INDEPENDENT AUDITORS' REPORT

DECEMBER 31, 2021 AND 2020

For the convenience of readers and for information purpose only, the auditors' report and the accompanying financial statements have been translated into English from the original Chinese version prepared and used in the Republic of China. In the event of any discrepancy between the English version and the original Chinese version or any differences in the interpretation of the two versions, the Chinese-language auditors' report and financial statements shall prevail.

Declaration of Consolidated Financial Statements of Affiliated Enterprises

For the year ended December 31, 2021, pursuant to "Criteria Governing Preparation of Affiliation Reports, Consolidated Business Reports and Consolidated Financial Statements of Affiliated Enterprises," the entity that is required to be included in the consolidated financial statements of affiliates, is the same as the entity required to be included in the consolidated financial statements of the parent company and its subsidiaries under International Financial Reporting Standard No. 10. Also, if relevant information that should be disclosed in the consolidated financial statements of affiliates has all been disclosed in the consolidated financial statements of the parent company and its subsidiaries, it shall not be required to prepare separate consolidated financial statements of affiliates.

Hereby declare,

FLEXIUM INTERCONNECT, INC.

INDEPENDENT AUDITORS' REPORT TRANSLATED FROM CHINESE

PWCR21000431

To the Board of Directors and Shareholders of Flexium Interconnect, Inc.

Opinion

We have audited the accompanying consolidated balance sheets of Flexium Interconnect, Inc. and subsidiaries (the "Group") as at December 31, 2021 and 2020 and the related consolidated statements of comprehensive income, of changes in equity and of cash flows for the years then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as at December 31, 2021 and 2020 and its consolidated financial performance and its consolidated cash flows for the years then ended in accordance with the "Regulations Governing the Preparation of Financial Reports by Securities Issuers" and the International Financial Reporting Standards, International Accounting Standards, IFRIC Interpretations, and SIC Interpretations as endorsed by the Financial Supervisory Commission.

Basis for opinion

We conducted our audits in accordance with the "Regulations Governing Auditing and Attestation of Financial Statements by Certified Public Accountants" and generally accepted auditing standards in the Republic of China. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with Norm of Professional Ethics for Certified Public Accountants in the Republic of China, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole and, in forming our opinion thereon, we do not provide a separate opinion on these matters.

Key audit matters for the Group's consolidated financial statements of the current period are stated as follows:

Key audit matter - Valuation of impairment of accounts receivable

Description

For the accounting policies on accounts receivable, please refer to Note 4(10). For the uncertainty of accounting estimates and assumptions in relation to accounts receivable, please refer to Note 5(2). For the details of net accounts receivable, please refer to Note 6(5).

The criteria that the Group uses to measure expected credit loss includes the aging of accounts receivable past due, financial situation of customers, internal credit ranking and historical transaction records. Based on this criterion, the Group estimates the amounts of allowance for accounts receivable that the Group has to provision. As the estimates are subject to management's judgement and involves uncertainty, the recoverable amount may be significantly affected. Thus, we consider the valuation of impairment of accounts receivable as one of the key audit matters.

How our audit addressed the matter

We performed the following audit procedures on the above key audit matter:

A. Obtained an understanding of the Group's operation and sales customers. Assessed the reasonableness of policies and process applied in allowance for accounts receivable, including the objective evidence for the loss rate and compared whether the provision policies adopted in the different periods are consistently applied.

B. Verified the consistency between the expected credit loss in the past due period for each group applied in calculating allowance for accounts receivable and the provision policies.

C. Verified the accuracy of the classification for accounts receivable aging to confirm that the information in the reports is consistent with its policies.

D. Sampled and performed subsequent collection tests for material accounts receivable and evaluated their recoverability.

Key audit matter - Inventory valuation

Description

For the accounting policies on inventory valuation, please refer to Note 4(14). For the uncertainty of accounting estimates and assumptions in relation to inventory valuation, please refer to Note 5(2). For the details of inventory, please refer to Note 6(6).

The Group is primarily engaged in manufacturing and sales of flexible print circuit board which belongs to a rapidly changing industry and is easily affected by the market price. Thus, there is a higher risk of incurring inventory valuation losses or having obsolete inventory. The Group determines inventory value using the item-by-item approach and recognised at the lower of cost and net realisable value. For inventory that is over a certain age, the net realised value was calculated from the historical experience of disposing old inventories.

The determination of net realisable value for obsolete or slow-moving inventory are subject to management's judgement and involves uncertainty. Considering the Group's inventory balance and the allowance for inventory valuation losses are material to its financial statements, we consider the inventory valuation as one of the key audit matters.

How our audit addressed the matter

We performed the following audit procedures on the above key audit matter:

A. Obtained an understanding of the Group's operation and industry. Assessed the reasonableness of the policy and procedures applied to recognise allowance for inventory evaluation losses and whether the accounting policy has been consistently applied in the comparative periods of financial statements.

B. Understood the Group's inventory control procedures. Participated in the annual inventory count in order to assess the effectiveness of the classification of obsolete inventory and internal control over obsolete inventory.

C. Sampled and verified the accuracy of inventory aging calculation, confirmed and verified the reasonableness of obsolete inventories identification, the basis of net realisable value valuation of inventories to assess the reasonableness of provision of allowance for inventory valuation losses.

Other matter – Parent company only financial reports

We have audited and expressed an unqualified opinion on the parent company only financial statements of Flexium Interconnect, Inc. as at and for the years ended December 31, 2021 and 2020.

Responsibilities of management and those charged with governance for the consolidated financial statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with the "Regulations Governing the Preparation of Financial Reports by Securities Issuers" and the International Financial Reporting Standards, International Accounting Standards, IFRIC Interpretations, and SIC Interpretations as endorsed by the Financial Supervisory Commission, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance, including audit commitee, are responsible for overseeing the Group's financial reporting process.

Auditors' responsibilities for the audit of the consolidated financial statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the generally accepted auditing standards in the Republic of China will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with the generally accepted auditing standards in the Republic of China, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

A. Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

B. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.

C. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

D. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Group to cease to continue as a going concern.

E. Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

F. Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

FLEXIUM INTERCONNECT, INC.
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
YEARS ENDED DECEMBER 31, 2021 AND 2020
(EXPRESSED IN THOUSANDS OF NEW TAIWAN DOLLARS, EXCEPT AS OTHERWISE INDICATED)

1. HISTORY AND ORGANISATION

(1) Flexium Interconnect, Inc. (the "Company") was incorporated under the provisions of the Company Law of the Republic of China (R.O.C.) and other relevant regulations on December 19, 1997. The Company is primarily engaged in the following: (1) manufacturing of build-up copper clad laminate; (2) manufacturing, processing, research, development, trading and repair of build-up printed circuit boards, flexible printed circuit boards, related semi-finished goods and parts; (3) manufacturing, research, development, and trading of parts for semi-finished goods of polyimide film base copper clad laminate; (4) manufacturing, processing, repair, design, trading of moulds, tools and clamping apparatuses; and (5) sale of raw materials for the products mentioned above. The Company's shares have been traded in the Taiwan Stock Exchange since September, 2003.

(2) Please refer to Note 4(3) B. for the descriptions on the primary business operations of the Company and its subsidiaries (collectively referred herein as the "Group").

2. THE DATE OF AUTHORISATION FOR ISSUANCE OF THE CONSOLIDATED FINANCIAL STATEMENTS AND PROCEDURES FOR AUTHORISATION

These consolidated financial statements were authorised for issuance by the Board of Directors on February 9, 2022.

3. APPLICATION OF NEW STANDARDS, AMENDMENTS AND INTERPRETATIONS

(1) Effect of the adoption of new issuances of or amendments to International Financial Reporting Standards ("IFRS") as endorsed by the Financial Supervisory Commission ("FSC")

New standards, interpretations and amendments endorsed by FSC effective from 2021 are as follows:

New Standards, Interpretations and Amendments	Effective date by International Accounting Standards Board
Amendments to IFRS 4, 'Extension of the temporary exemption from applying IFRS 9'	January 1, 2021
Amendments to IFRS 9, IAS 39, IFRS 7, IFRS 4 and IFRS 16, 'Interest Rate Benchmark Reform – Phase 2'	January 1, 2021
Amendment to IFRS 16, 'Covid-19-related rent concessions beyond 30 June 2021'	April 1, 2021(Note)

Note：Earlier application from January 1, 2021 is allowed by FSC.

The above standards and interpretations have no significant impact to the Group's financial condition and financial performance based on the Group's assessment.

