | January 1, 2018                            |

Except for the following, the above standards and interpretations have no significant impact to the Group's financial condition and financial performance based on the Group's assessment.

#### IFRS 9, 'Financial instruments'

- (a) Classification of debt instruments is driven by the entity's business model and the contractual cash flow characteristics of the financial assets, which would be classified as financial asset at fair value through profit or loss, financial asset measured at fair value through other comprehensive income or financial asset measured at amortised cost. Equity instruments would be classified as financial asset at fair value through profit or loss, unless an entity makes an irrevocable election at inception to present in other comprehensive income subsequent changes in the fair value of an investment in an equity instrument that is not held for trading.
- (b) The impairment losses of debt instruments are assessed using an 'expected credit loss' approach. An entity assesses at each balance sheet date whether there has been a significant increase in credit risk on that instrument since initial recognition to recognise 12-month expected credit losses or lifetime expected credit losses (interest revenue would be calculated on the gross carrying amount of the asset before impairment losses occurred); or if the instrument that has objective evidence of impairment, interest revenue after the impairment would be calculated on the book value of net carrying amount (i.e. net of credit allowance). The Group shall always measure the loss allowance at an amount equal to lifetime expected credit losses for trade receivables that do not contain a significant financing component.

When adopting the new standards endorsed by the FSC effective from 2018, the Group will apply the new rules under IFRS 9 retrospectively from January 1, 2018, with the practical expedients permitted under the statement. On January 1, 2018, the Group classified available-for-sale financial assets at the amount of \$43,211 in accordance with IFRS 9 by increasing financial assets at fair value through profit or loss, increasing retained earnings in the amounts of \$16,500 and decreasing other equity interest in the amounts of \$16,500.

#### (3) IFRSs issued by IASB but not yet endorsed by the FSC

New standards, interpretations and amendments issued by IASB but not yet included in the IFRSs as endorsed by the FSC are as follows:

|  | Effective date by        |
|--|--------------------------|
|  | International Accounting |
| New Standards, Interpretations and Amendments                                | Standards Board          |
| Amendments to IFRS 9, 'Prepayment features with negative compensation        | January 1, 2019          |
| Amendments to IFRS 10 and IAS 28, 'Sale or contribution of assets            | To be determined by      |
| between an investor and its associate of joint venture'                      | International Accounting |
|  | Standards Board          |
| IFRS 16, 'Leases'  | January 1, 2019          |
| IFRS 17, 'Insurance contracts'   | January 1, 2021          |
| Amendments to IAS 28, 'Long-term interests in associates and joint ventures' | January 1, 2019          |
| IFRIC 23, 'Uncertainty over income tax treatments'                           | January 1, 2019          |
| Annual improvements to IFRSs 2015-2017 cycle                                 | January 1, 2019          |

Except for the following, the above standards and interpretations have no significant impact to the Group's financial condition and financial performance based on the Group's assessment. The quantitative impact will be disclosed when the assessment is complete.

IFRS 16, 'Leases'

IFRS 16, 'Leases', replaces IAS 17, 'Leases' and related interpretations and SICs. The standard requires lessees to recognise a 'right-of-use asset' and a lease liability (except for those leases with terms of 12 months or less and leases of low-value assets). The accounting stays the same for lessors, which is to classify their leases as either finance leases or operating leases and account for those two types of leases differently. IFRS 16 only requires enhanced disclosures to be provided by lessors.

#### 4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The principal accounting policies applied in the preparation of these consolidated financial statements are set out below. These policies have been consistently applied to all the periods presented, unless otherwise stated.

#### (1) Compliance statement

The consolidated financial statements of the Group have been prepared in accordance with the "Regulations Governing the Preparation of Financial Reports by Securities Issuers" and the International Financial Reporting Standards, International Accounting Standards, IFRIC Interpretations, and SIC Interpretations as endorsed by the FSC (collectively referred herein as the "IFRSs").

#### (2) Basis of preparation

A. Except for the following items, the consolidated financial statements have been prepared under the historical cost convention:

- (a) Financial assets and financial liabilities (including derivative instruments) at fair value through profit or loss.
- (b) Available-for-sale financial assets measured at fair value.
- (c) Defined benefit liabilities recognised based on the net amount of pension fund assets less present value of defined benefit obligation.
- B. The preparation of financial statements in conformity with IFRSs requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Group's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the consolidated financial statements are disclosed in Note 5.

#### (3) Basis of consolidation

- A. Basis for preparation of consolidated financial statements:
  - (a) All subsidiaries are included in the Group's consolidated financial statements. Subsidiaries are all entities (including structured entities) controlled by the Group. The Group controls an entity when the Group is exposed, or has rights, to variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. Consolidation of subsidiaries begins from the date the Group obtains control of the subsidiaries and ceases when the Group loses control of the subsidiaries.
  - (b) Inter-company transactions, balances and unrealised gains or losses on transactions between companies within the Group are eliminated. Accounting policies of subsidiaries have been adjusted where necessary to ensure consistency with the policies adopted by the Group.
  - (c) Profit or loss and each component of other comprehensive income are attributed to the owners of the parent and to the non-controlling interests. Total comprehensive income is attributed to the owners of the parent and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.
  - (d) Changes in a parent's ownership interest in a subsidiary that do not result in the parent losing control of the subsidiary (transactions with non-controlling interests) are accounted for as equity transactions, i.e. transactions with owners in their capacity as owners. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognised directly in equity.
  - (e) When the Group loses control of a subsidiary, the Group remeasures any investment retained in the former subsidiary at its fair value. That fair value is regarded as the fair value on initial recognition of a financial asset or the cost on initial recognition of the associate or joint venture. Any difference between fair value and carrying amount is recognised in profit or loss. All amounts previously recognised in other comprehensive income in relation to the subsidiary are reclassified to profit or loss on the same basis as would be required if the related assets or liabilities were disposed of. That is, when the Group loses control of a subsidiary, all gains or losses previously recognised in other comprehensive income in relation to the subsidiary should

be reclassified from equity to profit or loss, if such gains or losses would be reclassified to profit or loss when the related assets or liabilities are disposed of.

#### B. Subsidiaries included in the consolidated financial statements:

|                                 |  |  | Ownership (%) |         |        |
|---------------------------------|--|--|---------------|---------|--------|
|                                 |  |  | Decem         | ber 31, |        |
| Name of investor                | Name of subsidiary                           | Main business activities   | 2017          | 2016    | Note   |

| CLEAR SUCCESS GLOBAL<br>LIMITED | FLEXIUM TECHNOLOGY<br>(SUZHOU) INCORPORATION | Research, development, manufacturing<br>and sale of new-type electronic<br>components and devices (such as | 100           | -       | Note 2 |
|                                 |  | flexible printed circuit boards)   |               |         |        |

Note 1: As of December 31, 2017 and 2016, the ownership percentages of SUCCESS GLORY INVESTMENTS LTD. were both 74.11%, and the ownership percentages of UFLEX TECHNOLOGY CO., LTD. were both 25.89%.

- Note 2: Newly established in the second quarter of 2017.
- C. Subsidiaries not included in the consolidated financial statements: None.
- D. Adjustments for subsidiaries with different balance sheet dates: None.
- E. Significant restrictions: None.
- F. Subsidiaries that have non-controlling interests that are material to the Group: None.

#### (4) Foreign currency translation

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates (the "functional currency"). The consolidated financial statements are presented in New Taiwan dollars, which is the Company's functional and the Group's presentation currency.

#### A. Foreign currency transactions and balances

- (a) Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions or valuation where items are remeasured. Foreign exchange gains and losses resulting from the settlement of such transactions are recognised in profit or loss in the period in which they arise.
- (b) Monetary assets and liabilities denominated in foreign currencies at the period end are retranslated at the exchange rates prevailing at the balance sheet date. Exchange differences arising upon re-translation at the balance sheet date are recognised in profit or loss.
- (c) Non-monetary assets and liabilities denominated in foreign currencies held at fair value through profit or loss are re-translated at the exchange rates prevailing at the balance sheet date; their translation differences are recognised in profit or loss. Non-monetary assets and liabilities denominated in foreign currencies held at fair value through other comprehensive income are re-translated at the exchange rates prevailing at the balance sheet date; their translation differences are recognised in other comprehensive income. However, non-monetary assets and liabilities denominated in foreign currencies that are not measured at fair value are translated using the historical exchange rates at the dates of the initial transactions.
- (d) All other foreign exchange gains and losses based on the nature of those transactions are presented in the statement of comprehensive income within other gains and losses.

#### B. Translation of foreign operations

- (a) The operating results and financial position of all the group entities, associates and joint arrangements that have a functional currency different from the presentation currency are translated into the presentation currency as follows:
  - i. Assets and liabilities for each balance sheet presented are translated at the closing exchange rate at the date of that balance sheet;
  - ii. Income and expenses for each statement of comprehensive income are translated at average exchange rates of that period; and
  - iii. All resulting exchange differences are recognised in other comprehensive income.
- (b) When the foreign operation partially disposed of or sold is a subsidiary, cumulative exchange differences that were recorded in other comprehensive income are proportionately transferred to the non-controlling interest in this foreign operation. In addition, even when the Group still retains partial interest in the former foreign subsidiary after losing control of the former foreign subsidiary, such transactions should be accounted for as disposal of all interest in the foreign operation.

#### (5) Classification of current and non-current items

- A. Assets that meet one of the following criteria are classified as current assets; otherwise they are classified as non-current assets:
  - (a) Assets arising from operating activities that are expected to be realised, or are intended to be sold or consumed within the normal operating cycle;
  - (b) Assets held mainly for trading purposes;
  - (c) Assets that are expected to be realised within twelve months from the balance sheet date;
  - (d) Cash and cash equivalents, excluding restricted cash and cash equivalents and those that are to be exchanged or used to settle liabilities more than twelve months after the balance sheet date.
- B. Liabilities that meet one of the following criteria are classified as current liabilities; otherwise they are classified as non-current liabilities:
  - (a) Liabilities that are expected to be settled within the normal operating cycle;
  - (b) Liabilities arising mainly from trading activities;
  - (c) Liabilities that are to be settled within twelve months from the balance sheet date;
  - (d) Liabilities for which the repayment date cannot be extended unconditionally to more than twelve months after the balance sheet date. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

#### (6) Cash equivalents

Cash equivalents refer to short-term, highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value. Time deposits that meet the definition above and are held for the purpose of meeting short-term cash commitments in operations are classified as cash equivalents.