(2) Effect of new issuances of or amendments to IFRSs as endorsed by the FSC but not yet adopted by the Group

New standards, interpretations and amendments endorsed by the FSC effective from 2022 are as follows:

New Standards, Interpretations and Amendments	Effective date by International Accounting Standards Board
Amendments to IFRS 3, ‘Reference to the conceptual framework’	January 1, 2022
Amendments to IAS 16, ‘Property, plant and equipment:proceeds before intended use’	January 1, 2022
Amendments to IAS 37, ‘Onerous contracts – cost of fulfilling a contract’	January 1, 2022
Annual improvements to IFRS Standards 2018–2020	January 1, 2022

The above standards and interpretations have no significant impact to the Group’s financial condition and financial performance based on the Group’s assessment.

(3) IFRSs issued by IASB but not yet endorsed by the FSC

New standards, interpretations and amendments issued by IASB but not yet included in the IFRSs as endorsed by the FSC are as follows:

New Standards, Interpretations and Amendments	Effective date by International Accounting Standards Board
Amendments to IFRS 10 and IAS 28, ‘Sale or contribution of assets between an investor and its associate or joint venture’	To be determined by International Accounting Standards Board
IFRS 17, ‘Insurance contracts’	January 1, 2023
Amendments to IFRS 17, 'Insurance contracts'	January 1, 2023
Amendment to IFRS 17, 'Initial application of IFRS 17 and IFRS 9 – comparative information'	January 1, 2023
Amendments to IAS 1, ‘Classification of liabilities as current or non-current’	January 1, 2023
Amendments to IAS 1, ‘Disclosure of accounting policies’	January 1, 2023
Amendments to IAS 8, ‘Definition of accounting estimates’	January 1, 2023
Amendments to IAS 12, ‘Deferred tax related to assets and liabilities arising from a single transaction’	January 1, 2023

The above standards and interpretations have no significant impact to the Group’s financial condition and financial performance based on the Group’s assessment.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The principal accounting policies applied in the preparation of these consolidated financial statements are set out below. These policies have been consistently applied to all the periods presented, unless otherwise stated.

(1) Compliance statement

The consolidated financial statements of the Group have been prepared in accordance with the "Regulations Governing the Preparation of Financial Reports by Securities Issuers" and the International Financial Reporting Standards, International Accounting Standards, IFRIC Interpretations, and SIC Interpretations as endorsed by the FSC (collectively referred herein as the "IFRSs").

(2) Basis of preparation

A. Except for the following items, the consolidated financial statements have been prepared under the historical cost convention:

(a) Financial assets and financial liabilities (including derivative instruments) at fair value through profit or loss.

(b) Financial assets at fair value through other comprehensive income.

(c) Defined benefit liabilities recognised based on the net amount of pension fund assets less present value of defined benefit obligation.

B. The preparation of financial statements in conformity with IFRSs requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Group's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the consolidated financial statements are disclosed in Note 5.

(3) Basis of consolidation

A. Basis for preparation of consolidated financial statements:

(a) All subsidiaries are included in the Group's consolidated financial statements. Subsidiaries are all entities (including structured entities) controlled by the Group. The Group controls an entity when the Group is exposed, or has rights, to variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. Consolidation of subsidiaries begins from the date the Group obtains control of the subsidiaries and ceases when the Group loses control of the subsidiaries.

(b) Inter-company transactions, balances and unrealised gains or losses on transactions between companies within the Group are eliminated. Accounting policies of subsidiaries have been adjusted where necessary to ensure consistency with the policies adopted by the Group.

(c) Profit or loss and each component of other comprehensive income are attributed to the owners of the parent and to the non-controlling interests. Total comprehensive income is attributed to the owners of the parent and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

(d) Changes in a parent's ownership interest in a subsidiary that do not result in the parent losing control of the subsidiary (transactions with non-controlling interests) are accounted for as equity transactions, i.e. transactions with owners in their capacity as owners. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognised directly in equity.

(e) When the Group loses control of a subsidiary, the Group remeasures any investment retained in the former subsidiary at its fair value. That fair value is regarded as the fair value on initial recognition of a financial asset or the cost on initial recognition of the associate or joint venture. Any difference between fair value and carrying amount is recognised in profit or loss. All amounts previously recognised in other comprehensive income in relation to the subsidiary are reclassified to profit or loss on the same basis as would be required if the related assets or liabilities were disposed of. That is, when the Group loses control of a subsidiary, all gains or losses previously recognised in other comprehensive income in relation to the subsidiary should be reclassified from equity to profit or loss, if such gains or losses would be reclassified to profit or loss when the related assets or liabilities are disposed of.

B. Subsidiaries included in the consolidated financial statements:

C. Subsidiaries not included in the consolidated financial statements: None.

D. Adjustments for subsidiaries with different balance sheet dates: None.

E. Significant restrictions: None.

F. Subsidiaries that have non-controlling interests that are material to the Group: None.

(4) Foreign currency translation

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates (the "functional currency"). The consolidated financial statements are presented in New Taiwan dollars, which is the Company's functional and the Group's presentation currency.

A. Foreign currency transactions and balances

(a) Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions or valuation where items are remeasured. Foreign exchange gains and losses resulting from the settlement of such transactions are recognised in profit or loss in the period in which they arise.

(b) Monetary assets and liabilities denominated in foreign currencies at the period end are re-translated at the exchange rates prevailing at the balance sheet date. Exchange differences arising upon re-translation at the balance sheet date are recognised in profit or loss.

(c) Non-monetary assets and liabilities denominated in foreign currencies held at fair value through profit or loss are re-translated at the exchange rates prevailing at the balance sheet date; their translation differences are recognised in profit or loss. Non-monetary assets and liabilities denominated in foreign currencies held at fair value through other comprehensive income are re-translated at the exchange rates prevailing at the balance sheet date; their translation differences are recognised in other comprehensive income. However, non-monetary assets and liabilities denominated in foreign currencies that are not measured at fair value are translated using the historical exchange rates at the dates of the initial transactions.

(d) All other foreign exchange gains and losses based on the nature of those transactions are presented in the statement of comprehensive income within other gains and losses.

B. Translation of foreign operations

(a) The operating results and financial position of all the group entities, associates and joint arrangements that have a functional currency different from the presentation currency are translated into the presentation currency as follows:

i. Assets and liabilities for each balance sheet presented are translated at the closing exchange rate at the date of that balance sheet;

ii. Income and expenses for each statement of comprehensive income are translated at average exchange rates of that period; and

iii. All resulting exchange differences are recognised in other comprehensive income.

(b) When the foreign operation partially disposed of or sold is a subsidiary, cumulative exchange differences that were recorded in other comprehensive income are proportionately transferred to the non-controlling interest in this foreign operation. In addition, even when the Group still retains partial interest in the former foreign subsidiary after losing control of the former foreign subsidiary, such transactions should be accounted for as disposal of all interest in the foreign operation.

(5) Classification of current and non-current items

A. Assets that meet one of the following criteria are classified as current assets; otherwise they are classified as non-current assets:

(a) Assets arising from operating activities that are expected to be realised, or are intended to be sold or consumed within the normal operating cycle;

(b) Assets held mainly for trading purposes;

(c) Assets that are expected to be realised within twelve months from the balance sheet date;

(d) Cash and cash equivalents, excluding restricted cash and cash equivalents and those that are to be exchanged or used to settle liabilities more than twelve months after the balance sheet date.

B. Liabilities that meet one of the following criteria are classified as current liabilities; otherwise they are classified as non-current liabilities:

(a) Liabilities that are expected to be settled within the normal operating cycle;

(b) Liabilities arising mainly from trading activities;

(c) Liabilities that are to be settled within twelve months from the balance sheet date;

(d) Liabilities for which the repayment date cannot be extended unconditionally to more than twelve months after the balance sheet date. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

(6) Cash equivalents

Cash equivalents refer to short-term, highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value. Time deposits that meet the definition above and are held for the purpose of meeting short-term cash commitments in operations are classified as cash equivalents.

(7) Financial assets at fair value through profit or loss

A. Financial assets at fair value through profit or loss are financial assets that are not measured at amortised cost or fair value through other comprehensive income.

B. On a regular way purchase or sale basis, financial assets at fair value through profit or loss are recognised and derecognised using settlement date accounting.

C. At initial recognition, the Group measures the financial assets at fair value and recognises the transaction costs in profit or loss. The Group subsequently measures the financial assets at fair value, and recognises the gain or loss in profit or loss.

D. The Group recognises the dividend income when the right to receive payment is established, future economic benefits associated with the dividend will flow to the Group and the amount of the dividend can be measured reliably.

(8) Financial assets at fair value through other comprehensive income

A. Financial assets at fair value through other comprehensive income comprise equity securities which are not held for trading, and for which the Group has made an irrevocable election at initial recognition to recognise changes in fair value in other comprehensive income.