#### (7) Financial assets at fair value through profit or loss

- A. Financial assets at fair value through profit or loss are financial assets held for trading or financial assets designated as at fair value through profit or loss on initial recognition. Financial assets are classified in this category of held for trading if acquired principally for the purpose of selling in the short-term. Derivatives are also categorized as financial assets held for trading unless they are designated as hedges. Financial assets that meet one of the following criteria are designated as at fair value through profit or loss on initial recognition:
  - (a) Hybrid (combined) contracts; or
  - (b) They eliminate or significantly reduce a measurement or recognition inconsistency; or
  - (c) They are managed and their performance is evaluated on a fair value basis, in accordance with a documented risk management or investment strategy.
- B. On a regular way purchase or sale basis, financial assets at fair value through profit or loss are recognised and derecognised using settlement date accounting.

C. Financial assets at fair value through profit or loss are initially recognised at fair value. Related transaction costs are expensed in profit or loss. These financial assets are subsequently remeasured and stated at fair value, and any changes in the fair value of these financial assets are recognised in profit or loss.

#### (8) Available-for-sale financial assets

- A. Available-for-sale financial assets are non-derivatives that are either designated in this category or not classified in any of the other categories.
- B. On a regular way purchase or sale basis, available-for-sale financial assets are recognised and derecognised using settlement date accounting.
- C. Available-for-sale financial assets are initially recognised at fair value plus transaction costs.

These financial assets are subsequently remeasured and stated at fair value, and any changes in the fair value of these financial assets are recognised in other comprehensive income. Investments in equity instruments that do not have a quoted market price in an active market and whose fair value cannot be reliably measured or derivatives that are linked to and must be settled by delivery of such unquoted equity instruments are presented in 'financial assets measured at cost'.

#### (9) Receivables

Accounts receivable are loans and receivables originated by the entity. They are created by the entity by selling goods or providing services to customers in the ordinary course of business. Accounts receivable are initially recognised at fair value and subsequently measured at amortised cost using the effective interest method, less provision for impairment. However, short-term accounts receivable without bearing interest are subsequently measured at initial invoice amount as the effect of discounting is immaterial.

#### (10) Impairment of financial assets

- A. The Group assesses at each balance sheet date whether there is objective evidence that a financial asset or a group of financial assets is impaired as a result of one or more events that occurred after the initial recognition of the asset (a 'loss event') and that loss event (or events) has an impact on the estimated future cash flows of the financial asset or group of financial assets that can be reliably estimated.
- B. The criteria that the Group uses to determine whether there is objective evidence of an impairment loss is as follows:
  - (a) Significant financial difficulty of the issuer or debtor;
  - (b) The disappearance of an active market for that financial asset because of financial difficulties;
  - (c) Observable data indicating that there is a measurable decrease in the estimated future cash flows from a group of financial assets since the initial recognition of those assets, although the decrease cannot yet be identified with the individual financial asset in the group, including adverse changes in the payment status of borrowers in the group or national or local economic conditions that correlate with defaults on the assets in the group;

- (d) Information about significant changes with an adverse effect that have taken place in the technology, market, economic or legal environment in which the issuer operates, and indicates that the cost of the investment in the equity instrument may not be recovered; and
- (e) A significant or prolonged decline in the fair value of an investment in an equity instrument below its cost.
- C. When the Group assesses that there has been objective evidence of impairment and an impairment loss has occurred, accounting for impairment is made as follows according to the category of financial assets:
  - (a) Financial assets measured at amortised cost

The amount of the impairment loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows discounted at the financial asset's original effective interest rate, and is recognised in profit or loss. If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment loss was recognised, the previously recognised impairment loss is reversed through profit or loss to the extent that the carrying amount of the asset does not exceed its amortised cost that would have been at the date of reversal had the impairment loss not been recognised previously. Impairment loss is recognised and reversed by adjusting the carrying amount of the asset through the use of an impairment allowance account.

#### (b) Available-for-sale financial assets

The amount of the impairment loss is measured as the difference between the asset's acquisition cost (less any principal repayment and amortisation) and current fair value, less any impairment loss on that financial asset previously recognised in profit or loss, and is reclassified from 'other comprehensive income' to 'profit or loss'. If, in a subsequent period, the fair value of an investment in a debt instrument increases, and the increase can be related objectively to an event occurring after the impairment loss was recognised, then such impairment loss is reversed through profit or loss. Impairment loss of an investment in an equity instrument recognised in profit or loss shall not be reversed through profit or loss. Impairment loss is recognised and reversed by adjusting the carrying amount of the asset through the use of an impairment allowance account.

#### (11) Derecognition of financial assets

The Group derecognises a financial asset when one of the following conditions is met:

- A. The contractual rights to receive the cash flows from the financial asset expire.
- B. The contractual rights to receive cash flows of the financial asset have been transferred and the Group has transferred substantially all risks and rewards of ownership of the financial asset.
- C. The contractual rights to receive cash flows of the financial asset have been transferred; however, the Group has not retained control of the financial asset.

#### (12) Operating leases (lessor)

Lease income from an operating lease (net of any incentives given to the lessee) is recognised in profit or loss on a straight-line basis over the lease term.

#### (13) Inventories

Inventories are stated at the lower of cost and net realisable value. Cost is determined using the weighted-average method. The cost of finished goods and work in process comprises raw materials, direct labour, other direct costs and related production overheads (allocated based on normal operating capacity). It excludes borrowing costs. The item by item approach is used in applying the lower of cost and net realisable value. Net realisable value is the estimated selling price in the ordinary course of business, less the estimated cost of completion and applicable variable selling expenses.

#### (14) Property, plant and equipment

- A. Property, plant and equipment are initially recorded at cost. Borrowing costs incurred during the construction period are capitalised.
- B. Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognised. All other repairs and maintenance are charged to profit or loss during the financial period in which they are incurred.
- C. Land is not depreciated. Other property, plant and equipment apply cost model and are depreciated using the straight-line method to allocate their cost over their estimated useful lives. Each part of an item of property, plant, and equipment with a cost that is significant in relation to the total cost of the item must be depreciated separately.
- D. The assets' residual values, useful lives and depreciation methods are reviewed, and adjusted if appropriate, at each financial year-end. If expectations for the assets' residual values and useful lives differ from previous estimates or the patterns of consumption of the assets' future economic benefits embodied in the assets have changed significantly, any change is accounted for as a change in estimate under IAS 8, 'Accounting Policies, Changes in Accounting Estimates and Errors', from the date of the change. The estimated useful lives of property, plant and equipment are as follows:

| Buildings                | 2 ~ 35 years |
|--------------------------|--------------|
| Machinery equipment      | 2 ~ 15 years |
| Transportation equipment | 3 ~ 15 years |
| Office equipment         | 5 ~ 10 years |
| Other equipment          | 2 ~ 10 years |

#### (15) Operating leases (lessee)

- A. Based on the terms of a lease contract, a lease is classified as a finance lease if the Group assumes substantially all the risks and rewards incidental to ownership of the leased asset.
  - (a) A finance lease is recognised as an asset and a liability at the lease's commencement at the lower of the fair value of the leased asset or the present value of the minimum lease payments.
  - (b) The minimum lease payments are apportioned between the finance charges and the reduction of the outstanding liability. The finance charges are allocated to each period over the lease term so as to produce a constant periodic rate of interest on the remaining balance of the liability.
  - (c) Property, plant and equipment held under finance leases are depreciated over their estimated useful lives. If there is no reasonable certainty that the Group will obtain ownership at the end of the lease, the asset shall be depreciated over the shorter of the lease term and its useful life.
- B. Payments made under an operating lease (net of any incentives received from the lessor) are recognised in profit or loss on a straight-line basis over the lease term.

#### (16) Investment property

An investment property is stated initially at its cost and measured subsequently using the cost model. Except for land, investment property is depreciated on a straight-line basis over its estimated useful life of 3 years.

#### (17) Intangible assets

Computer software is stated at cost and amortized using the straight-line method over its estimated economic service life.

#### (18) Impairment of non-financial assets

The Group assesses at each balance sheet date the recoverable amounts of those assets where there is an indication that they are impaired. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell or value in use. When the circumstances or reasons for recognizing impairment loss for an asset in prior years no longer exist or diminish, the impairment loss is reversed. The increased carrying amount due to reversal should not be more than what the depreciated or amortised historical cost would have been if the impairment had not been recognised.

#### (19) Notes and accounts payable

Notes and accounts payable are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. They are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method. However, short-term accounts payable without bearing interest are subsequently measured at initial invoice amount as the effect of discounting is immaterial.

#### (20) Financial liabilities at fair value through profit or loss

- A. Financial liabilities at fair value through profit or loss are financial liabilities held for trading or financial liabilities designated as at fair value through profit or loss on initial recognition. Financial liabilities are classified in this category of held for trading if acquired principally for the purpose of repurchasing in the short-term. Derivatives are also categorized as financial liabilities held for trading unless they are designated as hedges. Financial liabilities that meet one of the following criteria are designated as at fair value through profit or loss on initial recognition:
  - (a) Hybrid (combined) contracts; or
  - (b) They eliminate or significantly reduce a measurement or recognition inconsistency; or
  - (c) They are managed and their performance is evaluated on a fair value basis, in accordance with a documented risk management policy.
- B. Financial liabilities at fair value through profit or loss are initially recognised at fair value. Related transaction costs are expensed in profit or loss. These financial liabilities are subsequently remeasured and stated at fair value, and any changes in the fair value of these financial liabilities are recognised in profit or loss.