B. On a regular way purchase or sale basis, financial assets at fair value through other comprehensive income are recognised and derecognised using settlement date accounting.

C. At initial recognition, the Group measures the financial assets at fair value plus transaction costs. The Group subsequently measures the financial assets at fair value:

The changes in fair value of equity investments that were recognised in other comprehensive income are reclassified to retained earnings and are not reclassified to profit or loss following the derecognition of the investment. Dividends are recognised as revenue when the right to receive payment is established, future economic benefits associated with the dividend will flow to the Group and the amount of the dividend can be measured reliably.

(9) Financial assets at amortised cost

The Group's time deposits which do not fall under cash equivalents are those with a short maturity period and are measured at initial investment amount as the effect of discounting is immaterial.

(10) Accounts and notes receivable

A. Accounts and notes receivable entitle the Group a legal right to receive consideration in exchange for transferred goods or rendered services.

B. The short-term accounts and notes receivable without bearing interest are subsequently measured at initial invoice amount as the effect of discounting is immaterial.

(11) Impairment of financial assets

For financial assets at amortised cost, at each reporting date, the Group recognises the impairment provision for 12 months expected credit losses if there has not been a significant increase in credit risk since initial recognition or recognises the impairment provision for the lifetime expected credit losses (ECLs) if such credit risk has increased since initial recognition after taking into consideration all reasonable and verifiable information that includes forecasts. On the other hand, for accounts receivable that do not contain a significant financing component, the Group recognises the impairment provision for lifetime ECLs.

(12) Derecognition of financial assets

The Group derecognises a financial asset when one of the following conditions is met:

A. The contractual rights to receive the cash flows from the financial asset expire.

B. The contractual rights to receive cash flows of the financial asset have been transferred and the Group has transferred substantially all risks and rewards of ownership of the financial asset.

C. The contractual rights to receive cash flows of the financial asset have been transferred; however, the Group has not retained control of the financial asset.

(13) Operating leases (lessor)

Lease income from an operating lease (net of any incentives given to the lessee) is recognised in profit or loss on a straight-line basis over the lease term.

(14) Inventories

Inventories are stated at the lower of cost and net realisable value. Cost is determined using the weighted-average method. The cost of finished goods and work in process comprises raw materials, direct labour, other direct costs and related production overheads (allocated based on normal operating capacity). It excludes borrowing costs. The item by item approach is used in applying the lower of cost and net realisable value. Net realisable value is the estimated selling price in the ordinary course of business, less the estimated cost of completion and applicable variable selling expenses.

(15) Property, plant and equipment

A. Property, plant and equipment are initially recorded at cost. Borrowing costs incurred during the construction period are capitalised.

B. Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognised. All other repairs and maintenance are charged to profit or loss during the financial period in which they are incurred.

C. Land is not depreciated. Other property, plant and equipment apply cost model and are depreciated using the straight-line method to allocate their cost over their estimated useful lives. Each part of an item of property, plant, and equipment with a cost that is significant in relation to the total cost of the item must be depreciated separately.

D. The assets' residual values, useful lives and depreciation methods are reviewed, and adjusted if appropriate, at each financial year-end. If expectations for the assets' residual values and useful lives differ from previous estimates or the patterns of consumption of the assets' future economic benefits embodied in the assets have changed significantly, any change is accounted for as a change in estimate under IAS 8, 'Accounting Policies, Changes in Accounting Estimates and Errors', from the date of the change. The estimated useful lives of property, plant and equipment are as follows:

Buildings	2 ~ 50 years
Machinery equipment	2 ~ 15 years
Transportation equipment	2 ~ 15 years
Office equipment	3 ~ 10 years
Other equipment	2 ~ 10 years

(16) Leasing arrangements (lessee) - right-of-use assets / lease liabilities

A. Leases are recognised as a right-of-use asset and a corresponding lease liability at the date at which the leased asset is available for use by the Group. For short-term leases or leases of low-value assets, lease payments are recognised as an expense on a straight-line basis over the lease term.

B. Lease liabilities include the net present value of the remaining lease payments at the commencement date, discounted using the incremental borrowing interest rate. Lease payments are comprised of fixed payments, less any lease incentives receivable.

The Group subsequently measures the lease liability at amortised cost using the interest method and recognises interest expense over the lease term. The lease liability is remeasured and the amount of remeasurement is recognised as an adjustment to the right-of-use asset when there are changes in the lease term or lease payments and such changes do not arise from contract modifications.

C. At the commencement date, the right-of-use asset is stated at cost comprising the following:

(a) The amount of the initial measurement of lease liability; and

(b) Any lease payments made at or before the commencement date.

The right-of-use asset is measured subsequently using the cost model and is depreciated from the commencement date to the earlier of the end of the asset's useful life or the end of the lease term. When the lease liability is remeasured, the amount of remeasurement is recognised as an adjustment to the right-of-use asset.

(17) Intangible assets

Computer software is stated at cost and amortized using the straight-line method over its estimated economic service life.

(18) Impairment of non-financial assets

The Group assesses at each balance sheet date the recoverable amounts of those assets where there is an indication that they are impaired. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell or value in use. When the circumstances or reasons for recognizing impairment loss for an asset in prior years no longer exist or diminish, the impairment loss is reversed. The increased carrying amount due to reversal should not be more than what the depreciated or amortised historical cost would have been if the impairment had not been recognised.

(19) Borrowings

Borrowings comprise long-term and short-term bank borrowings. Borrowings are recognised initially at fair value, net of transaction costs incurred. Borrowings are subsequently stated at amortised cost; any difference between the proceeds (net of transaction costs) and the redemption value is recognised in profit or loss over the period of the borrowings using the effective interest method.

(20) Notes and accounts payable

A. Accounts payable are liabilities for purchases of raw materials, goods or services and notes payable are those resulting from operating and non-operating activities.

B. The short-term notes and accounts payable without bearing interest are subsequently measured at initial invoice amount as the effect of discounting is immaterial.

(21) Financial liabilities at fair value through profit or loss

A. Financial liabilities are classified in this category of held for trading if acquired principally for the purpose of repurchasing in the short-term. Derivatives are also categorised as financial liabilities held for trading unless they are designated as hedges or financial liabilities at fair value through profit or loss. Financial liabilities that meet one of the following criteria are designated as at fair value through profit or loss at initial recognition:

(a) Hybrid (combined) contracts; or

(b) They eliminate or significantly reduce a measurement or recognition inconsistency; or

(c) They are managed and their performance is evaluated on a fair value basis, in accordance with a documented risk management policy.

B. At initial recognition, the Group measures the financial liabilities at fair value. All related transaction costs are recognised in profit or loss. The Group subsequently measures these financial liabilities at fair value with any gain or loss recognised in profit or loss.

(22) Derecognition of financial liabilities

A financial liability is derecognised when the obligation under the liability specified in the contract is discharged or cancelled or expires.

(23) Offsetting financial instruments

Financial assets and liabilities are offset and reported in the net amount in the balance sheet when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously.

(24) Financial liabilities and equity instruments

Bonds payable

Convertible corporate bonds issued by the Group contain conversion options (that is, the bondholders have the right to convert the bonds into the Group's common shares by exchanging a fixed amount of cash for a fixed number of common shares), call options and put options. The Group classifies the bonds payable and derivative features embedded in convertible corporate bonds on initial recognition as a financial asset, a financial liability or an equity instrument ('capital surplus-stock warrants') in accordance with the substance of the contractual arrangement and the definitions of a financial asset, a financial liability and an equity instrument. Convertible corporate bonds are accounted for as follows:

A. Call options and put options embedded in convertible corporate bonds are recognised initially at net fair value as 'financial assets or financial liabilities at fair value through profit or loss'. They are subsequently remeasured and stated at fair value on each balance sheet date; the gain or loss is recognised as 'gain or loss on valuation of financial assets or financial liabilities at fair value through profit or loss'.

B. Bonds payable of convertible corporate bonds is initially recognised at fair value and subsequently stated at amortised cost. Any difference between the proceeds and the redemption value is accounted for as the premium or discount on bonds payable and presented as an addition to or deduction from bonds payable, which is amortised in profit or loss as an adjustment to the 'finance costs' over the period of bond circulation using the effective interest method.

C. Conversion options embedded in convertible corporate bonds issued by the Group, which meet the definition of an equity instrument, are initially recognised in 'capital surplus-stock warrants' at the residual amount of total issue price less amounts of 'financial assets or financial liabilities at fair value through profit or loss' and 'bonds payable-net' as stated above. Conversion options are not subsequently remeasured.

D. Any transaction costs directly attributable to the issuance of convertible corporate bonds are allocated to the liability and equity components in proportion to the allocation of proceeds.