#### (21) Derecognition of financial liabilities

A financial liability is derecognised when the obligation under the liability specified in the contract is discharged or cancelled or expires.

#### (22) Offsetting financial instruments

Financial assets and liabilities are offset and reported in the net amount in the balance sheet when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously.

#### (23) Financial liabilities and equity instruments

- A. Convertible corporate bonds issued by the Group contain conversion options (that is, the bondholders have the right to convert the bonds into the Group's common shares by exchanging a fixed amount of cash for a fixed number of common shares), call options and put options. The Group classifies the bonds payable and derivative features embedded in convertible corporate bonds on initial recognition as a financial asset, a financial liability or an equity instrument ('capital surplus—stock warrants') in accordance with the substance of the contractual arrangement and the definitions of a financial asset, a financial liability and an equity instrument. Convertible corporate bonds are accounted for as follows:
  - (a) Call options and put options embedded in convertible corporate bonds are recognised initially at net fair value as 'financial assets or financial liabilities at fair value through profit or loss'. They are subsequently remeasured and stated at fair value on each balance sheet date; the gain or loss is recognised as 'gain or loss on valuation of financial assets or financial liabilities at fair value through profit or loss'.

- (b) Bonds payable of convertible corporate bonds is initially recognised at fair value and subsequently stated at amortised cost. Any difference between the proceeds and the redemption value is accounted for as the premium or discount on bonds payable and presented as an addition to or deduction from bonds payable, which is amortised in profit or loss as an adjustment to the 'finance costs' over the period of bond circulation using the effective interest method.
- (c) Conversion options embedded in convertible corporate bonds issued by the Group, which meet the definition of an equity instrument, are initially recognised in 'capital surplus—stock warrants' at the residual amount of total issue price less amounts of 'financial assets or financial liabilities at fair value through profit or loss' and 'bonds payable—net' as stated above. Conversion options are not subsequently remeasured.
- (d) Any transaction costs directly attributable to the issuance of convertible corporate bonds are allocated to the liability and equity components in proportion to the allocation of proceeds.
- (e) When bondholders exercise conversion options, the liability component of the bonds (including 'bonds payable' and 'financial assets or financial liabilities at fair value through profit or loss') shall be remeasured on the conversion date. The book value of common shares issued due to the conversion shall be based on the adjusted book value of the abovementioned liability component plus the book value of capital surplus - stock warrants.
- B. Convertible corporate bonds issued by the Group contain conversion options (that is, the bondholders have the right to convert the bonds into the Group's common shares, but not by exchanging a fixed amount of cash for a fixed number of common shares), call options and put options. The Group classifies the bonds payable and derivative features embedded in convertible corporate bonds on initial recognition as a financial asset or a financial liability in accordance with the substance of the contractual arrangement. Convertible corporate bonds are accounted for as follows:
  - (a) Conversion options, call options and put options embedded in convertible corporate bonds are recognised initially at net fair value as 'financial assets or financial liabilities at fair value through profit or loss'. They are subsequently remeasured and stated at fair value on each balance sheet date; the gain or loss is recognised as 'gain or loss on valuation of financial assets or financial liabilities at fair value through profit or loss'.
  - (b) Bonds payable of convertible corporate bonds is initially recognised at the remaining value of total issue price less amount of 'financial assets or financial liabilities at fair value through profit or loss' as stated above, and subsequently stated at amortised cost. Any difference between the proceeds and the redemption value is accounted for as the premium or discount on bonds payable and presented as an addition to or deduction from bonds payable, which is amortised in profit or loss as an adjustment to the 'finance costs' over the period of bond circulation using the effective interest method.
  - (c) Any transaction costs directly attributable to the issuance of convertible corporate bonds are allocated to each liability component in proportion to the allocation of proceeds.

(d) When bondholders exercise conversion options, the liability component of the bonds (including 'bonds payable' and 'financial assets or financial liabilities at fair value through profit or loss') is remeasured on the conversion date. The book value of common shares issued due to the conversion is based on the adjusted book value of the abovementioned liability component.

#### (24) Derivative financial instruments and hedging activities

Derivatives are initially recognised at fair value on the date a derivative contract is entered into and are subsequently remeasured at their fair value. Any changes in the fair value are recognised in profit or loss.

#### (25) Employee benefits

#### A. Short-term employee benefits

Short-term employee benefits are measured at the undiscounted amount of the benefits expected to be paid in respect of service rendered by employees in a period and should be recognised as expense in that period when the employees render service.

#### B. Pensions

#### (a) Defined contribution plans

For defined contribution plans, the contributions are recognised as pension expense when they are due on an accrual basis. Prepaid contributions are recognised as an asset to the extent of a cash refund or a reduction in the future payments.

#### (b) Defined benefit plans

- i. Net obligation under a defined benefit plan is defined as the present value of an amount of pension benefits that employees will receive on retirement for their services with the Group in current period or prior periods. The liability recognised in the balance sheet in respect of defined benefit pension plans is the present value of the defined benefit obligation at the balance sheet date less the fair value of plan assets. The net defined benefit obligation is calculated annually by independent actuaries using the projected unit credit method. The rate used to discount is determined by using interest rates of high-quality corporate bonds that are denominated in the currency in which the benefits will be paid, and that have terms to maturity approximating to the terms of the related pension liability; when there is no deep market in high-quality corporate bonds, the Group uses interest rates of government bonds (at the balance sheet date) instead.
- ii.Remeasurements arising on defined benefit plans are recognised in other comprehensive income in the period in which they arise and are recorded as retained earnings.
- iii.Past service costs are recognised immediately in profit or loss.

#### C. Employees', directors' and supervisors' remuneration

Employees' remuneration and directors' and supervisors' remuneration are recognised as expense and liability, provided that such recognition is required under legal or constructive obligation and those amounts can be reliably estimated. Any difference between the resolved amounts and the

subsequently actual distributed amounts is accounted for as changes in estimates. If employee compensation is paid by shares, the Group calculates the number of shares based on the closing price at the previous day of the board meeting resolution.

#### (26) Employee share-based payment

For the equity-settled share-based payment arrangements, the employee services received are measured at the fair value of the equity instruments granted at the grant date, and are recognised as compensation cost over the vesting period, with a corresponding adjustment to equity. The fair value of the equity instruments granted shall reflect the impact of market vesting conditions and non-market vesting conditions. Compensation cost is subject to adjustment based on the service conditions that are expected to be satisfied and the estimates of the number of equity instruments that are expected to vest under the non-market vesting conditions at each balance sheet date. Ultimately, the amount of compensation cost recognised is based on the number of equity instruments that eventually vest.

#### (27) Income tax

- A. The tax expense for the period comprises current and deferred tax. Tax is recognised in profit or loss, except to the extent that it relates to items recognised in other comprehensive income or items recognised directly in equity, in which cases the tax is recognised in other comprehensive income or equity.
- B. The current income tax expense is calculated on the basis of the tax laws enacted or substantively enacted at the balance sheet date in the countries where the Company and its subsidiaries operate and generate taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in accordance with applicable tax regulations. It establishes provisions where appropriate based on the amounts expected to be paid to the tax authorities. An additional 10% tax is levied on the unappropriated retained earnings and is recorded as income tax expense in the year the stockholders resolve to retain the earnings.
- C. Deferred tax is recognised, using the balance sheet liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated balance sheet. However, the deferred tax is not accounted for if it arises from initial recognition of goodwill or of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit or loss. Deferred tax is provided on temporary differences arising on investments in subsidiaries, except where the timing of the reversal of the temporary difference is controlled by the Group and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the balance sheet date and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

- D. Deferred income tax assets are recognised only to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilised. At each balance sheet date, unrecognised and recognised deferred tax assets are reassessed.
- E. Current income tax assets and liabilities are offset and the net amount reported in the balance sheet when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. Deferred tax assets and liabilities are offset on the balance sheet when the entity has the legally enforceable right to offset current tax assets against current tax liabilities and they are levied by the same taxation authority on either the same entity or different entities that intend to settle on a net basis or realise the asset and settle the liability simultaneously.
- F. A deferred tax asset shall be recognised for the carryforward of unused tax credits resulting from acquisitions of equipment or technology, research and development expenditures and equity investments to the extent that it is possible that future taxable profit will be available against which the unused tax credits can be utilised.

#### (28) Share capital

- A. Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares or stock options are shown in equity as a deduction, net of tax, from the proceeds.
- B. Where the Company repurchases the Company's equity share capital that has been issued, the consideration paid, including any directly attributable incremental costs (net of income taxes) is deducted from equity attributable to the Company's equity holders. Where such shares are subsequently reissued, the difference between their book value and any consideration received, net of any directly attributable incremental transaction costs and the related income tax effects, is included in equity attributable to the Company's equity holders.

#### (29) Dividends

Dividends are recorded in the Company's financial statements in the period in which they are approved by the Company's shareholders. Cash dividends are recorded as liabilities; stock dividends are recorded as stock dividends to be distributed and are reclassified to ordinary shares on the effective date of new shares issuance.

#### (30) Revenue recognition

A. The Group manufactures and sells flexible printed circuit board products. Revenue is measured at the fair value of the consideration received or receivable taking into account value-added tax, returns, rebates and discounts for the sale of goods to external customers in the ordinary course of the Group's activities. Revenue arising from the sales of goods recognised when the Group has delivered the goods to the customer, the amount of sales revenue can be measured reliably and it is probable that the future economic benefits associated with the transaction will flow to the entity. The delivery of goods is completed when the significant risks and rewards of ownership have been transferred to the customer, the Group retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold, and the customer has accepted the goods based on the sales contract or there is objective evidence showing that all acceptance provisions have been satisfied.

B. The Group offers customers volume discounts and right of return for defective products. The Group estimates such discounts and returns based on historical experience. Provisions for such liabilities are recorded when the sales are recognised.