E. When bondholders exercise conversion options, the liability component of the bonds (including 'bonds payable' and 'financial assets or financial liabilities at fair value through profit or loss') shall be remeasured on the conversion date. The book value of common shares issued due to the conversion shall be based on the adjusted book value of the abovementioned liability component plus the book value of capital surplus - stock warrants.

(25) Non-hedging derivatives

Non-hedging derivatives are initially recognised at fair value on the date a derivative contract is entered into and recorded as financial assets or financial liabilities at fair value through profit or loss. They are subsequently remeasured at fair value and the gains or losses are recognised in profit or loss.

(26) Employee benefits

A. Short-term employee benefits

Short-term employee benefits are measured at the undiscounted amount of the benefits expected to be paid in respect of service rendered by employees in a period and should be recognised as expense in that period when the employees render service.

B. Pensions

(a) Defined contribution plans

For defined contribution plans, the contributions are recognised as pension expense when they are due on an accrual basis. Prepaid contributions are recognised as an asset to the extent of a cash refund or a reduction in the future payments.

(b) Defined benefit plans

i. Net obligation under a defined benefit plan is defined as the present value of an amount of pension benefits that employees will receive on retirement for their services with the Group in current period or prior periods. The liability recognised in the balance sheet in respect of defined benefit pension plans is the present value of the defined benefit obligation at the balance sheet date less the fair value of plan assets. The net defined benefit obligation is calculated annually by independent actuaries using the projected unit credit method. The rate used to discount is determined by using interest rates of high-quality corporate bonds that are denominated in the currency in which the benefits will be paid, and that have terms to maturity approximating to the terms of the related pension liability; when there is no deep market in high-quality corporate bonds, the Group uses interest rates of government bonds (at the balance sheet date) instead.

ii. Remeasurements arising on defined benefit plans are recognised in other comprehensive income in the period in which they arise and are recorded as retained earnings.

C. Employees' and directors' remuneration

Employees' remuneration and directors' remuneration are recognised as expense and liability, provided that such recognition is required under legal or constructive obligation and those amounts can be reliably estimated. Any difference between the resolved amounts and the subsequently actual distributed amounts is accounted for as changes in estimates. If employee compensation is paid by shares, the Group calculates the number of shares based on the closing price at the previous day of the board meeting resolution.

(27) Employee share-based payment

A. For the equity-settled share-based payment arrangements, the employee services received are measured at the fair value of the equity instruments granted at the grant date, and are recognised as compensation cost over the vesting period, with a corresponding adjustment to equity. The fair value of the equity instruments granted shall reflect the impact of market vesting conditions and non-market vesting conditions. Compensation cost is subject to adjustment based on the service conditions that are expected to be satisfied and the estimates of the number of equity instruments that are expected to vest under the non-market vesting conditions at each balance sheet date. Ultimately, the amount of compensation cost recognised is based on the number of equity instruments that eventually vest.

B. Employee restricted shares:

(a) Restricted stocks issued to employees are measured at the fair value of the equity instruments granted at the grant date, and are recognised as compensation cost over the vesting period.

(b) The issued employee restricted shares before meeting the vesting conditions are not entitled to appropriation of earnings (including but not limited to dividend, bonus and the distribution rights of capital surplus) and share options of cash capital increase.

(c) For restricted stocks where employees do not need to pay to acquire those stocks. If employees resign during the vesting period, the Company will redeem without consideration and retire those stocks.

(28) Income tax

A. The tax expense for the period comprises current and deferred tax. Tax is recognised in profit or loss, except to the extent that it relates to items recognised in other comprehensive income or items recognised directly in equity, in which cases the tax is recognised in other comprehensive income or equity.

B. The current income tax expense is calculated on the basis of the tax laws enacted or substantively enacted at the balance sheet date in the countries where the Company and its subsidiaries operate and generate taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in accordance with applicable tax regulations. It establishes provisions where appropriate based on the amounts expected to be paid to the tax authorities. An additional tax is levied on the unappropriated retained earnings and is recorded as income tax expense in the year the stockholders resolve to retain the earnings.

C. Deferred tax is recognised, using the balance sheet liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated balance sheet. However, the deferred tax is not accounted for if it arises from initial recognition of goodwill or of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit or loss. Deferred tax is provided on temporary differences arising on investments in subsidiaries, except where the timing of the reversal of the temporary difference is controlled by the Group and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the balance sheet date and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

D. Deferred income tax assets are recognised only to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilised. At each balance sheet date, unrecognised and recognised deferred tax assets are reassessed.

E. Current income tax assets and liabilities are offset and the net amount reported in the balance sheet when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. Deferred tax assets and liabilities are offset on the balance sheet when the entity has the legally enforceable right to offset current tax assets against current tax liabilities and they are levied by the same taxation authority on either the same entity or different entities that intend to settle on a net basis or realise the asset and settle the liability simultaneously.

F. A deferred tax asset shall be recognised for the carryforward of unused tax credits resulting from acquisitions of equipment or technology, research and development expenditures and equity investments to the extent that it is possible that future taxable profit will be available against which the unused tax credits can be utilised.

(29) Share capital

A. Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares or stock options are shown in equity as a deduction, net of tax, from the proceeds.

B. Where the Company repurchases the Company's equity share capital that has been issued, the consideration paid, including any directly attributable incremental costs (net of income taxes) is deducted from equity attributable to the Company's equity holders. Where such shares are subsequently reissued, the difference between their book value and any consideration received, net of any directly attributable incremental transaction costs and the related income tax effects, is included in equity attributable to the Company's equity holders.

(30) Dividends

Dividends are recorded as liabilities in the Company's financial statements in the period in which they are resolved by the Board of Directors. Stock dividends are recorded as stock dividends to be distributed when they are approved by the Company's shareholders, and are reclassified to ordinary shares on the effective date of new shares issuance.

(31) Revenue recognition

A. The Group manufactures and sells flexible printed circuit board products. Sales are recognised when control of the products has transferred, being when the products are delivered to the customer, the customer has full discretion over the channel and price to sell the products, and there is no unfulfilled obligation that could affect the wholesaler's acceptance of the products. Delivery occurs when the products have been shipped to the specific location, the risks of obsolescence and loss have been transferred to the customer, and either the customer has accepted the products in accordance with the sales contract, or the Group has objective evidence that all criteria for acceptance have been satisfied.

B. Revenue from these sales is recognised based on the price specified in the contract, net of the estimated volume discounts and sales discounts and allowances.

C. A receivable is recognised when the goods are delivered as this is the point in time that the consideration is unconditional because only the passage of time is required before the payment is due.

(32) Government grants

Government grants are recognised at their fair value only when there is reasonable assurance that the Group will comply with any conditions attached to the grants and the grants will be received. Government grants are recognised in profit or loss on a systematic basis over the periods in which the Group recognises expenses for the related costs for which the grants are intended to compensate.

(33) Operating segments

Operating segments are reported in a manner consistent with the internal reporting provided to the Chief Operating Decision-Maker. The Group's Chief Operating Decision-Maker is responsible for allocating resources and assessing performance of the operating segments.

5. CRITICAL ACCOUNTING JUDGEMENTS, ESTIMATES AND KEY SOURCES OF ASSUMPTION UNCERTAINTY

The preparation of these consolidated financial statements requires management to make critical judgements in applying the Group's accounting policies and make critical assumptions and estimates concerning future events. Assumptions and estimates may differ from the actual results and are continually evaluated and adjusted based on historical experience and other factors. Such assumptions and estimates have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year. The above information is addressed below:

(1) Critical judgements in applying the Group's accounting policies

None.

(2) Critical accounting estimates and assumptions

A. Expected credit losses for accounts receivable

The Group shall measure the loss allowance at an amount equal to lifetime expected credit losses for accounts receivable. When assessing expected credit losses, the Group must use judgements to determine the influence factors for the collectibility of accounts receivable such as customers' operation conditions and historical transaction records which may influence the payment abilities of customers also consider the time value of money and future economic conditions to estimate reasonable and supporting information. The aforementioned judgements and considerations may all have significant impacts on the measurement outcome of expected credit losses.

B. Evaluation of inventories

As inventories are stated at the lower of cost and net realisable value, the Group must determine the net realisable value of inventories on balance sheet date using judgements and estimates. Due to the rapid technology innovation, the Group evaluates the amounts of normal inventory consumption, obsolete inventories or inventories without market selling value on balance sheet date, and writes down the cost of inventories to the net realisable value. Such an evaluation of inventories is principally based on the demand for the products within the specified period in the future. Therefore, there might be material changes to the evaluation.

Less: current portion		
(Shown as long-term liabilities, current portion)	-	(14,886)
	$ 3,316,072	$ -

A. The terms of the Third overseas unsecured convertible bonds issued by the Company are as follows:

(a) On January 22, 2019, the Company issued 0% coupon, 3-year unsecured convertible bonds in the amount of US$100 million. Except for the Company's bonds that were redeemed, repurchased and retired or had their conversion rights exercised by the bondholders (the "bondholders"), the bonds are repayable in full by cash at face value at maturity. Redemption price at maturity would be translated into NTD at the fixed exchange rate of 30.838, then translate the NTD into USD using the currency rate on that day for repayment. The bonds were traded in the Singapore Exchange Limited since January 22, 2019.

(b) Except for the bond redeemed early, repurchased and retired, bonds that were converted by their bondholders and the mandatory stop transfer period regulated by law and agreed in the bond indenture separately, the bondholders have the right to ask for conversion of the bonds into common shares of the Company in accordance with the relevant regulation and the bond indenture during the period from the date after 90 days of the bonds issue to 10 days before the maturity date, or on the day that the bondholders exercise the put option, or the fifth business day before the issue company exercise the early redemption.

As at December 31, 2021, the bonds with face value in the amount of US$ 100,000 thousand had been converted into 39,725 thousand shares of common stocks (shown as 'Share capital-common stock' of $397,252 and 'capital surplus, additional paid-in capital arising from bond conversion' of $2,767,823).

(c) The conversion price is set up according to the terms of the bonds and is subject to adjustments when the anti-dilution provisions occur. The conversion price was set at NT$83.95 (in dollars) per share on issuance. If the conversion price reset according to the terms is higher than the original conversion price of current year, then the conversion price will not be adjusted. At the time of conversion, the principal of the bond is multiplied by the fixed exchange rate of 30.838 agreed on the pricing date as the numerator, and the conversion price at the time of conversion is used as the denominator to calculate the number of shares convertible into common stocks. As at December 31, 2021, the conversion price was adjusted to NT$75.88 (in dollars) per share.

(d) The rules of put options are as follows:

i. The bondholders have no right to ask for whole or partial redemption of the bonds, except the following:

(i) Except for the bond redeemed early, repurchased and retired, bonds that were converted by their bondholders, the bondholders have right to ask for whole or partial redemption of the bonds with an added interest rate of 0.425% per annum (compounded semi-annually) on the face value as the premium which is equivalent to 100.8527% of the face value (the "early redemption price for the bondholders"), after two years from the issue date.

(ii) If the Company's common shares are unlisted from the Taiwan Stock Exchange or ceased trading over 30 consecutive business days, the bondholders have right to ask for only whole redemption of the bonds with an added interest rate of 0.425% per annum on the face value as the premium (the "early redemption amount").

(iii) If any changes occurs to the Company's controlling power as defined in the bond indenture (the "bond indenture"), the bondholders have right to ask for only whole redemption of the bonds.

ii. The exercise of the aforementioned put options by the bondholders and the acceptance of the bondholders' requests by the Company shall in accordance with the procedures of the bond indenture. The early redemption price for the bondholders and the early redemption amount of bonds shall be paid on the payment date defined in the bond indenture by cash.

iii. The early redemption price for the bondholders and the early redemption amount of bonds shall be translated into NTD at the fixed exchange rate of 30.838, then translate the NTD into USD using the currency rate on that day for repayment.

(e) The rules of redemption are as follows:

i. For the period starting 2 years from the issue date until the maturity date, if the closing price (If the ex-right or the ex-dividend incurred, the adoption of the closing price shall be imputed to the price before ex-right and ex-dividend during the transaction date of the ex-right or the ex-dividend to the effective date of the ex-rights) of the issuing company's common shares converted to USD using the currency exchange rate of the day on the Taiwan Stock Exchange reaches 130% of the total amount of the early redemption price multiply conversion price on that day (using the fixed currency exchange rate on the price settlement date to convert to USD) divided by the face value for 30 consecutive business days, the issuing company has the right to redeem all or part of bonds at the early redemption price.

ii. If over 90% of the outstanding bonds' is redeemed, converted repurchased or retired, the Company can redeem all the bonds that are still outstanding at the early redemption price.

iii. If changes to the R.O.C.'s tax regulations occur after the issue date and cause the Company to bear more tax or to pay extra interest expenses or increase in costs for the bonds, the Company can redeem all the bonds at the early redemption price in accordance with the bond indenture. And the bondholders have no right to ask the issuing company covers the extra tax and expense for their nonparticipation of the redemption.

iv. The early redemption amount of bonds shall all be translated into NTD at the fixed exchange rate of 30.838, then translate the NTD into USD using the currency rate on that day for repayment.

(f) Under the terms of the bonds, all bonds redeemed (including from secondary market), matured and converted will be retired and not to be reissued.

(g) Regarding the issuance of convertible bonds, the equity conversion options amounting to $246,517 were separated from the liability component and were recognised in 'capital surplus - share options' in accordance with IAS 32. As of December 31, 2021, the balance of "Capital reserve from stock options" after adjusting the amount converted into common stock is $0. The non-equity redeem options, put options embedded in bonds payable were separated from their host contracts and were recognised in 'financial assets or liabilities at fair value through profit or loss' in net amount in accordance with IAS 9 because the economic characteristics and risks of the embedded derivatives were not closely related to those of the host contracts. The annual effective interest rate of the bonds payable after separation is 3.335%.

B. The terms of the Fourth overseas unsecured convertible bonds issued by the Company are as follows:

(a) On January 25, 2021, the Company issued 0% coupon, 3-year unsecured convertible bonds in the amount of US$120 million. Except for the Company's bonds that were redeemed, repurchased and retired or had their conversion rights exercised by the bondholders (the "bondholders"), the bonds are repayable in full by cash at face value at maturity. Redemption price at maturity would be translated into NTD at the fixed exchange rate of 27.995, then translate the NTD into USD using the currency rate on that day for repayment. The bonds were traded in the Singapore Exchange Limited since January 25, 2021.

(b) Except for the bond redeemed early, repurchased and retired, bonds that were converted by their bondholders and the mandatory stop transfer period regulated by law and agreed in the bond indenture separately, the bondholders have the right to ask for conversion of the bonds into common shares of the Company in accordance with the relevant regulation and the bond indenture during the period from the date after 90 days of the bonds issue to 10 days before the maturity date, or on the day that the bondholders exercise the put option, or the fifth business day before the issue company exercise the early redemption. As of December 31, 2021, no bonds have been converted or redeemed.

(c) The conversion price is set up according to the terms of the bonds and is subject to adjustments when the anti-dilution provisions occur. The conversion price was set at NT$136.00 (in dollars) per share on issuance. If the conversion price reset according to the terms is higher than the original conversion price of current year, then the conversion price will not be adjusted. At the time of conversion, the principal of the bond is multiplied by the fixed exchange rate of 27.995 agreed on the pricing date as the numerator, and the conversion price at the time of conversion is used as the denominator to calculate the number of shares convertible into common stocks. As at December 31, 2021, the conversion price was adjusted to NT$130.05 (in dollars) per share.

(d) The rules of put options are as follows:

i. The bondholders have no right to ask for whole or partial redemption of the bonds, except the following:

(i) Except for the bond redeemed early, repurchased and retired, bonds that were converted by their bondholders, the bondholders have the right to ask for whole or partial redemption of the bonds with an added interest rate of 0% per annum on the face value as the premium after two years from the issue date.

(ii) If the Company's common shares are unlisted from the Taiwan Stock Exchange or ceased trading over 30 consecutive business days, the bondholders have the right to ask for only whole redemption of the bonds with an added interest rate of 0% per annum on the face value as the premium (the "early redemption amount").

(iii) If any changes occurs to the Company's controlling power as defined in the bond indenture (the "bond indenture"), the bondholders have right to ask for only whole redemption of the bonds.

ii. The exercise of the aforementioned put options by the bondholders and the acceptance of the bondholders' requests by the Company shall in accordance with the procedures of the bond indenture. The early redemption price for the bondholders and the early redemption amount of bonds shall be paid on the payment date defined in the bond indenture by cash.

iii. The early redemption price for the bondholders and the early redemption amount of bonds shall be translated into NTD at the fixed exchange rate of 27.995, then translate the NTD into USD using the currency rate on that day for repayment.