### (31) Government grants

Government grants are recognised at their fair value only when there is reasonable assurance that the Group will comply with any conditions attached to the grants and the grants will be received. Government grants are recognised in profit or loss on a systematic basis over the periods in which the Group recognises expenses for the related costs for which the grants are intended to compensate.

### (32) Operating segments

Operating segments are reported in a manner consistent with the internal reporting provided to the Chief Operating Decision-Maker. The Group's Chief Operating Decision-Maker is responsible for allocating resources and assessing performance of the operating segments.

# 5. <u>CRITICAL ACCOUNTING JUDGEMENTS</u>, <u>ESTIMATES AND KEY SOURCES OF ASSUMPTION UNCERTAINTY</u>

The preparation of these consolidated financial statements requires management to make critical judgements in applying the Group's accounting policies and make critical assumptions and estimates concerning future events. Assumptions and estimates may differ from the actual results and are continually evaluated and adjusted based on historical experience and other factors. Such assumptions and estimates have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year. The above information is addressed below:

### (1) Critical judgements in applying the Group's accounting policies

Financial assets—impairment of equity investments

The Group follows the guidance of IAS 39 to determine whether a financial asset—equity investment is impaired. This determination requires significant judgement. In making this judgement, the Group evaluates, among other factors, the duration and extent to which the fair value of an equity investment is less than its cost and the financial health of and short-term business outlook for the investee, including factors such as industry and sector performance, changes in technology and operational and financing cash flow.

If the decline of the fair value of an individual equity investment below cost was considered significant or prolonged, the Group would suffer a loss in its financial statements, being the transfer of the accumulated fair value adjustments recognised in other comprehensive income on the impaired available-for-sale financial assets to profit or loss.

### (2) Critical accounting estimates and assumptions

### A. Impairment assessment of accounts receivable

When there is objective evidence showing that the accounts receivable are impaired, the Company will consider the estimated future cash flows. The amount of impairment loss is measured as the difference between the asset's carrying amount and the estimated future cash flows (excluding future credit loss that not yet incurred) discounted at the financial asset's original effective interest rate. If the actual future cash flows are lower than expected, significant impairment loss may incur.

### B. Evaluation of inventories

As inventories are stated at the lower of cost and net realisable value, the Group must determine the net realisable value of inventories on balance sheet date using judgements and estimates. Due to the rapid technology innovation, the Group evaluates the amounts of normal inventory consumption, obsolete inventories or inventories without market selling value on balance sheet date, and writes down the cost of inventories to the net realisable value. Such an evaluation of inventories is principally based on the demand for the products within the specified period in the future. Therefore, there might be material changes to the evaluation.

### 6. <u>DETAILS OF SIGNIFICANT ACCOUNTS</u>

### (1) Cash and cash equivalents

|                                       | Dece        | mber 31, 2017 | Dece | mber 31, 2016 |
|---------------------------------------|-------------|---------------|------|---------------|
| Cash:                                 |             |               |      |               |
| Cash on hand and revolving funds      | \$          | 909           | \$   | 1,243         |
| Checking accounts and demand deposits |             | 2,743,358     |      | 1,934,914     |
| ·                                     |             | 2,744,267     |      | 1,936,157     |
| Cash equivalents:                     |             |               |      |               |
| Time deposits                         |             | 3,982,917     |      | 6,646,261     |
| Bonds with resale agreement           | <del></del> |               |      | 162,227       |
|                                       |             | 3,982,917     |      | 6,808,488     |
|                                       | <u>\$</u>   | 6,727,184     | \$   | 8,744,645     |

- A. The Group transacts with a variety of financial institutions all with high credit quality to disperse credit risk, so it expects that the probability of counterparty default is remote.
- B. The Group has no cash and cash equivalents pledged to others.

### (2) Financial assets at fair value through profit or loss

| Items  | Decemb | er 31, 2017            | December | 31, 2016         |
|--|--------|------------------------|----------|------------------|
| Current items:   |        |                        |          |                  |
| Financial assets held for trading<br>Listed stocks   | \$     | 40,513                 | \$       | 47,705           |
| Valuation adjustment of financial assets held for trading                                  |        | 18,148)<br>22,365      | (        | 7,901)<br>39,804 |
| Financial assets designated as at fair value through profit or loss on initial recognition |        | ==,500                 |          |                  |
| Structured certificates of deposit   | \$     | 1,598,788<br>1,621,153 | \$       | 39,804           |

A. The Group recognised net (loss) gain of (\$13,123) and \$9,156 on financial assets and liabilities held for trading for the years ended December 31, 2017 and 2016, respectively.

### B. The non-hedging derivative instruments transaction and contract information are as follows:

|                                    | December 3           | 1, 2017         | December 3           | 1, 2016         |
|------------------------------------|----------------------|-----------------|----------------------|-----------------|
|                                    | Contract Amount      |                 | Contract Amount      |                 |
| Derivative Financial Assets        | (notional principal) | Contract Period | (notional principal) | Contract Period |
| Structured certificates of deposit | RMB 50,000 thousand  | 2017.11~2018.02 | -                    | -               |
| Structured certificates of deposit | RMB 50,000 thousand  | 2017.12~2018.03 | -                    | -               |
| Structured certificates of deposit | RMB 50,000 thousand  | 2017.12~2018.03 | -                    | -               |
| Structured certificates of deposit | RMB 30,000 thousand  | 2017.11~2018.03 | -                    | -               |
| Structured certificates of deposit | RMB 70,000 thousand  | 2017.12~2018.03 | -                    | <del>.</del>    |
| Structured certificates of deposit | RMB 30,000 thousand  | 2017.12~2018.03 | -                    | -               |
| Structured certificates of deposit | RMB 50,000 thousand  | 2017.12~2018.03 | -                    | -               |
| Structured certificates of deposit | RMB 20,000 thousand  | 2017.12~2018.03 | -                    | -               |

C. The Group has no financial assets at fair value through profit or loss pledged to others.

### (3) Available-for-sale financial assets

| Items                | Decem     | ber 31, 2017 | Decem | ber 31, 2016 |
|----------------------|-----------|--------------|-------|--------------|
| Current items:       |           |              |       |              |
| Listed stocks        | \$        | 26,711       | \$    | -            |
| Valuation adjustment |           | 16,500       |       |              |
|                      | <u>\$</u> | 43,211       | \$    |              |
| Non-current items:   |           |              |       | _            |
| Listed stocks        | \$        | -            | \$    | 115,996      |
| Valuation adjustment |           |              |       | 58,616       |
|                      | \$        | -            | \$    | 174,612      |

The Group recognised \$12,180 and \$58,616 in other comprehensive income for fair value change and reclassified \$54,296 and \$0 for equity to profit for the years ended December 31, 2017 and 2016, respectively.

### (4) Accounts receivable

|   | Dece | mber 31, 2017 | Decem | ber 31, 2016 |
|---|------|---------------|-------|--------------|
| Accounts receivable                       | \$   | 8,134,574     | \$    | 4,326,266    |
| Less: Allowance for doubtful accounts     |      | - (           |       | 907)         |
| Allowance for sales returns and discounts | (    | 20,966) (     |       | 46,871)      |
|   | \$   | 8,113,608     | \$    | 4,278,488    |

A. The ageing analysis of accounts receivable that were past due but not impaired is as follows:

|                | Decem | ber 31, 2017 | Decen | nber 31, 2016 |
|----------------|-------|--------------|-------|---------------|
| Up to 180 days | \$    | 181,311      | \$    | 188,532       |
| Over 181 days  |       |              |       |               |
|                | \$    | 181,311      | \$    | 188,532       |

The above ageing analysis was based on overdue dates.

- B. Movement analysis of financial assets that were impaired (allowance for doubtful accounts of accounts receivable) is as follows:
  - (a)As of December 31, 2017 and 2016, the Group's accounts receivable that were both impaired amounted to \$0 and \$907, respectively.
  - (b) Movements on the Group's provision for impairment of accounts receivable are as follows:

|                            |         |               | 2017      |          |       | _          |
|----------------------------|---------|---------------|-----------|----------|-------|------------|
|                            | Individ | ual provision | Group p   | rovision | Total | _          |
| At January 1               | \$      | 907           | \$        | - \$     | 90′   | 7          |
| Write-offs during the year | (       | 907)          |           | (_       | 90    | <u>7</u> ) |
| At December 31             | \$      |               | \$        | <u> </u> |       | <u>-</u>   |
|                            |         |               | 2016      |          |       | _          |
|                            | Individ | ual provision | Group p   | rovision | Total | _          |
| At January 1               | \$      | 907           | \$        | - \$     | 90′   | 7          |
| Provision for impairment   |         | 1,369         |           | -        | 1,369 | 9          |
| Reversal of impairment     | (       | 1,369)        |           |          | 1,369 | 9)         |
| At December 31             | \$      | 907           | <u>\$</u> | <u> </u> | 90    | <u>7</u>   |

The basic collection term is 45-120 days. The Group analyzes clients' accounts receivable based on any change to credit quality, historical experience and current financial status and others to estimate uncollectible amounts.

- C. Accounts receivable that are neither past due nor impaired are mainly from clients with outstanding collection history.
- D. The Group does not hold collateral as security for accounts receivable.

### (5) Inventories

|   | Dece | ember 31, 2017 | Dece | mber 31, 2016 |
|---|------|----------------|------|---------------|
| Raw materials                           | \$   | 770,631        | \$   | 269,068       |
| Work in process and semi-finished goods |      | 1,274,960      |      | 477,761       |
| Finished goods                          |      | 2,841,044      |      | 1,272,188     |
|   | \$   | 4,886,635      | \$   | 2,019,017     |

The cost of inventories recognised as expense for the years ended December 31, 2017 and 2016, was \$20,184,575 and \$14,556,901 respectively, including the amount of \$163,292, that the Group wrote down from cost to net realisable value accounted for as cost for goods sold, as well as the amount of \$108,853, that the Group reversed from a previous inventory write-down and accounted for as reduction of cost of goods sold because of the clearance of inventories that was already provisioned loss in market value decline.