(e) The rules of redemption are as follows:

i. For the period starting 2 years from the issue date until the maturity date, if the closing price (If the ex-right or the ex-dividend incurred, the adoption of the closing price shall be imputed to the price before ex-right and ex-dividend during the transaction date of the ex-right or the ex-dividend to the effective date of the ex-rights) of the issuing company's common shares converted to USD using the currency exchange rate of the day on the Taiwan Stock Exchange reaches 130% of the total amount of the early redemption price multiply conversion price on that day (using the fixed currency exchange rate on the price settlement date to convert to USD) divided by the face value for 30 consecutive business days, the issuing company has the right to redeem all or part of bonds at the early redemption price.

ii. If over 90% of the outstanding bonds' is redeemed, converted repurchased or retired, the Company can redeem all the bonds that are still outstanding at the early redemption price.

iii. If changes to the R.O.C.'s tax regulations occur after the issue date and cause the Company to bear more tax or to pay extra interest expenses or increase in costs for the bonds, the Company can redeem all the bonds at the early redemption price in accordance with the bond indenture. And the bondholders have no right to ask the issuing company covers the extra tax and expense for their nonparticipation of the redemption.

iv. The early redemption amount of bonds shall all be translated into NTD at the fixed exchange rate of 27.995, then translate the NTD into USD using the currency rate on that day for repayment.

(f) Under the terms of the bonds, all bonds redeemed (including from secondary market), matured and converted will be retired and not to be reissued.

(g) Regarding the issuance of convertible bonds, the equity conversion options amounting to $112,250 were separated from the liability component and were recognised in 'capital surplus - share options' in accordance with IAS 32. The non-equity redeem options, put options embedded in bonds payable were separated from their host contracts and were recognised in 'financial assets or liabilities at fair value through profit or loss' in net amount in accordance with IAS 9 because the economic characteristics and risks of the embedded derivatives were not closely related to those of the host contracts. The annual effective interest rate of the bonds payable after separation is 0.6748%.

(14) Pensions

A. Defined benefit plans

(a) The Company and its domestic subsidiaries have a defined benefit pension plan in accordance with the Labor Standards Law, covering all regular employees' service years prior to the enforcement of the Labor Pension Act on July 1, 2005 and service years thereafter of employees who chose to continue to be subject to the pension mechanism under the Law. Under the defined benefit pension plan, two units are accrued for each year of service for the first 15 years and one unit for each additional year thereafter, subject to a maximum of 45 units. Pension benefits are based on the number of units accrued and the average monthly salaries and wages of the last 6 months prior to retirement. The Company contributes monthly an amount equal to 2% of the employees' monthly salaries and wages to the retirement fund deposited with Bank of Taiwan, the trustee, under the name of the independent retirement fund committee. Also, the Company would assess the balance in the aforementioned labor pension reserve account by the end of December 31, every year. If the account balance is insufficient to pay the pension calculated by the aforementioned method, to the employees expected to be qualified for retirement next year, the Company will make contributions to cover the deficit by next March.

(b) The amounts recognised in the balance sheet are as follows:

	December 31, 2021	December 31, 2020
Present value of defined benefit obligations	$ 70,635	$ 65,257
Fair value of plan assets	(47,059)	(44,578)
Net defined benefit liability (shown as 'Other non-current liabilities')	$ 23,576	$ 20,679

(c) Changes in present value of defined benefit obligations are as follows:

	Present value of defined benefit obligations	Fair value of plan assets	Net defined benefit liability
For the year ended December 31, 2021			
Balance at January 1	($ 65,257)	$ 44,578	($ 20,679)

Pension fund contribution	-	1,635	1,635
Balance at December 31	($ 65,257)	$ 44,578	($ 20,679)

(d) The Bank of Taiwan was commissioned to manage the Fund of the Company’s and domestic subsidiaries’ defined benefit pension plan in accordance with the Fund’s annual investment and utilisation plan and the “Regulations for Revenues, Expenditures, Safeguard and Utilisation of the Labor Retirement Fund” (Article 6: The scope of utilisation for the Fund includes deposit in domestic or foreign financial institutions, investment in domestic or foreign listed, over-the-counter, or private placement equity securities, investment in domestic or foreign real estate securitization products, etc.). With regard to the utilisation of the Fund, its minimum earnings in the annual distributions on the final financial statements shall be no less than the earnings attainable from the amounts accrued from two-year time deposits with the interest rates offered by local banks. If the earnings is less than aforementioned rates, government shall make payment for the deficit after being authorized by the Regulator. The Company has no right to participate in managing and operating that fund and hence the Company is unable to disclose the classification of plan asset fair value in accordance with IAS 19 paragraph 142. The composition of fair value of plan assets as of December 31, 2021 and 2020 is given in the Annual Labor Retirement Fund Utilisation Report announced by the government.

(e) The principal actuarial assumptions used were as follows:

	December 31, 2021	December 31, 2020
Discount rate	0.65%	1.05%
Future salary increases	3.00%	3.00%

Assumptions regarding future mortality experience are set based on actuarial advice in accordance with published statistics and experience in each territory.

Because the main actuarial assumption changed, the present value of defined benefit obligation is affected. The analysis was as follows:

	Discount rate		Future salary increases	
	Increase 0.25%	Decrease 0.25%	Increase 1%	Decrease 1%
December 31, 2021				
Effect on present value of defined benefit obligation	($ 2,505)	$ 2,625	$ 11,013	($ 9,354)
December 31, 2020				
Effect on present value of defined benefit obligation	($ 2,533)	$ 2,660	$ 11,244	($ 9,444)

The sensitivity analysis above is based on other conditions that are unchanged but only one assumption is changed. In practice, more than one assumption may change all at once. The method of analysing sensitivity and the method of calculating net pension liability in the balance sheet are the same.

The method and assumptions used for the preparation of sensitivity analysis during 2021 and 2020 are the same.

(f)Expected contributions to the defined benefit pension plans of the Group for the year ending December 31, 2022 amount to $1,694.

(g)As of December 31, 2021, the weighted average duration of that retirement plan is 16.1 years.

B. Defined contribution plan

(a)Effective July 1, 2005, the Company and its domestic subsidiaries have established a defined contribution pension plan (the "New Plan") under the Labor Pension Act (the "Act"), covering all regular employees with R.O.C. nationality. Under the New Plan, Taiwan-based companies of the Group contribute monthly an amount based on 6% of the employees' monthly salaries and wages to the employees' individual pension accounts at the Bureau of Labor Insurance. The benefits accrued are paid monthly or in lump sum upon termination of employment.

(b)The Company's mainland China subsidiaries, have a defined contribution plan. Monthly contributions to an independent fund administered by the government in accordance with the pension regulations in the People's Republic of China (PRC) are based on a certain percentage of employees' monthly salaries and wages.

C. For details of capital reserve from stock options, please refer to Note 6(12).

(18) Retained earnings

A. Under the Company's Articles of Incorporation, the current year's earnings, if any, shall first be used to pay all taxes and offset prior years' operating losses and then 10% of the remaining amount shall be set aside as legal reserve until the legal reserve equals the total capital stock balance, and setting aside or reversal for special reserve in accordance with related laws or Competent Authority's rule, if any, the Board of Directors should present the distribution of the remaining earnings along with undistributed earnings at beginning of periods for the approval of the shareholders based on the capital condition and economic development.

In accordance with Article 240, Item 5 of the Company Law and Article 241 of the Company Law, the Company authorizes the Board of Directors to have more than two-thirds of directors present and resolutions of more than half of the directors present to distribute dividends or legal reserve and capital surplus are distributed in cash and reported to the shareholders meeting.

B. The Company's dividend policy is in line with the development plan and capital requirement for expanding production line in the near future as the Company is currently in the growth phase. Therefore, the Board of Directors proposed the appropriation of unappropriated retained earnings at the shareholders' meeting for approval. Cash dividend shall be more than 5% of total dividends, but will not be distributed if it is lower than $0.1 per share, which will instead be distributed in the form of stocks.

C. Except for covering accumulated deficit or issuing new stocks or cash to shareholders in proportion to their share ownership, the legal reserve shall not be used for any other purpose. The use of legal reserve for the issuance of stocks or cash to shareholders in proportion to their share ownership is permitted, provided that the distribution of the reserve is limited to the 25% of the Company's paid-in capital.

D. (a) In accordance with the regulations, the Company shall set aside special reserve from the debit balance on other equity items at the balance sheet date before distributing earnings. When debit balance on other equity items is reversed subsequently, the reversed amount could be included in the distributable earnings.

(b) The amounts previously set aside by the Company as special reserve on initial application of IFRSs in accordance with Jin-Guan-Zheng-Fa-Zi Letter No. 1010012865, dated April 6, 2012, shall be reversed proportionately when the relevant assets are used, disposed of or reclassified subsequently. Such amounts are reversed upon disposal or reclassified if the assets are investment property of land, and reversed over the use period if the assets are investment property other than land.

E. The Company resolved that total dividends for the distribution of earnings for 2020 was $504,625 ($1.5 (in dollars) per share). The appropriation of 2020 earnings had been resolved after meeting the statutory voting threshold on June 14, 2021 via the electronic voting platform for shareholders' meeting. All distributable earnings have been retained and not distributed as dividends. The above mentioned relevant shareholders' meeting resolutions and distribution please refer to "Market Observation Post System" at the website of the Taiwan Stock Exchange.

A. According to the Articles of Incorporation of the Company, a ratio of distributable profit of the current year, if any, shall not be less than 1% for employees' compensation, and shall be less than 2% for directors' remuneration. However, if the Company has accumulated deficit, the earnings shall first be reserved to offset the deficit.

B. For the years ended December 31, 2021 and 2020, employees' compensation was accrued both at $83,000; while directors' remuneration were both $20,000. The aforementioned amounts were recognised in salary expenses.

For the year ended December 31, 2021, the employees' compensation and directors' remuneration were estimated and accrued based on a certain ratio of distributable profit of current year as of the end of reporting period. The amounts resolved by the Board of Directors were in agreement with the accrued amounts. Employees' compensation will be distributed in the form of cash.

Employees' compensation and directors' remuneration of 2020 as resolved by the Board of Directors were in agreement with those amounts recognised in the 2020 financial statements.

Information about employees' compensation and directors' remuneration of the Company resolved by the Board of Directors will be posted in the "Market Observation Post System" at the website of the Taiwan Stock Exchange.

The Company expects to repurchase 15 million shares at the price range between NT$86 (in dollars) per share and NT$117 (in dollars) per share during the period from February 10, 2022 to April 8, 2022.

12. OTHERS

(1) Capital management

The Group's objectives when managing capital are to safeguard the Group's ability to continue as a going concern in order to provide returns for shareholders and to maintain an optimal capital structure to reduce the cost of capital. In order to maintain or adjust the capital structure, the Group may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares or sell assets to reduce debt. The Group monitors capital on the basis of the gearing ratio. This ratio is calculated as net debt divided by total capital. Total debt is calculated as 'current and non-current liabilities' as shown in the consolidated balance sheet.

During 2021, the Group's strategy, which was unchanged from 2020, was to maintain the balance of the capital structure. The gearing ratio at December 31, 2021 and 2020 were as follows:

	December 31, 2021	December 31, 2020
Total liabilities	$ 22,630,609	$ 17,209,884

B. Financial risk management policies

(a) The Group's activities expose it to a variety of financial risks: market risk (including foreign exchange risk, interest rate risk and price risk), credit risk and liquidity risk. To minimise any adverse effects on the financial performance of the Group, derivative financial instruments, such as foreign exchange forward contracts are used to hedge certain exchange rate risk. Derivatives are used exclusively for hedging purposes and not as trading or speculative instruments.

(b) Risk management is carried out by a central treasury department (Group treasury) under policies approved by the Board of Directors. Group treasury identifies, evaluates and hedges financial risks in close cooperation with the Group's operating units. The Board provides written principles for overall risk management, as well as written policies covering specific areas and matters, such as foreign exchange risk, interest rate risk, credit risk, use of derivative financial instruments and non-derivative financial instruments, and investment of excess liquidity.

C. Significant financial risks and degrees of financial risks

(a) Market risk

Foreign exchange risk

i. The Group operates internationally and is exposed to exchange rate risk arising from the transactions of the Company and its subsidiaries used in various functional currency, primarily with respect to the USD and RMB. Exchange rate risk arises from future commercial transactions and recognised assets and liabilities.

ii. Management has set up a policy to require group companies to manage their foreign exchange risk against their functional currency. The companies are required to hedge their entire foreign exchange risk exposure with the Group treasury. Exchange rate risk is measured through a forecast of highly probable USD and RMB expenditures. Forward foreign exchange contracts are adopted to minimise the volatility of the exchange rate affecting cost of forecast inventory purchases.

iii. The Group hedges foreign exchange rate by using forward exchange contracts. However, the Group does not adopt hedging accounting. Details of financial assets or liabilities at fair value through profit or loss are provided in Note 6(2).

iv. The Group's businesses involve some non-functional currency operations (the Company's and certain subsidiaries' functional currency: NTD; other certain subsidiaries' functional currency: USD and RMB). The information on assets and liabilities denominated in foreign currencies whose values would be materially affected by the exchange rate fluctuations is as follows:

	December 31, 2021					
	Foreign currency			Sensitivity analysis		
	amount (In thousands)	Exchange rate	Book value (NTD)	Degree of variation	Effect on profit or loss	Effect on other comprehensive income

v. The total exchange gain (loss), including realised and unrealised arising from significant foreign exchange variation on the monetary items held by the Group for the years ended December 31, 2021 and 2020 amounted to $5,789 and ($257,217), respectively.

Price risk

i. The Group's equity securities, which are exposed to price risk, are the held financial assets at fair value through profit or loss and financial assets at fair value through other comprehensive income. To manage its price risk arising from investments in equity securities, the Group diversifies its portfolio. Diversification of the portfolio is done in accordance with the limits set by the Group.

ii. The Group's investments in equity securities comprise shares issued by the domestic companies. The prices of equity securities would change due to the change of the future value of investee companies. If the prices of these equity securities had increased/decreased by 1% with all other variables held constant, post-tax profit for the years ended December 31, 2021 and 2020 would have increased/decreased by $311 and $71, respectively, as a result of gains/losses on equity securities classified as at fair value through profit or loss. Other components of equity would have increased/decreased by $831 and $570, respectively, as a result of other comprehensive income classified as equity investment at fair value through other comprehensive income.

Cash flow and fair value interest rate risk

i. The Group's issued zero coupon liability financial instruments with embedded conversion options and call options. The fair value of the financial instrument is exposed under the risk of market fluctuation. There was no cash flow risk arising from significant changes in interest rate after assessment.

ii. The Group's main interest rate risk arises from long-term borrowings with floating rates, which expose the Group to cash flow interest rate risk, but some of the risks are offset by cash and cash equivalents with variable interest rate. As of December 31, 2021 and 2020, the Group's borrowings at variable rate were mainly denominated in New Taiwan dollars.

iii. If borrowing interest rate had increased/decreased by 0.25% with all other variables held constant, profit, net of tax for the years ended December 31, 2021 and 2020 would have increased/decreased by $9,750 and $7,388, respectively. The main factor is that changes in interest expense result in floating-rate borrowings.

(b) Credit risk

i. Credit risk refers to the risk of financial loss to the Group arising from default by the clients or counterparties of financial instruments on the contract obligations. The main factor is that counterparties could not repay in full the accounts receivable based on the agreed terms, and the contract cash flows of debt instruments stated at fair value through profit or loss.

ii. The Group manages their credit risk taking into consideration the entire group's concern. According to the Group's credit policy, each local entity in the Group is responsible for managing and analysing the credit risk for each of their new clients before standard payment and delivery terms and conditions are offered. Internal risk control assesses the credit quality of the customers, taking into account their financial position, past experience and other factors. Individual risk limits are set based on internal or external ratings in accordance with limits set by the Board of Directors. The utilisation of credit limits is regularly monitored.

iii. If the contract payments were past due over certain days based on the terms, there has been a significant increase in credit risk on that instrument since initial recognition.

iv. The default occurs when the contract payments are expected unrecoverable and are transferred to overdue receivables.

v. The Group classifies customers' accounts receivable in accordance with credit risk on trade. The Group applies the simplified approach using provision matrix to estimate expected credit loss under the provision matrix basis.

vi. The Group used the forecastability to adjust historical and timely information to assess the default possibility of accounts receivable. As of December 31, 2021 and 2020, the provision matrix classified by customers are as follows:

	Group A	Group B	Group C	Group D	Group E	Total
December 31, 2021						
Total book value	$ 7,023,237	$ 269,659	$ 927,935	$ 314,496	$ 69,635	$ 8,604,962
Allowance for sales returns and discounts	(631)	-	-	-	-	(631)
Book value	$ 7,022,606	$ 269,659	$ 927,935	$ 314,496	$ 69,635	$ 8,604,331
Expected loss rate	0.00%	0.01%	0.01%	0.01%	0.01%	
Loss allowance	$ 223	$ 24	$ 112	$ 28	$ 9	$ 396

	Group A	Group B	Group C	Group D	Group E	Total
December 31, 2020						
Total book value	$ 5,372,354	$ 8,028	$ 1,434,279	$ 334,844	$ 280,204	$ 7,429,709
Allowance for sales returns and discounts	(285)	-	-	-	-	(285)
Book value	$ 5,372,069	$ 8,028	$ 1,434,279	$ 334,844	$ 280,204	$ 7,429,424
Expected loss rate	0.00%	0.00%	0.01%	0.01%	0.01%	
Loss allowance	$ 246	$ -	$ 121	$ 26	$ 22	$ 415

Accounts receivable is grouped based on stock liquidity, paid-in capital, current ratio and debt ratio of counterparties.

vii. Movements in relation to the Group applying the simplified approach to provide loss allowance for accounts receivable are as follows:

	2021	2020
	Accounts receivable	Accounts receivable
At January 1	$ 415	$ 1,106
Reversal of impairment loss	(19)	(691)
At December 31	$ 396	$ 415

For provisioned loss for the years ended December 31, 2021 and 2020, the reversal of impairment loss from customers' contracts is $19 and $691, respectively.