# (6) Property, plant and equipment

A. Book values of property, plant and equipment are as follows:

|   | Dece | December 31, 2017 | December 31, 2016 |
|---|------|-------------------|-------------------|
| Land  | ↔    | 516,599           | \$ 516,599        |
| Buildings   |      | 1,248,553         | 1,005,405         |
| Machinery   |      | 4,049,675         | 3,081,219         |
| Transportation equipment                                |      | 6,473             | 6,991             |
| Office equipment  |      | 1,112             | 1,549             |
| Other equipment   |      | 85,425            | 69,023            |
| Construction in progress and equipment under acceptance |      | 289,023           | 336,769           |
|   | €    | 6,196,860         | \$ 5.017.555      |

B. Changes in property, plant and equipment are as follows:

The Group recognized rental expenses of \$2,065 and \$1,123 for the years ended December 31, 2017 and 2016, respectively.

### (11) Bonds payable

|   | De | ecember 31, 2017 | De | cember 31, 2016 |
|---|----|------------------|----|-----------------|
| Third domestic unsecured convertible bonds          | \$ | _                | \$ | 242,585         |
| Fourth domestic unsecured convertible bonds         |    | 535,982          |    | 1,620,915       |
| Less: Discount on bonds payable                     | (  | 7,439)           | (  | 47,967)         |
|   |    | 528,543          |    | 1,815,533       |
| Less: current portion                               |    |                  |    |                 |
| (Shown as "Long-term liabilities, current portion") | (  | 528,543)         | (  | 240,458)        |
|   | \$ | -                | \$ | 1,575,075       |

- A. The terms of the second overseas unsecured convertible bonds issued by the Company are as follows:
  - (a) On July 25, 2013, the Company issued 0% coupon, 3-year overseas unsecured convertible bonds with the principal in the amount of US\$100 million. The bonds are repayable in full at face value at maturity. The bonds were traded in the Singapore Exchange Limited since July 25, 2013.
  - (b) The bondholders have the right to ask for conversion of the bonds into common stock during the period from the date after one month of issuance of bonds to 10 days before the maturity date, except during the mandatory stop transfer period as required by law. The converted shares have the same rights and obligations as common shares. As of July 25, 2016, the bonds with face value in the amount of US\$84,300 thousand had been converted into 27,813 thousand shares of common stocks.
  - (c) The conversion price is set up according to the terms of the bonds and is subject to adjustments when the anti-dilution provisions occur. The conversion price was set at NT\$110 (in dollars) per share on issuance. If the conversion price reset according to the

terms is higher than the original conversion price of current year, then the conversion price will not be adjusted. At conversion, the number of ordinary shares can be converted to be calculated by applying the carrying value of the bonds to the fixed exchange rate of 29.935 then divided by the conversion price per share at the conversion date. As of July 25, 2016, the conversion price was adjusted to NT\$85.3 (in dollars) per share.

- (d) The bondholders may require the Company to redeem any bonds at 102.01% of the bonds' face value upon the date after two years of issuance of the bonds.
- (e) The redemption terms are as follows:
  - i. After 30 days of issuance of the bonds, when the closing prices of the Company's stock for a period of 30 consecutive trading days are above 130% of the conversion price, the Company may redeem all of the outstanding bonds at face value.
  - ii. The Company may redeem all of the outstanding bonds at face value at any time when 90% of the outstanding bonds redeemed, repurchased and canceled by the bondholders exercise their conversion rights.
  - iii. Changes in R.O.C. Tax Law may cause the Company to incur more tax expense. In this case, the Company may redeem all of the outstanding bonds at face value.
- (f) Under the terms of the bonds, all bonds redeemed (including from secondary market), matured and converted will be retired and not to be reissued. The rights and obligations of the bonds will also cease. As of July 25, 2016, the convertible bonds totaling US\$15,700 thousand (face value) were repurchased and retired by the Company from the Singapore Exchange Limited.
- (g) The fair value of put and call options embedded in bonds payable is separated from bonds payable and is recognized in "Financial assets or liabilities at fair value through profit or loss" in accordance with IAS 39. The annual effective interest rate of the bonds payable after separation is 2.83%.
- B. The terms of the Third domestic unsecured convertible bonds issued by the Company are as follows:
  - (a) On August 21, 2014, the Company issued 0% coupon, 3-year domestic unsecured convertible bonds in the amount of \$2,000,000. The bonds along with interest payable refund (which is 1.5% of the face value of the bond at maturity) are repayable in full by cash at face value at maturity. The bonds were traded in the Taipei Exchange since August 21, 2014.
  - (b) The bondholders have the right to ask for conversion of the bonds into common stock during the period from the date after one month of issuance of bonds to the maturity date, except during the mandatory stop transfer period as required by law. The converted shares have same rights and obligations as common shares. As of August 21, 2017, the bonds with face value in the amount of \$2,000,000 had been converted into 29,621 thousand shares of common stocks.
  - (c) The conversion price is set up according to the terms of the bonds and is subject to adjustments when the anti-dilution provisions occur. The conversion price was set at NT\$81.8 (in dollars) per share on issuance. If the conversion price reset according to the terms is higher than the original

- conversion price of current year, then the conversion price will not be adjusted. As of August 21, 2017, the conversion price was adjusted to NT\$56 (in dollars) per share.
- (d) Under the terms of the bonds, all bonds redeemed (including those repurchased from Taipei Exchange), matured and converted will be retired and not to be reissued. The rights and obligations of the bonds will also cease.
- (e) The fair value of equity conversion options in the amount of \$46,877 was separated from bonds payable and was recognized in "Capital reserve from stock options" in accordance with IAS 32. As of August 21, 2017, the balance of "Capital reserve from stock options" after adjusting the amount converted into common stock is \$0. The annual effective interest rate of the bonds payable after separation is 1.38%.
- C. The terms of the Fourth domestic unsecured convertible bonds issued by the Company are as follows:
  - (a) On April 12, 2016, the Company issued 0% coupon, 2-year and 8-month domestic unsecured convertible bonds in the amount of \$1,600,000. The bonds along with interest payable refund (which is 1.3389% of the face value of the bond at maturity) are repayable in full by cash at face value at maturity. The bonds were traded in the Taipei Exchange since April 12, 2016.
  - (b) The bondholders have the right to ask for conversion of the bonds into common stock during the period from the date after one month of issuance of bonds to the maturity date, except during the mandatory stop transfer period as required by law. The converted shares have same rights and obligations as common shares. As of December 31, 2017, the bonds with face value in the amount of \$1,071,100 had been converted into 14,624 thousand shares of common stocks.
  - (c) The conversion price is set up according to the terms of the bonds and is subject to adjustments when the anti-dilution provisions occur. The conversion price was set at NT\$83.7 (in dollars) per share on issuance. If the conversion price reset according to the terms is higher than the original conversion price of current year, then the conversion price will not be adjusted. As of December 31, 2017, the conversion price was adjusted to NT\$69.2 (in dollars) per share.
  - (d) Under the terms of the bonds, all bonds redeemed (including those repurchased from Taipei Exchange), matured and converted will be retired and not to be reissued. The rights and obligations of the bonds will also cease.
  - (e) The fair value of equity conversion options in the amount of \$35,723 was separated from bonds payable and was recognized in "Capital reserve from stock options" in accordance with IAS 32. As of December 31, 2017, the balance of "Capital reserve from stock options" after adjusting the amount converted into common stock is \$11,809. The annual effective interest rate of the bonds payable after separation is 1.47%.

### (12) Pensions

A.(a)The Company and its domestic subsidiaries have a defined benefit pension plan in accordance with the Labor Standards Law, covering all regular employees' service years prior to the enforcement of the Labor Pension Act on July 1, 2005 and service years thereafter of employees who chose to continue to be subject to the pension mechanism under the Law. Under the defined benefit pension

plan, two units are accrued for each year of service for the first 15 years and one unit for each additional year thereafter, subject to a maximum of 45 units. Pension benefits are based on the number of units accrued and the average monthly salaries and wages of the last 6 months prior to retirement. The Company contributes monthly an amount equal to 2% of the employees' monthly salaries and wages to the retirement fund deposited with Bank of Taiwan, the trustee, under the name of the independent retirement fund committee. Also, the Company would assess the balance in the aforementioned labor pension reserve account by the end of December 31, every year. If the account balance is insufficient to pay the pension calculated by the aforementioned method, to the employees expected to be qualified for retirement next year, the Company will make contributions to cover the deficit by next March.

### (b) The amounts recognised in the balance sheet are as follows:

|  | December 3 | 1, 2017 | Decembe | er 31, 2016 |
|--|------------|---------|---------|-------------|
| Present value of defined benefit obligations                             | \$         | 55,740  | \$      | 49,775      |
| Fair value of plan assets  | (          | 35,033) | (       | 33,039)     |
| Net defined benefit liability (Shown as "other non-current liabilities") | \$         | 20,707  | \$      | 16,736      |

### (c)Changes in present value of defined benefit obligations are as follows:

|                                | Prese | nt value of              |    |                      |     |                            |

| (excluding amounts included in |       | -           | (  | 282)         | (   | 282)           |
| interest income or expense)    |       |             |    |              |     |                |
| Experience adjustments         | (     | 3,572)      |    |              |     | 3,572)         |
|                                | (     | 3,572)      | (  | 282)         |     | 3,854)         |
| Pension fund contribution      |       |             |    | 1,615        |     | 1,615          |
| Balance at December 31         | (\$   | 49,775)     | \$ | 33,039       | (\$ | 16,736)        |

(d) The Bank of Taiwan was commissioned to manage the Fund of the Company's and domestic subsidiaries' defined benefit pension plan in accordance with the Fund's annual investment and utilisation plan and the "Regulations for Revenues, Expenditures, Safeguard and Utilisation of the Labor Retirement Fund" (Article 6: The scope of utilisation for the Fund includes deposit in domestic or foreign financial institutions, investment in domestic or foreign listed, over-the-counter, or private placement equity securities, investment in domestic or foreign real estate securitization products, etc.). With regard to the utilisation of the Fund, its minimum earnings in the annual distributions on the final financial statements shall be no less than the earnings attainable from the amounts accrued from two-year time deposits with the interest rates offered by local banks. If the earnings is less than aforementioned rates, government shall make payment for the deficit after being authorized by the Regulator. The Company has no right to participate in managing and operating that fund and hence the Company is unable to disclose the classification of plan asset fair value in accordance with IAS 19 paragraph 142. The composition of fair value of plan assets as of December 31, 2017 and 2016 is given in the Annual Labor Retirement Fund Utilisation Report announced by the government.

(e)The principal actuarial assumptions used were as follows:

|                         | 2017  | 2016  |
|-------------------------|-------|-------|
| Discount rate           | 1.80% | 1.80% |
| Future salary increases | 3.00% | 3.00% |

Assumptions regarding future mortality experience are set based on actuarial advice in accordance with published statistics and experience in each territory.

Because the main actuarial assumption changed, the present value of defined benefit obligation is affected. The analysis was as follows:

|   |          | Discou | nt rate  | E     | uture sal | ary incre | eases |        |
|---|----------|--------|----------|-------|-----------|-----------|-------|--------|
|   | Increase | 0.25%  | Decrease | 0.25% | Incı      | ease 1%   | Decre | ase 1% |
| December 31, 2017                                     |          |        |          |       |           |           |       |        |
| Effect on present value of defined benefit obligation | ,        | 2,507) | \$       | 2,646 | \$        | 11,353    | (\$   | 9,326) |
| December 31, 2016                                     |          |        |          |       |           |           |       |        |
| Effect on present value of defined benefit obligation | •        | 2,277) | \$       | 2,407 | \$        | 10,338    | (\$   | 8,459) |

The sensitivity analysis above is based on other conditions that are unchanged but only one assumption is changed. In practice, more than one assumption may change all at once. The method of analysing sensitivity and the method of calculating net pension liability in the balance sheet are the same.

The method and assumptions used for the preparation of sensitivity analysis during 2017 and during 2016 are the same.

- (f)Expected contributions to the defined benefit pension plans of the Group for the year ending December 31, 2017 amounts to \$1,641.
- (g) As of December 31, 2017, the weighted average duration of that retirement plan is 20 years.
- B. (a) Effective July 1, 2005, the Company and its domestic subsidiaries have established a defined contribution pension plan (the "New Plan") under the Labor Pension Act (the "Act"), covering all regular employees with R.O.C. nationality. Under the New Plan, the Company and its domestic subsidiaries contribute monthly an amount based on 6% of the employees' monthly salaries and wages to the employees' individual pension accounts at the Bureau of Labor Insurance. The benefits accrued are paid monthly or in lump sum upon termination of employment.
  - (b) The Company's mainland China subsidiaries, Flexium Interconnect (Kunshan) Incorporation and Flexium Technology (Suzhou) Incorporation, have a defined contribution plan. Monthly contributions to an independent fund administered by the government in accordance with the pension regulations in the People's Republic of China (PRC) are based on a certain percentage of employees' monthly salaries and wages. Other than the monthly contributions, the Group has no further obligations.
  - (c) The pension costs under the defined contribution pension plans of the Group for the years ended December 31, 2017 and 2016 were \$122,527 and \$127,757, respectively.

### (13) Share-based payment

- A. Options granted during the period from January 1, 2004 through January 1, 2008
  - (a) The exercise price under stock-based employee compensation plan in 2007 was determined at the closing price (\$17 in dollars per share) of the Company's common stock upon issuance of the stock option. If there is a change in common stock or the Company distributes cash dividend, the exercise price would be adjusted according to specific formulas. The expected

vesting period is 10 years. After 2 years from the date of grant, an employee may exercise the options in accordance with certain schedules as prescribed by the employee option plan.

(b) Details of the share-based payment arrangements are as follows:

|                                    | _                                | 2017     | 7  |      | 201                              |   |  |
|------------------------------------|----------------------------------|----------|--|------|----------------------------------|---|--|

| Weighted-average fair value | 42.32            |
| per share (in dollars)      |                  |

### B. Options granted after January 1, 2008

- (a) The initial exercise price under stock-based employee compensation plan in 2010 was \$46.95 (in dollars) per share. If there is a change in common stock or the Company distributes cash dividend, the exercise price would be adjusted according to specific formulas. As of December 31, 2017, the adjusted exercise price was NT\$24.40 (in dollars). The expected vesting period is 10 years. After 2 years from the date of grant, an employee may exercise the options in accordance with certain schedules as prescribed by the employee option plan.
- (b) Details of the employee stock options are set forth below:

|                                    |          | 201  | 7  |                   | 2016           |                  |              |  |

B. For details of capital reserve from stock options, please refer to Note 6(11).

### (16) Retained earnings

- A. Pursuant to the R.O.C. Company Law, the annual net income should be used initially to cover any accumulated deficit; thereafter 10% of the annual net income should be set aside as legal reserve until the balance of legal reserve is equal to that of issued share capital. The legal reserve shall be exclusively used to cover accumulated deficit, to issue new stock, or distribute cash to shareholders in proportion to their share ownership. The use of legal reserve of the issuance of stocks or cash to shareholders in proportion to their share ownership is permitted, provided that the balance of the reserve exceeds 25% of the Company's paid-in capital.
- B. Under the Company's Articles of Incorporation, the current year's earnings, if any, shall first be used to pay all taxes and offset prior years' operating losses and the 10% of the appropriated as special reserve pursuant to Article 41 of Securities and Exchange Law. The remaining income and prior years' unappropriated retained earnings shall be distributed in accordance with the appropriation proposed by the Board of Directors based on the financial position and economic development of 2017 and shall be resolved by the stockholders.
- C. The appropriation of earnings should be resolved by the stockholders. Cash dividends shall not be less than 5% of the total dividends distributed. However, if cash dividends per share are less than \$0.1, the Company may decide not to distribute cash dividends but to distribute stock dividends instead. If there is accumulated deficit from previous or current year, special reserve should be set aside from previous unappropriated earnings before appropriation of earnings.

- D. (a) In accordance with the regulations, the Company shall set aside special reserve from the debit balance on other equity items at the balance sheet date before distributing earnings. When debit balance on other equity items is reversed subsequently, the reversed amount could be included in the distributable earnings.
  - (b) The amounts previously set aside by the Company as special reserve on initial application of IFRSs in accordance with Jin-Guan-Zheng-Fa-Zi Letter No. 1010012865, dated April 6, 2012, shall be reversed proportionately when the relevant assets are used, disposed of or reclassified subsequently. Such amounts are reversed upon disposal or reclassified if the assets are investment property of land, and reversed over the use period if the assets are investment property other than land.
- E. The Company resolved that total dividends for the distribution of earnings for 2016 was \$633,742 (\$2.5 (in dollars) per share). On June 22, 2017, the shareholders resolved that total dividends for the distribution of earnings for 2016 was \$720,462 (\$2.5 (in dollars) per share).

- A. A ratio of distributable profit of the current year, after covering accumulated losses, shall be distributed as employees' compensation and directors' and supervisors' remuneration. The ratio shall not be lower than 1% for employees' compensation and shall not be higher than 2% for directors' and supervisors' remuneration.
- B. For the years ended December 31, 2017 and 2016, employees' compensation was accrued at \$93,000 and \$73,000, respectively; directors' and supervisors' remuneration was both accrued at \$15,000. In 2017, the employees' compensation and directors' and supervisors' remuneration were estimated and accrued based on certain proportion of distributable profit of current year as of the end of reporting period. Employees' compensation and directors' and supervisors' remuneration of 2016 as resolved by the Board of Directors were in agreement with those amounts recognised in the 2016 financial statements. Information about employees' compensation and directors' and supervisors' remuneration of the Company resolved by the Board of Directors and the shareholders at the shareholders' meeting will be posted in the "Market Observation Post System" at the website of the Taiwan Stock Exchange.

### (23) Income tax

### A. Income tax expense

Components of income tax expense:

### 8. PLEDGED ASSETS

None.

### 9. COMMITMENTS AND CONTINGENT LIABILITIES

- (1) As of December 31, 2017 and 2016, the Group issued promissory notes amounting to \$1,070,463 and \$1,090,223 for loans, sales on credit and forward exchange contracts, respectively.
- (2) As of December 31, 2017 and 2016, total unused letters of credit for the import of machinery and equipment was \$22,628 and \$0, respectively.
- (3) As of December 31, 2017 and 2016, the Group entered into several contracts for construction and acquisition of machinery with total values of \$626,658 and \$746,012, respectively, and the unpaid balance on these contracts amounted to \$289,884 and \$407,761, respectively.

### 10. SIGNIFICANT CATASTROPHE

None.

### 11. SUBSEQUENT EVENTS

- (1) The amendment to Income Tax Act was promulgated by the President of the Republic of China on February 7, 2018 raising the profit-seeking enterprise income tax rate will be raised from 17% to 20%. This will increase the Company's deferred tax assets and deferred tax liabilities, as of December 31, 2017, by \$8,628 and \$105,464, respectively.
- (2) The proposal in relation to the issuance of the third unsecured overseas convertible bonds of US\$120,000 thousand with 0% coupon rate and three-year maturity was approved by the Board of Directors on February 7, 2018.

### 12. OTHERS

### (1) Capital management

The Group's objectives when managing capital are to safeguard the Group's ability to continue as a going concern in order to provide returns for shareholders and to maintain an optimal capital structure to reduce the cost of capital. In order to maintain or adjust the capital structure, the Group may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares or sell assets to reduce debt. The Group monitors capital on the basis of the gearing ratio. This ratio is calculated as net debt divided by total capital. Total debt is calculated as 'current and non-current liabilities' as shown in the consolidated balance sheet.