(c)Liquidity risk

i. Cash flow forecasting is performed in the operating entities of the Group and aggregated by Group treasury. Group treasury monitors rolling forecasts of the Group's liquidity requirements to ensure it has sufficient cash to meet operational needs while maintaining sufficient headroom on its undrawn committed borrowing facilities.

ii.Surplus cash held by the operating entities over and above balance required for working capital management are invested in interest bearing current accounts, time deposits, Bonds with repurchase agreements, structured certificates of deposit and marketable securities, choosing instruments with appropriate maturities or sufficient liquidity to provide sufficient headroom as determined by the abovementioned forecasts. As of December 31, 2021 and 2020, the Group held money market position of $18,079,184 and $19,671,078, respectively, that are expected to readily generate cash inflows for managing liquidity risk.

iii. The table below analyses the Group's non-derivative financial liabilities and net-settled or gross-settled derivative financial liabilities into relevant maturity groupings based on the remaining period at the balance sheet date to the contractual maturity date for non-derivative financial liabilities and to the expected maturity date for derivative financial liabilities. The amounts disclosed in the table are the contractual undiscounted cash flows.

December 31, 2021	Less than 1 year	Between 1 and 2 years	Over 2 years

Derivative financial liabilities: None.			

(3) Fair value information

A. The different levels that the inputs to valuation techniques are used to measure fair value of financial and non-financial instruments have been defined as follows:

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date. A market is regarded as active where a market in which transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis. The fair value of the Group's investment in listed stocks with quoted market prices is included in Level 1.

Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly. The fair value of the Group's investment in certain derivative instruments is included in Level 2.

Level 3: Unobservable inputs for the asset or liability. The fair value of the Group's investment in equity investment without active market is included in Level 3.

B. Financial instruments not measured at fair value

The carrying amounts of financial instruments not measured at fair value, including cash and cash equivalents, financial assets at amortised cost, notes receivable, accounts receivable, other receivables, guarantee deposits paid (recorded in “Other non-current assets”), accounts payable, other payables, lease liabilities, bonds payable, long-term borrowings and guarantee deposits received (recorded in “Other non-current assets”), are approximate to their fair values.

C. The related information of financial and non-financial instruments measured at fair value by level on the basis of the nature, characteristics and risks of the assets and liabilities is as follows:

(a) The related information of natures of the assets and liabilities is as follows:

December 31, 2021	Level 1	Level 2	Level 3	Total
Assets				
Recurring fair value measurements				
Financial assets at fair value through profit or loss				
Equity securities	$ 31,067	$ -	$ -	$ 31,067

Equity securities	-	-	57,016	57,016
	$ 7,060	$1,322,743	$ 57,038	$1,386,841

Liabilities: None.

(b) The methods and assumptions the Group used to measure fair value are as follows:

i. The instruments the Group used market quoted prices as their fair values (that is, Level 1) are listed below by characteristics:

	Listed shares
Market quoted price	Closing price

ii. The assessment of structured certificates of deposit is calculated based on the product revenue that is provided by counterparties.

iii. Forward exchange contracts are usually valued based on the current forward exchange rate.

iv. Except for financial instruments with active markets, the fair value of other financial instruments is measured by using valuation techniques or by reference to counterparty quotes. The fair value of financial instruments measured by using valuation techniques can be referred to current fair value of instruments with similar terms and characteristics in substance, discounted cash flow method or other valuation methods, including calculated by applying model using market information available at the consolidated balance sheet date.

v. For high-complexity financial instruments, the fair value is measured by using self-developed valuation model based on the valuation method and technique widely used within the same industry. The valuation model is normally applied to derivative financial instruments, debt instruments with embedded derivatives or securitised instruments. Certain inputs used in the valuation model are not observable at market, and the Group must make reasonable estimates based on its assumptions. The effect of unobservable inputs to the valuation of financial instruments is provided in Note 12(3)H.

D. For the years ended December 31, 2021 and 2020, there was no transfer between Level 1 and Level 2.

E. The following chart is the movement of Level 3 for the years ended December 31, 2021 and 2020:

	2021	
	Derivative instruments	Non-derivative equity instruments
At January 1	$ 22	$ 57,016
Issued in the year	(7,506)	-
Gains recognised in profit or loss (Note)	(5,517)	-
Losses recognised in other comprehensive income	-	(1,886)
Investments in the year	-	27,940
Conversion in the year	(20)	-
December 31	($ 13,021)	$ 83,070
Movement of unrealised gain in profit or loss of assets and liabilities held as of December 31, 2021 (Note)	($ 5,517)	$ -

	2020	
	Derivative instruments	Non-derivative equity instruments
At January 1	($ 448)	$ 30,550
Investments in the year	-	29,725
Gains recognised in profit or loss (Note)	1,866	-
Losses recognised in other comprehensive income	-	(3,259)
Conversion in the year	(1,396)	-
December 31	$ 22	$ 57,016
Movement of unrealised gain in profit or loss of assets and liabilities held as of December 31, 2020 (Note)	$ 1,866	$ -

Note: Recorded as non-operating income and expenses.

F. For the years ended December 31, 2021 and 2020, there was no transfer into or out from Level 3.

G. Treasury segment is in charge of valuation procedures for fair value measurements being categorised within Level 3, which is to verify independent fair value of financial instruments using the actuarial reports issued by external experts. Such assessment is to ensure the valuation results are reasonable by applying independent information to make results close to current market conditions, confirming the resource of information is independent, reliable and in line with other resources and represented as the exercisable price, and frequently calibrating valuation model, performing back-testing, updating inputs used to the valuation model and making any other necessary adjustments to the fair value.

H. The following is the qualitative information of significant unobservable inputs and sensitivity analysis of changes in significant unobservable inputs to valuation model used in Level 3 fair value measurement:

	Fair value at December 31, 2021	Valuation technique	Significant unobservable input	Range (weighted average)	Relationship of inputs to fair value
Hybrid instruments:					
Convertible bonds	($ 13,021)	Binary tree Convertible bond valuation	Stock price volatility	30.25%~43.03%	The higher the stock price volatility, the lower the fair value
Non-derivative equity instruments:					
Unlisted shares	$ 83,070	Discounted cash flow	Long-term revenue growth rate and long-term pre-tax operating margin	N/A	The higher the long-term revenue growth rate and long-term pre-tax operating margin, the higher the fair value

	Fair value at December 31, 2020	Valuation technique	Significant unobservable input	Range (weighted average)	Relationship of inputs to fair value
Hybrid instruments:					
Convertible bonds	$ 22	Binary tree Convertible bond valuation	Stock price volatility	35.77%~43.60%	The higher the stock price volatility, the higher the fair value
Non-derivative equity instruments:					
Unlisted shares	$ 57,016	Discounted cash flow	Long-term revenue growth rate and long-term pre-tax operating margin	N/A	The higher the long-term revenue growth rate and long-term pre-tax operating margin, the higher the fair value

I. The Group has carefully assessed the valuation models and assumptions used to measure fair value. However, use of different valuation models or assumptions may result in different measurement. The following is the effect of profit or loss or of other comprehensive income from financial assets and liabilities categorised within Level 3 if the inputs used to valuation models have changed:

			December 31, 2021			
			Recognised in profit or loss		Recognised in other comprehensive income	
	Input	Change	Favourable change	Unfavourable change	Favourable change	Unfavourable change
Financial assets						
Equity instruments	$ 83,070	±1%	$ -	$ -	$ 831	($ 831)
Financial liabilities						
Hybrid instruments	Stock price volatility	±5%	$ 1,681	($ 2,354)	$ -	$ -

			December 31, 2020			
			Recognised in profit or loss		Recognised in other comprehensive income	
	Input	Change	Favourable change	Unfavourable change	Favourable change	Unfavourable change
Financial assets						
Equity instruments	$ 57,016	±1%	$ -	$ -	$ 570	($ 570)
Hybrid instruments	Stock price volatility	±5%	$ 13	($ 9)	$ -	$ -

(4) Other matters

Based on the Group's assessment of its purchasing strategies, transportation costs and customer shipment status, there was no significant impact on the Group's operations at this stage due to the Covid-19 pandemic. The Group will continue to monitor the subsequent development of the pandemic and adjust the countermeasures in a timely manner.