During 2017, the Group's strategy, which was unchanged from 2016, was to maintain the balance of the capital structure. The gearing ratio at December 31, 2017 and 2016 were as follows:

|                   | Dece | mber 31, 2017 | Dec | ember 31, 2016 |
|-------------------|------|---------------|-----|----------------|
| Total liabilities | \$   | 12,865,825    | \$  | 7,986,663      |
| Total assets      | \$   | 30,726,233    | \$  | 23,516,565     |
| Gearing ratio     |      | 42            |     | 34             |

### (2) Financial instruments

### A. Fair value information of financial instruments

The carrying amounts of the Group's financial instruments not measured at fair value (including cash and cash equivalents, notes receivable, accounts receivable, other receivables, other current financial assets, other non-current financial assets, refundable deposits (shown under "other non-current assets, other"), accounts payable, other payables, bonds payable and guarantee deposits received (shown under "other non-current liabilities")) are approximate to their fair values. The fair value information of financial instruments measured at fair value is provided in Note 12(3).

### B. Financial risk management policies

(a) The Group's activities expose it to a variety of financial risks: market risk (including foreign exchange risk, interest rate risk and price risk), credit risk and liquidity risk. The Group's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the Group's financial position and financial performance. The Group uses derivative financial instruments to hedge certain risk exposures (see Note 6(2)).

(b) Risk management is carried out by a central treasury department (Group treasury) under policies approved by the Board of Directors. Group treasury identifies, evaluates and hedges financial risks in close cooperation with the Group's operating units. The Board provides written principles for overall risk management, as well as written policies covering specific areas and matters, such as foreign exchange risk, interest rate risk, credit risk, use of derivative financial instruments and non-derivative financial instruments, and investment of excess liquidity.

### C. Significant financial risks and degrees of financial risks

### (a) Market risk

### Foreign exchange risk

- A. The Group operates internationally and is exposed to foreign exchange risk arising from various currency exposures, primarily with respect to the USD and RMB. Foreign exchange risk arises from future commercial transactions, recognised assets and liabilities.
- B. Management has set up a policy to require group companies to manage their foreign exchange risk against their functional currency. The group companies are required to hedge their entire foreign exchange risk exposure with the Group treasury. To manage their foreign exchange risk arising from future commercial transactions and recognised assets and liabilities, entities in the Group use forward foreign exchange contracts, transacted with Group treasury. Foreign exchange risk arises when future commercial transactions or recognised assets or liabilities are denominated in a currency that is not the entity's functional currency.
- C. The Group's businesses involve some non-functional currency operations (the Company's and certain subsidiaries' functional currency: NTD; other certain subsidiaries' functional currency: USD and RMB). The information on assets and liabilities denominated in foreign currencies whose values would be materially affected by the exchange rate fluctuations is as follows:

|   |                          |               | Decer               | December 31, 2017   |                          |                                      |

D.The total exchange loss, including realised and unrealised arising from significant foreign exchange variation on the monetary items held by the Group for the years ended December 31, 2017 and 2016 amounted to \$274,140 and \$201,889, respectively.

### Interest rate risk

The Group's issued zero coupon liability financial instruments with embedded conversion options and call options. The fair value of the financial instrument is exposed under the risk of market fluctuation. There was no cash flow risk arising from significant changes in interest rate after assessment.

### Price risk

The Group's investment in equity securities comprise domestic listed and unlisted stocks. The prices of equity securities would change due to the change of the future value of investee companies. However, the Group has set up stop-loss point for those instruments. Therefore, the Group does not expect to be exposed to material market risk.

### (b)Credit risk

- i. Credit risk refers to the risk of financial loss to the Group arising from default by the clients or counterparties of financial instruments on the contract obligations. According to the Group's credit policy, each local entity in the Group is responsible for managing and analysing the credit risk for each of their new clients before standard payment and delivery terms and conditions are offered. Internal risk control assesses the credit quality of the customers, taking into account their financial position, past experience and other factors. Credit risk arises from cash and cash equivalents, derivative financial instruments, as well as credit exposures to customers, including outstanding receivables.
- ii. No credit limits were exceeded during the reporting periods, and the counterparties have good credit rating. Thus, management does not expect any significant losses from non-performance by these counterparties.
- iii.Please refer to Note 6(4) for credit quality information on financial assets that are neither past due nor impaired and analysis on financial assets that are past due but not impaired.

### (c)Liquidity risk

- i. Cash flow forecasting is performed in the operating entities of the Group and aggregated by Group treasury. Group treasury monitors rolling forecasts of the Group's liquidity requirements to ensure it has sufficient cash to meet operational needs while maintaining sufficient headroom on its undrawn committed borrowing facilities.
- ii. Surplus cash held by the operating entities over and above balance required for working capital management are invested in interest bearing current accounts, time deposits, bonds with resale agreement, structured certificates of deposit and marketable securities, choosing instruments with appropriate maturities or sufficient liquidity to provide sufficient headroom as determined by the abovementioned forecasts. As at December 31, 2017 and 2016, the Group held money market position of \$10,588,959 and \$11,444,235, respectively, that are expected to readily generate cash inflows for managing liquidity risk.

iii. The table below analyses the Group's non-derivative financial liabilities and net-settled or gross-settled derivative financial liabilities into relevant maturity groupings based on the remaining period at the balance sheet date to the contractual maturity date for non-derivative financial liabilities and to the expected maturity date for derivative financial liabilities. The amounts disclosed in the table are the contractual undiscounted cash flows.

### Non-derivative financial liabilities:

| December 31, 2017                     | Less than 1 year |           | Between 1 and 2 years |           | Over 2 years |   |
|---------------------------------------|------------------|-----------|-----------------------|-----------|--------------|---|
| Non-derivative financial liabilities: |                  |           |                       |           |              |   |
| Accounts payable                      | \$               | 7,396,853 | \$                    | -         | \$           | _ |
| Other payables                        |                  | 3,607,951 |                       | -         |              | - |
| Bonds payable                         |                  | 535,982   |                       | -         |              | - |
| December 31, 2016                     | Less than 1 year |           | Between 1 and 2 years |           | Over 2 years |   |
| Non-derivative financial liabilities: |                  |           |                       |           |              |   |
| Accounts payable                      | \$               | 3,431,568 | \$                    | -         | \$           | - |
| Other payables                        |                  | 1,711,281 |                       |           |              | _ |
| Bonds payable                         |                  | 242,585   |                       | 1,620,915 |              | _ |

iv. The Group does not expect the timing of occurrence of the cash flows estimated through the maturity date analysis will be significantly earlier, nor expect the actual cash flow amount will be significantly different.

### (3) Fair value information

- A. Details of the fair value of the Group's financial assets and financial liabilities not measured at fair value are provided in Note 12(2)A. Details of the fair value of the Group's investment property measured at cost are provided in Note 6(7).
- B. The different levels that the inputs to valuation techniques are used to measure fair value of financial and non-financial instruments have been defined as follows:
  - Level 1:Quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date. A market is regarded as active where a market in which transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis. The fair value of the Group's investment in listed stocks and derivative instruments with quoted market prices is included in Level 1.
  - Level 2:Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly. The fair value of the Group's investment in certain derivative instruments is included in Level 2.

Level 3:Unobservable inputs for the asset or liability.

C. The related information of financial and non-financial instruments measured at fair value by level on the basis of the nature, characteristics and risks of the assets and liabilities at December 31, 2017 and 2016 is as follows:

| December 31, 2017                        |           | Level 1 |           | Level 2   | _         | Level 3 |          |           | Total     |
|--|-----------|---------|-----------|-----------|-----------|---------|----------|-----------|-----------|
| Assets                                   |           |         |           |           |           |         |          |           |           |
| Recurring fair value measurements        |           |         |           |           |           |         |          |           |           |
| Financial assets at fair value           |           |         |           |           |           |         |          |           |           |
| through profit or loss equity securities | \$        | 22,365  | \$        | -         | \$        |         | -        | \$        | 22,365    |
| Financial assets designated as at        |           |         |           |           |           |         |          |           |           |
| fair value through profit or loss        |           |         |           |           |           |         |          |           |           |
| Structured certificates of deposit       |           | -       |           | 1,598,788 |           |         | -        |           | 1,598,788 |
| Available-for-sale financial assets      |           |         |           |           |           |         |          |           |           |
| equity securities                        |           | 43,211  |           |           |           |         | _        |           | 43,211    |
|  | <u>\$</u> | 65,576  | \$        | 1,598,788 | \$        |         | <u> </u> | \$        | 1,664,364 |
| <u>December 31, 2016</u>                 |           | Level 1 |           | Level 2   |           | Level 3 |          |           | Total     |
| Assets                                   |           |         |           |           |           |         |          |           |           |
| Recurring fair value measurements        |           |         |           |           |           |         |          |           |           |
| Financial assets at fair value           |           |         |           |           |           |         |          |           |           |
| through profit or loss equity securities | \$        | 39,804  | \$        | -         | \$        |         | -        | \$        | 39,804    |
| Available-for-sale financial assets      |           |         |           |           |           |         |          |           |           |
| equity securities                        | _         | 174,612 |           |           |           |         |          |           | 174,612   |
|  | \$        | 214,416 | <u>\$</u> | -         | <u>\$</u> |         | _        | <u>\$</u> | 214,416   |

- D. The methods and assumptions the Group used to measure fair value are as follows:
  - (a) The instruments the Group used market quoted prices as their fair values (that is, Level 1) are listed below by characteristics:

Market quoted price Listed shares

Closing price

- (b) The assessment of structured certificates of deposit is calculated based on the product revenue that is provided by counterparties.
- E. For the years ended December 31, 2017 and 2016, there was no transfer between Level 1 and Level 2.
- F. For the years ended December 31, 2017 and 2016, there was no transfer into or out from Level 3.
- G. Treasury segment is in charge of valuation procedures for fair value measurements being categorised within Level 3, which is to verify independent fair value of financial instruments using the actuarial reports issued by external experts. Such assessment is to ensure the valuation results are reasonable by applying independent information to make results close to current market conditions, confirming the resource of information is independent, reliable and in line with other resources and represented as the exercisable price, and frequently calibrating valuation model, performing back-testing, updating inputs used to the valuation model and making any other necessary adjustments to the fair value.

### 13. SUPPLEMENTARY DISCLOSURES

- (1) Significant transactions information
  - A. Loans to others: Please refer to table 1.
  - B. Provision of endorsements and guarantees to others: None.

- C. Holding of marketable securities at the end of the period (not including subsidiaries, associates and joint ventures): Please refer to table 2.
- D. Acquisition or sale of the same security with the accumulated cost exceeding \$300 million or 20% of the Company's paid-in capital: Please refer to table 3.
- E. Acquisition of real estate reaching NT\$300 million or 20% of paid-in capital or more: None.
- F. Disposal of real estate reaching NT\$300 million or 20% of paid-in capital or more: None.
- G. Purchases or sales of goods from or to related parties reaching NT\$100 million or 20% of paid-in capital or more: Please refer to table 4.
- H. Receivables from related parties reaching NT\$100 million or 20% of paid-in capital or more: Please refer to table 5.
- I. Trading in derivative instruments undertaken during the reporting periods: Please refer to Notes 6(2) and 12(2).
- J. Significant inter-company transactions during the reporting periods: Please refer to table 6.

### (2) Information on investees

Names, locations and other information of investee companies (not including investees in Mainland China): Please refer to table 7.

### (3) Information on investments in Mainland China

- A. Basic information: Please refer to table 8.
- B. Significant transactions, either directly or indirectly through a third area, with investee companies in the Mainland Area: Please refer to table 9.

### 14. SEGMENT INFORMATION

### (1) General information

The Group operates business in manufacturing and sale of flexible PCBs. The Company allocates resources and assesses performance of the Group as a whole, and has identified that the Group has only one reportable operating segment.

### (2) Measurement of segment information

The Group evaluates the performances of the operating segments based on their net income (loss).

### (3) Information about segment profit or loss, assets and liabilities

The segment information is provided to the Chief Operating Decision-Maker for the reportable segments. Please refer to the balance sheet and statement of comprehensive income.

### (4) Reconciliation for segment income (loss)

The revenue from customers reported to the Chief Operating Decision-Maker is measured in a manner consistent with that in the statement of comprehensive income. The amounts provided to the Chief Operating Decision-Maker with respect to total assets and liabilities are measured in a manner consistent with that of the financial statements.

### (5) Information on products and services

Revenue from external customers is mainly from sales of flexible printed circuit boards and related raw materials and supplies.

### (6) Revenue information by geographic areas

Revenue information by geographic areas of the Group for 2017 and 2016 is shown below:

|                     | _         |            |      | Years ended      | Dec | ember 31,  |      |                  |
|---------------------|-----------|------------|------|------------------|-----|------------|------|------------------|
|                     | _         |            | 2017 | 7                |     |            | 2016 |                  |

Note 1: The numbers filled in for the loans provided by the Company or subsidiaries are as follows:

<sup>(1)</sup> The Company is 'U'

<sup>(2)</sup> The subsidiaries are numbered in order starting from '1'.

Note 2: Fill in the name of account in which the loans are recognised, such as receivables associates, receivables-related parties, current account with stockholders, prepayments, temporary payments, etc.

Note 3: Fill in the maximum outstanding balance of loans to others for the year ended December 31, 2017.

Note 4: Fill in purpose of loan when nature of loan is for short-term financing.

Note 5: Fill in the amount of business transactions when nature of the loan is related to business transactions, which is the amount of business transactions occurred between the creditor and borrower in the current year.

Note 7: In accordance with the Company's "Procedures for Provision of Loans", limit on loans to a single party with business transactions is the higher value of purchasing and selling during current year on the year of financing and is 20% of the Company's Note 6: Fill in purpose of loan when nature of loan is for short-term financing, for example, repayment of loan, acquisition of equipment, working capital, etc.

net asset based on the latest audited or reviewed consolidated financial statements; limit on loans to a single party with short-term financing is 10% of the Company's net asset based on the latest audited or reviewed consolidated financial statements. Note 8: In accordance with the Company's "Procedures for Provision of Loans", ceiling on total loans is 40% of the Company's net assets.

Note 9: Ending balance of loans at the balance sheet date is the limit approved by the Board of Directors.

Note 10: In accordance with the Company's "Procedures for Provision of Loans", limit on loans to a company of which the Company directly or indirectly holds 100% of its voting shares is not limited.

Holding of marketable securities at the end of the period (not including subsidiaries, associates and joint ventures)

Year ended December 31, 2017

Expressed in thousands of NTD (Except as otherwise indicated)

Note 1: Marketable securities in the table refer to stocks, bonds, beneficiary certificates and other related derivative securities.

Note 2: Fill in the columns the counterparty and relationship if securities are accounted for under the equity method; otherwise leave the columns blank.

Note 3: Aggregate purchases and sales amounts should be calculated separately at their market values to verify whether they individually reach NT\$300 million or 20% of paid-in capital or more.

Note 4: Paid-in capital referred to herein is the paid-in capital of parent company. In the case that shares were issued with no par value other than NT\$10 per share, the 20 % of paid-in capital shall be replaced by 10% of equity attributable to owners of the

parent in the calculation.

Note 5: It is not applicable for Flexium Technology (Suzbou) Incorporation because it is a limited company.

Note 6: It is not applicable for Flexium Technology (Suzbou) Incorporation because it is a limited company.

Note 6: The amount includes capital increase for the year, share of profit (loss) of subsidiaries, associates and joint ventures accounted for using equity method as well as exchange differences on translation of foreign financial statements.

Note 1: In the sales to related parties, the price of work in progress is based on mutual agreement. The price cannot be compared with regular sales due to a lack of similar counterparties. The price of materials and supplies is determined by adding the margin to the cost. The collection period to third parties is approximately 180 days after the end of each month while those to related parties are 90~120 days after the end of each month.

Note 2: The transaction prices to related parties are similar with those to third parties. The collection periods to third parties are 60 to 90 days after the end of each month while those to related parties are 90 days after the end of each

Note 5: The transaction is sales from FLEXIUM INTERCONNECT (KUNSHAN) INCORPORATION to CHAMPION BEYOND LIMITED and CHOSEN GLORY LIMITED, and the collection period is approximately 90 days after the Note 4: The transaction is sales from CHAMPION BEYOND LIMITED to FLEXIUM INTERCONNECT (KUNSHAN) INCORPORATION, and the collection period is approximately 180 days after the end of each month. Note 3: The transaction is sales from GRANDPLUS ENTERPRISES LTD. to CHAMPION BEYOND LIMITED, and the collection period is approximately 180 days after the end of each month.

Note 6: The transaction is sales from CHAMPION BEYOND LIMITED to GRANDPLUS ENTERPRISES LTD., and the collection period is approximately 90 days after the end of each month. end of each month.

Note 8: The purchase (sales) amount is contained the eliminates to sales revenue and operating costs (merchandise purchase) arising from raw material processing, which are provided by the Company Note 7: The transaction is sales from CHOSEN GLORY LIMITED to GRANDPLUS ENTERPRISES LTD., and the collection period is approximately 90 days after the end of each month.

through the offshore company that is in the third place to the subsidiary, FLEXIUM INTERCONNECT(KUNSHAN). The eliminated amount was 3,168,963 for 2017.

Note 9. The transaction is sales from FLEXIUM TECHNOLOGY (SUZHOU) INCORPORATION to FLEXIUM INTERCONNECT (KUNSHAN) INCORPORATION, and the collection period is approximately 90 days after the end of each

required to disclose twice. For example, if the parent company has already disclosed its transaction with a subsidiary, then the subsidiary is not required to disclose the transaction; for transactions between two subsidiaries, if one of Note 2: Relationship between transaction company and counterparty is classified into the following three categories (If transactions between parent company and subsidiaries or between subsidiaries refer to the same transaction, it is not the subsidiaries has disclosed the transaction, then the other is not required to disclose the transaction.):

(1) Parent company to subsidiary.

(2) Subsidiary to parent company.

(3) Subsidiary to subsidiary.

Note 3: Regarding percentage of transaction amount to consolidated total operating revenues or total assets, it is computed based on period-end balance of transaction to consolidated total assets for balance sheet accounts and based on

Note 4: In the sales to related parties, the price of work in progress is based on mutual agreement. The price cannot be compared with regular sales due to a lack of similar counterparties. The price of materials and supplies is determined accumulated transaction amount for the period to consolidated total operating revenues for income statement accounts.

Note 5: The processing prices were determined in accordance with mutual agreements. The collection period to third parties is 60 to 90 days after the end of each month while those to related parties is 90 days after the end of each month. by adding the margin to the cost. The collection period to third parties is approximately 180 days after the end of each month while those to related parties are 90~120 days after the end of each month.

Note 7: The transaction is sales from CHAMPION BEYOND LIMITED to FLEXIUM INTERCONNECT (KUNSHAN) INCORPORATION, and the collection period is approximately 180 days after the end of each month. Note 6: The transaction is sales from GRANDPLUS ENTERPRISES LTD. to CHAMPION BEYOND LIMITED, and the collection period is approximately 180 days after the end of each month.

Note 8: The transaction is sales from CHAMPION BEYOND LIMITED to GRANDPLUS ENTERPRISES LID., and the collection period is approximately 90 days after the end of each month.

Note 9: The transaction is sales from CHOSEN GLORY LIMITED to GRANDPLUS ENTERPRISES LTD., and the credit term is approximately 90 days after the end of each month.

Note 10: The transaction is sales from FLEXIUM INTERCONNECT (KUNSHAN) INCORPORATION to CHAMPION BEYOND LIMITED and CHOSEN GLORY LIMITED, and the collection period is approximately 90 days after the end

Note 11: The transaction is sales from FLEXIUM TECHNOLOGY (SUZHOU) INCORPORATION to FLEXIUM INTERCONNECT (KUNSHAN) INCORPORATION, and the credit term is approximately 90 days after the end of each
